TOWN ACCOUNTANT.

Edward B. Hill.

BROOKLINE TOWN RECORDS

FOR THE MUNICIPAL YEAR 1897-8.

ANNUAL TOWN MEETING, MARCH 31, 1897.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the town Hall, on Wednesday, the thirty-first day of March, current, at seven o'clock in the forenoon, for the following purposes, to wit:—

First, To choose a Moderator.

Second, To choose by ballot the following town officers: One Town Clerk, for one year; five Selectmen, for one year; one Collector of Taxes, for one year; one Treasurer, for one year; three Assessors, for one year; three members of the School Committee, for three years; four Trustees of the Public Library, for three years; two Trustees of Walnut Hills Cemetery, for three years; one Commissioner of the Sinking Fund, for three years; one Park Commissioner, for three years; one member of the Water Board, for three years; three Auditors, for one year; a Committee for Planting Trees, of three members, for one year; five Constables, for one year; two Fence Viewers, for one year.

Also, upon the same ballot to vote "Yes" or "No" upon the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?"

For these purposes the polls will be opened at 7.15 o'clock in the forenoon, and may be closed at 5.15 in the afternoon.

Also, to choose or appoint all the other usual town officers in such manner as the town may determine.

Third, To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of taxes.

Fourth, To accept the list of Jurors, as revised by the Selectmen, and posted according to law.

Fifth, To authorize the Selectmen to make a contract for five years, or a less time, for street lighting, with the Welsbach Street Lighting Company of America.

Sixth, To rescind the authority given at the adjourned annual meeting, April 22d, 1896, to borrow $16,000, appropriated at that meeting for the covered channel for the brook from Beacon street to Park street, to approve the payment of $10,102.19 therefor, from unexpended balances and money in the treasury not otherwise appropriated, and to reappropriate $5,897.81 therefor, the same to be included in the tax levy of 1897.

Seventh, To appropriate $4,000 to grade and finish Longwood Playground, and to authorize the Treasurer to borrow the same.

Eighth, To see if the town will authorize the Selectmen to procure plans and specifications with estimates for a new stable for the Highway Department on the Nahum Smith lot, and to make an appropriation therefor.

Ninth, To see if the town will abate the tax levied against the estate of Theodore H. Bell (George E. Henry, Executor), of fifty-seven dollars and four cents ($57.04) assessed for the year 1896; said estate having been settled and final returns made to the Court previous to May 1st, 1896, the year that assessment was levied.

Tenth, To see if the town will authorize the Selectmen to employ a "Town Solicitor" at a salary to be fixed by the town.

Eleventh, To see if the town will provide additional school accommodations for the scholars in the "Devotion School District."

Twelfth, To change the name of Sewall place to Wellington street.

Thirteenth, To see if the town will appropriate a sum of money sufficient to bring the grade of the Cypress-street Playground to the grade of Tappan street, Gorham avenue, and Davis avenue, re-sod the same, and put in a cross-walk from the Brookline Hills Station to the northerly side of Davis avenue where it connects with Keiffer road.

Fourteenth, To hear and act upon the reports of town officers and committees.

Fifteenth, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any other town officers or committees, or as may be required to defray the expenses of the town for the financial year 1897–8.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-second day of March, in the year of our Lord one thousand eight hundred and ninety-seven.

HORACE JAMES,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
WM. F. HUMPHREY,
LUTHER M. MERRILL,
Selectmen of Brookline.

NORFOLK, SS. BROOKLINE, March 24, 1897.

By virtue of the within warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and I also posted printed attested copies of said warrant in three or more public places in said Brookline, all of which was done seven days at least before the said day of meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall, in said town, on Wednesday, the thirty-first day of March, in the year of our Lord one thousand eight hundred and ninety-seven, and were called to order at seven of the clock in the forenoon, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served it upon the inhabitants.

First Article taken up, — "To choose a Moderator."

Voted, That the polls be kept open four minutes.

The Town Clerk then declared the polls open for the reception of votes for Moderator, and they were kept open four minutes, when they were declared closed. The votes were then sorted and counted, and the whole number given was fifty-seven, as follows: —

For Moderator, — Rufus G. F. Candage had twenty-eight. Leslie C. Weed had twenty-nine, and was declared elected.

The meeting was then called to order, and prayer was offered by Rev. Leonard K. Storrs, D. D.

Voted, That the consideration of the third and fourth articles in the warrant be postponed until eight o'clock this evening, and taken up at that time.

Voted, That the Moderator of this meeting, with the outgoing and incoming Selectmen, the Town Clerk and Town Treasurer, and thirty citizens at large, be appointed by the Moderator, to constitute a committee to consider the appropriations recommended by the Selectmen and other town officers and committees, and the remaining articles in the warrant after the fourth article, and to report in print, with appropriate forms of votes, at the adjournment of this meeting. The report of the committee shall be distributed as the annual reports of the town officers are usually distributed.

In conformity with the foregoing vote, the Moderator appointed the following citizens to constitute said committee, viz.: —

Thomas Aspinwall,	James B. Hand,
James R. Dunbar,	Osborne Howes,
Clement K. Fay,	Alfred E. Kenrick,
Alfred D. Chandler,	William H. Lincoln,
R. G. F. Candage,	George F. Maxwell,
Dr. H. L. Chase,	Oscar B. Mowry,
W. R. Chester,	Frank H. Monks,
Nathaniel Conant,	Thomas Mahon,
Tucker Daland,	Michael J. O'Hearn,
Charles H. Drew,	Patrick O'Loughlin,
Desmond FitzGerald,	Charles H. Pearson,
Horace F. Frazer,	Charles S. Sargent,
Emery B. Gibbs,	Charles H. Utley,
John M. Graham,	Alfred Winsor,
John J. Henry,	Joseph Walker.

Voted, That when this meeting adjourns, it be to meet in this place on Wednesday, the fourteenth day of April next, at half-past seven of the clock in the evening.

Second Article taken up, — "To choose by ballot the following Town Officers: One Town Clerk, for one year; five Selectmen, for one year; one Collector of Taxes, for one year; one Treasurer, for one year; three Assessors, for one year; three members of the School Committee, for three years; four Trustees of the Public Library, for three years; two Trustees of Walnut Hills Cemetery, for three years; one Commissioner of the Sinking Fund, for three years; one Park Commissioner, for three years; one member of the Water Board, for three years; three Auditors, for one year; a Committee for Planting Trees, of three members, for one year; five Constables, for one year; two Fence Viewers, for one year. Also, upon the same ballot, to vote 'Yes' or 'No' upon the question, 'Shall licenses be granted for the sale of intoxicating liquors in this town?' For these purposes the polls will be opened at 7.15 o'clock in the forenoon, and may be closed at 5.15 in the afternoon. Also, to choose or appoint all the other usual town officers in such manner as the town may determine."

Voted, That the Board of Selectmen to be elected, and Mrs. Henrietta G. Codman and Miss Martha W. Edgerly, be the Overseers of the Poor for the ensuing year.

Voted, That the polls be kept open for voting under the second article until thirty-five minutes past five of the clock in the afternoon.

In conformity with the laws of this Commonwealth relating to elections, the Town Hall had been fitted up as a polling place, a space railed off and fifty shelves or compartments provided for the convenience of voters to examine and mark their ballots, each compartment being supplied with cards of instruction and suitable conveniences for that purpose.

The Moderator appointed Constable Willard Y. Gross to have charge of the space inside of the railing.

The ballot clerks, Edwin A. Robart and Francis F. Muldowney, who had been appointed by the Selectmen, were sworn by the Town Clerk. The ballot clerks were then stationed at the entrance to the polling places, and furnished with duplicate lists of the registered voters of the town, one for men and one for women.

The Town Clerk, in conformity with the provisions of chapter four hundred and seventeen of the Acts of the year eighteen hundred and ninety-three, then delivered to the ballot clerks four sealed packages marked "Official Ballots for the Town of Brookline, March 31, 1897;" one package marked "1200" and three packages marked "1100" each; and two packages marked "Special Ballots for Women Only, March 31, 1897," marked "250" each; which he had caused to be printed and prepared for the purpose above named, and took their receipt therefor, said ballots to be delivered by them to the legal voters as called for, and to check their names on the lists when so delivered. Cards of instruction and specimen ballots were also posted in different places in the hall outside of the railing.

The ballot-box to be used at elections (the Ideal) was then opened in the public meeting and examined by the Moderator and Town Clerk, and shown to be empty. The register of the box was then set at zero (0) and locked, and the key delivered to Constable Willard Y. Gross. The polls were then declared open for the reception of votes, at fifteen minutes past seven of the clock in the forenoon.

The Moderator then appointed the following assistant ballot clerks and tellers: Frederic M. Bond, Edwin N. Tyler, John E. Griffin, Harry H. Whitney, Alfred E. Kenrick, George P. Johnson, Bradford Kingman, Charles A. Bowditch, Sumner H. Foster, William O'Hearn, John A. Curtin, Tucker Daland, Frederic A. Flood, Robert A. Smiley, Alexander S. Arthur,

Thomas F. Lacey, Michael J. O'Hearn, Edward Mullowney, John W. Shields, Herbert R. Chase, and they were sworn by the Town Clerk.

After giving due notice of the closing of the polls they were declared closed at thirty-five minutes past five of the clock in the afternoon.

During the voting the ballot-box was opened several times, by the consent of the Moderator and Town Clerk, for the purpose of counting the ballots cast, and again at the close of the polls when the register of the ballot-box stood at one thousand three hundred and ninety-five.

The lists of voters used by the ballot clerks were then counted up and compared with those used by the Town Clerk and were found to agree. The number of ballots left at the close of the polls deducted from the number receipted for by the ballot clerks, showed that one thousand two hundred and eighty-five ballots had been delivered to men, and one hundred and ten to women.

The Moderator and tellers then canvassed the votes given in, and the whole number was one thousand three hundred and ninety-five; one hundred and ten were women's votes for School Committee; which were sorted, counted and declaration thereof made in open town meeting; and the following-named persons having a plurality, were declared elected, viz.: —

Town Clerk:

Benjamin F. Baker had eight hundred and fifty-eight, and was declared elected. (Sworn by the Moderator.)

Selectmen:

James M. Codman, Jr., had ten hundred and seventy-one. (Sworn by the Town Clerk as Selectman and Overseer of the Poor.)

Eben W. Reed had eight hundred and ninety-eight.
And they were declared elected.

On the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?" the whole number of votes was eleven hundred and seventy-two, as follows, to wit: —

"Yes," four hundred and sixty-nine (469).

"No," seven hundred and three (703).

In voting the check lists were used, one for men and one for women voters, and no person was allowed to deposit his or her vote until their names were found on the list and checked.

The meeting then nominated and chose the following list of officers, to wit: —

Surveyors of Lumber and Measurers of Wood and Bark: Francis H. Bacon (sworn by the Town Clerk), Merrill V. Brown, William K. Melcher (sworn by the Town Clerk), John E. Cousens.

Sealer of Weights and Measures: Willard Y. Gross (sworn by the Town Clerk).

Sealer of Leather: William K. Melcher (sworn by the Town Clerk).

Field Driver: Eben W. Reed.

Pound Keeper: Eben W. Reed.

Committee on Brookline Cemetery: Henry S. Hatch. (Accepted.)

At eight of the clock in the evening, pursuant to the vote passed at the opening of the meeting, the third and fourth articles in the warrant were taken up for consideration and action, to wit: —

Third Article taken up, — "To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of taxes."

Voted, That for the purpose of procuring a temporary loan to, and for the use of, the town of Brookline, in anticipation of the taxes of the present municipal year, the Town Treasurer is hereby authorized and directed to borrow, from time to time, with the approval of the Board of Selectmen, a sum or sums in the aggregate amounting to three hundred and fifty thousand dollars, and to execute and deliver the note or notes of the town therefor, payable within one year from the time the loan is made, with interest thereon at a rate not exceeding six per cent per annum. Any debt or debts incurred by a loan or loans to the town under this vote shall be paid from the taxes of the present municipal year.

Fourth Article taken up, — "To accept the list of Jurors, as revised by the Selectmen and posted according to law."

The list of Jurors, as revised by the Selectmen and posted according to law, was then presented, and after the names of Joseph W. Hall and Theodore Jones had been struck off at their own request, the list was submitted, as follows, viz.: —

List of Jurors for the Town of Brookline, for the Year 1897.

Brookline, Mass., March 15, 1897.

Voted, That the list of Jurors revised by the Selectmen and posted according to law, be accepted.

The votes cast and the lists of voters used at the polls were then sealed up and endorsed by the Moderator and Town Clerk, and the lists of voters used by the ballot clerks, and the ballots left of the broken packages, were then sealed up, endorsed by the ballot clerks, and delivered into the custody of the Town Clerk.

Adjourned to meet in this place on Wednesday, the fourteenth day of April next, at half-past seven of the clock in the evening.

Attest: B. F. Baker, *Town Clerk.*

In conformity with the laws of this Commonwealth, the Town Clerk forthwith made out his warrant and delivered it to Constable Willard Y. Gross, requiring him, within three days from the date thereof, to summon all officers chosen, and not qualified, to appear before the Town Clerk within seven days from the date of such notice, to be qualified for their several offices; to be sworn where an oath is required, or to signify their refusal of the same; also, to signify their acceptance or refusal of the office to which they have been chosen, where an oath is not required.

Attest: B. F. Baker, *Town Clerk.*

Commonwealth of Massachusetts.

Norfolk, ss.

Then personally appeared the persons below named, and were sworn to the faithful discharge of the duties of their office, at the time set against their names, or filed a certificate of having been sworn by a justice of the peace, or signified their acceptance or refusal of the office to which they had been chosen, viz: —

ADJOURNED ANNUAL MEETING, APRIL 14th, 1897.

Pursuant to adjournment, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall, in said town, on Wednesday, the fourteenth day of April, in the year of our Lord one thousand eight hundred and ninety-seven, and were called to order at half-past seven of the clock in the evening, by the Moderator, Leslie C. Wead.

Fifteenth Article taken up, — "To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any other town officers or committees, or as may be required to defray the expenses of the town for the financial year 1897–8."

On motion of Mr. James M. Codman, Jr., it was

Voted, That for the purpose of determining the amount expended under any appropriation, all repayments and credits shall be deducted from the total amount charged against the appropriation; but this vote shall not be construed to apply to actual cash received from taxes, assessments, water rates, rents, fees, fines or interest.

The meeting then proceeded to make the following appropriations, all of which were voted unanimously, with receipts, to wit:—

For Highways	$60,000 00
Sidewalks	16.000 00

Engineering Department	7,000 00
Town Engineer	3,000 00
Contingencies and legal expenses	7,500 00
Printing and advertising	4,000 00
Town Hall and janitor	3,200 00
Repair of Town buildings	3,000 00
Decoration Day	400 00
Brookline Cemetery	200 00
Walnut Hills Cemetery clerk	150 00
Ringing bells	175 00
County tax	* 58,354 17
State tax	* 41,632 50
Interest on funded debt	87,887 81
Interest on loans in anticipation of taxes	7,094 80
Payment to Sinking Fund	77,500 00
Treasurer of Sinking Fund	200 00
Maturing debt (not Sinking Fund)	173,261 00
Putting fire-alarm wires under ground	1,500 00
Rent, etc., for Assessors' office	650 00
New hose	1,000 00
New hook and ladder truck	4,000 00

*Or such sums as may be assessed.

Voted, To authorize the Water Board to lay a water main in Howard street, as petitioned for by Ernest W. Bowditch, at an estimated cost of $1,547, and that the extension account be increased by said amount.

Voted, To authorize the Water Board to lay a water main in Howard street, as petitioned for by Ernest W. Bowditch, he having agreed to pay five per cent per annum upon the actual cost of construction until the income derived from water rates shall equal this sum, at an estimated cost of $1,547.

On motion of Mr. Horace James, it was

Voted, That the Selectmen report to the town at the next special town meeting whatever action may be necessary to provide at the next annua town meeting for the election of one Assessor for the term of one year, one Assessor for the term of two years, and one Assessor for the term of three years; and at each annual meeting thereafter, one Assessor for the term of three years. (Acts 1893, Chap. 417, § 268.)

On motion of Mr. Horace James, it was

Voted, That until further action by the town the care of all public grounds and all appropriations made therefor shall be in charge of the Board of Park Commissioners.

On motion of Mr. James M. Codman, Jr., it was

Voted, That the sum of one hundred thousand dollars ($100,000) appropriated at the adjourned annual town meeting April 14, 1896, for the purchase of land for public playgrounds, be reappropriated.

Mr. James M. Codman, Jr., then offered the following vote, to wit: —

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow from time to time the sum of one hundred thousand dollars ($100,000), reappropriated at this meeting, for the purchase of land for public playgrounds, giving therefor the note or notes of the town, bearing interest at a rate not exceeding four per centum per annum, payable semi-annually, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such note or notes shall be made payable within thirty years from the date thereof.

The Moderator appointed as tellers Messrs. Joseph Walker and Thomas F. Barrett, and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was one hundred and thirty-one, as follows: Yes, one hundred and thirty-one (131); no, none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Voted, That no purchase of land or expenditure of money under the authority of the foregoing vote shall be made by the Park Commissioners, except with the previously obtained written approval of the Board of Selectmen.

Voted, That the Park Commissioners are requested to examine into and report to the town upon the advisability of securing for a public reservation a considerable tract of waste or unimproved land.

Fifth Article taken up, — "To authorize the Selectmen to make a contract for five years, or a less time, for street lighting, with the Welsbach Street Lighting Company of America."

Voted, That the Selectmen be authorized to make a contract with the Welsbach Street Lighting Company of America for one hundred (100) Welsbach lights or more; these to be located in such parts of the town as the Selectmen may consider desirable. Such contract may be for a term of not more than five years, provided that it shall be terminable at the pleasure of the town at the expiration of one year.

Sixth Article taken up, — "To rescind the authority given at the adjourned annual meeting, April 22d, 1896, to borrow $16,000 appropriated at that meeting for the covered channel for the brook from Beacon street to Park street, to approve the payment of $10,102.19 therefor from unexpended balances and money in the treasury not otherwise appropriated, and to reappropriate $5,897.81 therefor, the same to be included in the tax levy of 1897."

Voted, That the authority given at the adjourned annual meeting, April 22, 1896, to borrow $16,000 appropriated at that meeting for the covered channel for the brook from Beacon street to Park street, be rescinded; that the payment of $10,102.19 therefor during the last financial year, from unexpended balances and money in the treasury not otherwise appropriated, be approved; and that the sum of $5,897.81 be reappropriated therefor, the same to be included in the tax levy of 1897.

Seventh Article taken up, — "To appropriate $4,000 to grade and finish Longwood Playground, and to authorize the Treasurer to borrow the same."

Mr. Horace James then offered the following vote, to wit:

Voted, That the sum of $4,000 be appropriated for filling and grading Longwood-avenue Playground.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and five, as follows, to wit: "Yes," one hundred and five (105):

"No," none (0), and the vote was declared passed in the affirmative, by more than two-thirds of the voters present and voting thereon.

Eighth Article taken up —"To see if the town will authorize the Selectmen to procure plans and specifications with estimates for a new stable for the Highway Department on the Nahum Smith lot, and to make an appropriation therefor."

Voted, That the Selectmen be authorized to procure plans and specifications with estimates for a new stable for the Highway Department on the northerly part of the Nahum Smith lot, and that $200 be appropriated for that purpose.

Ninth Article taken up,—"To see if the town will abate the tax levied against the estate of Theodore H. Bell (George E. Henry, executor), of fifty-seven dollars and four cents ($57.04) assessed for the year 1896; said estate having been settled and final returns made to the court previous to May 1, 1896, the year that assessment was levied."

Voted, That it is inexpedient for the town to take any action under this article.

Tenth Article taken up,—"To see if the town will authorize the Selectmen to employ a 'Town Solicitor' at a salary to be fixed by the town."

Voted, That the tenth article be indefinitely postponed.

Eleventh Article taken up,—"To see if the town will provide additional school accommodations for the scholars in the 'Devotion School District.'"

Voted, That the matter of further school accommodations in the "Devotion School District," and article eleven be referred to the School Committee, with the request that they report to the town at the next town meeting, with suggestions for such additional accommodations as are required.

Twelfth Article taken up,—"To change the name of Sewall place to Wellington street."

Voted, That the twelfth article be indefinitely postponed.

Thirteenth Article taken up,—"To see if the town will appropriate a sum of money sufficient to bring the grade of the Cypress-street Playground to the grade of Tappan street, Gorham avenue and Davis avenue, re-sod the same, and put in

a cross-walk from the Brookline Hills station to the northerly side of Davis avenue, where it connects with Keiffer road."

Voted, That the petitioners have leave to withdraw.

Fourteenth Article taken up,—"To hear and act upon the reports of town officers and committees."

Voted, That the reports of town officers and committees, which have been printed and distributed through the town, be accepted.

Voted, That the subject of a new police station, additional accommodations for the Pierce Primary and Grammar schools and other public buildings in the vicinity of the Town Hall, be referred to a joint committee consisting of the Board of Park Commissioners, three members of the Board of Selectmen to be chosen by said board, and three members of the School Committee to be chosen by that committee; said joint committee to give a public hearing or hearings, obtain such professional advice as they may deem desirable and report their recommendations to the town.

Voted, That $900 be appropriated for the expenses of said joint committee.

Fifteenth Article taken up,—"To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any other town officers or committees, or as may be required to defray the expenses of the town for the financial year 1897–8."

Voted, That the money voted at this annual town meeting and the adjournments thereof, together with that appropriated since the last assessment of taxes, not otherwise provided for, be assessed after deducting the balance in the treasury and the estimated receipts for the ensuing year, upon the polls and estates taxable in this town, and collected as the town charges are usually assessed and collected.

Voted, That on all taxes of the current year remaining unpaid after November 1st, interest shall be charged at the rate of six per cent per annum.

Voted, That the thanks of the meeting be extended to the Moderator for the efficient manner in which he has presided over its deliberations.

Dissolved. Attest: B. F. Baker, *Town Clerk.*

SPECIAL MEETING, JUNE 30, 1897.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss.

To either of the Constables of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Wednesday, the thirtieth day of June, current, at half-past seven o'clock in the evening, for the following purposes, to wit:—

First, To choose a Moderator.

Second, To accept and allow the alteration and widening of Longwood-avenue Bridge and approaches thereto, including parts of Longwood avenue and Chapel street, as laid out by the Park Commissioners and reported to the town at this meeting, to appropriate $87,000 therefor, and authorize the Treasurer to borrow the same.

Third, To accept and allow Naples road, as laid out by the Selectmen and reported to the town at this meeting, to appropriate $900 to pay the land damages and expenses of construction, and to authorize an entry for the purposes of construction before all claims for damages are finally adjusted.

Fourth, To accept and allow Manchester road, as laid out by the Selectmen and reported to the town at this meeting.

Fifth, To accept and allow Osborne road, as laid out by the Selectmen and reported to the town at this meeting.

Sixth, To accept and allow Abbottsford road, as laid out by the Selectmen and reported to the town at this meeting.

Seventh, To accept and allow a new covered channel for a portion of Tannery Brook, so called, as laid out by the Selectmen and reported to the town at this meeting, and to appropriate $200 for its construction.

Eighth, To make an appropriation for the Metropolitan Sewer Tax.

Ninth, To authorize and instruct the Selectmen to petition the next General Court for such amendments to Chapter 57 of the Acts of 1885, as will give to the Tree Planting Committee the same or similar control over shade trees as is now by law vested in Tree Wardens and Park Commissioners.

Tenth, To see if the town will approve the rules and regulations of the Trustees of Walnut Hills Cemetery.

Eleventh, To see if the town will appropriate the sum of two hundred ($200) dollars, with which to procure plans and specifications for a new grammar school building to be erected in the Devotion School District.

Twelfth, To adopt a by-law in relation to pile foundations, and to amend the building laws relating to walls in apartment and other buildings.

Thirteenth, To amend the by-law in relation to rain-water conductors.

Fourteenth, To hear and act upon the report of the Committee to which was referred the subject of a new Police Station and additional school and other accommodations in the vicinity of the Town Hall; to appropriate $100,000 towards the cost of obtaining any or all of such additional accommodations, and to authorize the Treasurer to borrow the same.

Fifteenth, To see if the town will vote to amend article eight of the Town By-Laws, by striking out the word "Accountant" wherever it occurs in said article eight, and by inserting in place thereof the word "Auditor;" also, to see if the town will vote to further amend said article eight by striking out the first line of section thirty-one, and inserting in place thereof the words, "The town at its annual meeting shall in every year choose by ballot one Auditor," so that when amended, said section thirty-one will read as follows: — "Section 31. The town at its annual meeting shall in every year choose by ballot one Auditor, who shall," etc., etc.

Sixteenth, To hear and act upon reports of town officers and committees.

Seventeenth, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any town officers or committees.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-second day of June, in the year of our Lord one thousand eight hundred and ninety-seven.

HORACE JAMES,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
LUTHER M. MERRILL,
Selectmen of Brookline.

NORFOLK, SS. BROOKLINE, June 24, 1897.

By virtue hereof, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of this warrant to be left at their last and usual place of abode, and I also posted attested copies of the same warrant in three or more public places in said Brookline, all of which was done four days at least before the day of said meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall, in said town, on Thursday, the thirtieth day of June, in the year of our Lord one thousand eight hundred and

ninety-seven, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up,—"To choose a Moderator."

The meeting nominated and chose for Moderator Rufus G. F. Candage.

Second Article taken up,—"To accept and allow the alteration and widening of Longwood-avenue Bridge and approaches thereto, including parts of Longwood avenue and Chapel street, as laid out by the Park Commissioners and reported to the town at this meeting, to appropriate $87,000 therefor, and to authorize the treasurer to borrow the same."

Voted, That the reading of the report be dispensed with.

The Park Commissioners presented the following report on the alteration and widening of Longwood-avenue Bridge and the approaches thereto, including parts of Longwood avenue and Chapel street, to wit:—

We, the undersigned, duly elected and qualified Board of Park Commissioners of the Town of Brookline, having given printed and written notices to the Town of Brookline, Boston & Albany Railroad Co., Charles H. and heirs of Marshall Stearns, John P. Webber, and Dexter N. Richards, being all the parties known to us to be interested in the subject-matter of the streets to be altered and widened, of our intention to alter and widen, under the provisions of Chapter 162 of the Acts of 1897, Longwood avenue between a point 150 feet westerly from the westerly side-line of Chapel street and the boundary line between the town of Brookline and the city of Boston, and that Chapel street be altered to conform thereto; such notices requiring such persons and corporations to appear before us at the Selectmen's room in the Town Hall on Thursday, the eighth day of April, 1897, at five o'clock in the afternoon, and having caused such notices to be actually served according to law upon all such persons and corporations by a constable of this town, seven days at least before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the altering and widening of said streets, whose names are not known to us, by posting up true and attested copies of the same notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and after hearing all the parties and their remarks and objections, and the streets having been viewed and examined by us, do adjudge that it is necessary for the public convenience that the same should be altered and widened as hereinafter described.

Beginning at the point upon the southerly line of Longwood avenue as now located, situated 134.37 feet easterly from the stone monument marking the boundary line between land of John P. Webber and land of Charles H. Stearns and heirs of Marshall Stearns, and running south 79° 10′ 7″ east for a distance of 6.63 feet to a point situated 31.00 feet westerly from the easterly line of the location of the Boston & Albany railroad measured at right angles thereto; thence running southerly by a line parallel with the said easterly line of the location of the Boston & Albany railroad and 31.00 feet distant therefrom, 3.54 feet; thence running south 79° 10′ 7″ east about 104.10 feet to the boundary line between the town of Brookline and the city of Boston; thence running northerly by said boundary line about 65.75 feet; thence running north 79° 10′ 7″ west about 107.88 feet to a point situated 31.00 feet westerly from the easterly line of the location of the Boston & Albany railroad measured at right angles thereto; thence running southerly by a line parallel with and 31.00 feet distant from said easterly line of the location of the Boston & Albany railroad, 3.74 feet; thence running north 79° 10′ 7″ west, 5.01 feet; thence curving to the right with a radius of 16.00 feet 29.91 feet to the easterly line of Chapel street, and taking land as follows, viz.: —

From the Boston & Albany Railroad Company a parcel of land bounded northerly by the present location of Longwood avenue 6.95 feet, easterly by other land of said railroad company 1.28 feet, southerly by other land of said railroad company 6.63 feet, containing 4 square feet.

Also from the said Boston & Albany Railroad Company a parcel of land bounded easterly by the location of said railroad company 3.07 feet, northerly and northeasterly by other land of said company 34.92 feet, southwesterly by Chapel street and Longwood avenue as now located about 39.65 feet, containing about 106 square feet.

From the Town of Brookline a parcel of land already taken for park purposes, bounded northerly by Longwood avenue as now located about 78.80 feet, easterly by the town line about 26 feet, southerly by other land of the Town of Brookline about 72.75 feet, westerly by the location of the Boston & Albany Railroad Company 10.88 feet, containing about 1300 square feet.

Also from the Town of Brookline a parcel of land already taken for park purposes, bounded southerly by the present location of Longwood avenue 3.42 feet, westerly by the location of the Boston & Albany Railroad Company 0.63 feet, northerly by other land of the Town of Brookline 3.24 feet, containing one (1) square foot.

From the Boston & Albany Railroad location a parcel of land bounded southerly by the present northerly line of Longwood avenue 33.32 feet, westerly by a line parallel with and 31 feet distant westerly from the easterly line of the location of said railroad 6.81 feet, northerly by the northerly line of this alteration of Longwood avenue 31.58 feet, easterly by the easterly line of the location of said railroad 0.63 feet, containing about 116 square feet.

Also from the Boston & Albany Railroad location a parcel of land bounded northerly by the present location of Longwood avenue, easterly

by the easterly line of the location of said railroad 10.88 feet, southerly by the southerly line of this alteration of Longwood avenue 31.35 feet, westerly by a line parallel with and 31 feet distant from the easterly line of the location of said railroad 4.82 feet, containing about 246 square feet.

The two last described parcels are taken only for the purpose of extending the arch masonry bridge which it is proposed to build over said railroad from the northerly and southerly lines of Longwood avenue as now located, to its northerly and southerly lines as hereby altered and widened.

That portion of the street known as Longwood avenue as originally laid out by the County Commissioners which is bounded easterly by the boundary line between Brookline and Boston about 14.6 feet, southerly by the northerly line of this alteration of Longwood avenue about 73.06 feet, and northerly by land of the Town of Brookline about 78 feet, containing about 490 square feet, not being included within the limits of the location of this alteration, is hereby discontinued.

The following described parcels of land are taken for the purpose of furnishing support to the enbankment of Longwood avenue and Chapel street by means of side slopes and wing walls. But such taking shall not affect or impair the right of any owner of such land to use such slopes for building purposes, or to remove said slopes by substituting therefor a sufficient retaining wall, or to use the land covered by said slopes for any other purpose whatsoever incident to the ownership of the fee in said land, that will not impair the security of the highways.

From the Boston & Albany Railroad Company, a parcel of land bounded northerly by Longwood avenue about 51 feet, easterly by the location of said railway company 37.74 feet, southerly by other land of said railroad company about 52.5 feet, westerly by land of Charles H. Stearns and heirs of Marshall Stearns 31.50 feet, and containing about 1752 square feet.

From Charles H. Stearns and heirs of Marshall Stearns a parcel of land bounded northerly by Longwood avenue about 90 feet, east by land of Boston & Albany Railroad Company 31.5 feet, south by other land of said Stearns about 78 feet, west by land of John P. Webber 18 feet, and containing about 2000 square feet.

Also from the Boston & Albany Railroad Company a parcel of land bounded easterly by the location of said company 82.74 feet, northerly by other land of said company about 23 feet, westerly by Chapel street 68 18 feet, southwesterly by the curve at the junction of the east line of Chapel street and the north line of Longwood avenue 29.91 feet, southerly by Longwood avenue 5.01 feet and containing about 1900 square feet.

From Dexter N. Richards a parcel of land lying north of the northerly line of Longwood avenue and west of the westerly line of Chapel street, beginning at a point situated on the northerly line of Longwood avenue where it is intersected by the extension of the previously mentioned boundary line between land of John P. Webber and of Charles H. Stearns and heirs of Marshall Stearns, thence running easterly along the northerly line of said avenue for a distance of 25 feet, where the said parcel

has a width of 1.5 feet; thence running easterly by said northerly line of said avenue for a distance of 33 feet, where said parcel has a width of 3.5 feet; thence running northeasterly by said northerly line of said avenue for a distance of 17 feet, where said parcel has a width of 5 feet; thence northerly by the west line of Chapel street for a distance of 20 feet, where said parcel has a width of 5 feet; thence running northerly by said westerly line of said Chapel street for a distance of 23 feet, where said parcel has a width of 4 feet; thence running northerly by said westerly line of said Chapel street for a distance of 30 feet, where said parcel has a width of 2.5 feet; thence running northerly by said line of said Chapel street for a distance of 20 feet, where said parcel has a width of 0.0 feet, containing about 485 square feet.

The alteration and widening of said Longwood avenue and the alteration of said Chapel street are in accordance with a plan and profile of the same made by Alexis H. French, Civil Engineer, dated April 5th, 1897, approved by us, verified by our signatures, and adopted by us as a part of this record.

No awards are made; the owners of abutting property in consideration of the laying out of said avenue and Chapel street by the Park Commissioners and their acceptance by the town, and the leaving of their estates, in relation to the altered grade, in as good condition as they are at present, agree to waive all claims to land or grade damages.

The estimated cost of constructing the bridge is $85,000.

The estimated cost of constructing the approaches thereto is $2000.

And said avenue as altered, widened and described, and said Chapel street as altered, are hereby reported to the town for acceptance.

Desmond FitzGerald,
Charles S. Sargent,
William H. Lincoln.
Park Commissioners of Brookline.

Brookline, Mass., June 21st, 1897.

Brookline, Mass., June 21, 1897.
Filed in the office of the Town Clerk.
Attest: B. F. Baker, *Town Clerk.*

Voted, That the alteration and widening of Longwood-avenue Bridge and approaches thereto, including parts of Longwood avenue and Chapel street, as laid out by the Park Commissioners, under the authority of Chapter 162 of the Acts of 1897, and reported to the town at this meeting, be accepted and allowed, and that the sum of $87,000 be appropriated to defray the expenses thereof, including the town's share of the expenses of constructing a new bridge between the city of Boston and the town of Brookline, to form a part of said Longwood avenue.

Mr. Horace James then offered the following vote, to wit: —

Voted, That the Town Treasurer be authorized to borrow from time to time, when so directed by the Selectmen, a sum not exceeding eighty-seven thousand dollars ($87,000) in the aggregate, giving therefor the note or notes of the town, bearing interest at a rate not exceeding four

per centum per annum, payable semi-annually, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such note or notes shall be made payable in such annual proportionate payments as will extinguish the same in or within twenty years from their date, and are to be issued for the purpose of defraying expenses incurred by the town under Chapter 162 of the Acts of 1897, and the Park Commissioners are authorized to expend said sum, as appropriated at this meeting, for the above purpose.

The Moderator appointed Messrs. Alfred D. Chandler and Charles T. Duncklee to act as tellers, and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was sixty-eight, as follows, to wit: "Yes," sixty-eight (68); "No," none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Third Article taken up,—"To accept and allow Naples road, as laid out by the Selectmen and reported to the town at this meeting, to appropriate $900 to pay the land damages and expenses of construction, and to authorize an entry for the purposes of construction before all claims for damages are finally adjusted."

Voted, That the reading of the report on said laying out be dispensed with.

The Selectmen presented the following report on the laying out of said Naples road, to wit:—

We, the undersigned, Selectmen of Brookline, having given printed notices to Abby N. Head, Melvina C. Dickerman, Flora E. Wentworth, Sarah J. Whittemore, Florence Kimball, H. S. Woodbury, M. A. Marks, F. N. Morse, Julia Young, F. B. B. Merrifield, Edwin E. Smith, W. N. Janvier, J. H. Newman, J. J. Coon, George H. Fera, Edgar W. Foster, David H. McKay, Peter Graffam, L. Herbert Taft, Mary C. Shapleigh, W. A. DeMerritt, George Sykes, George H. Valper, Lorenzo W. Burlen and John F. Linder, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street from the boundary line between the town of Brookline and the city of Boston, near Commonwealth avenue, to Harvard street, being a private way known as Naples road, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, June 7th, 1897, at five o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not

known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed notices in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and having heard all the parties, their remarks and objections, and the route of the way having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described by its center line.

Beginning at a point on the northeast side of Harvard street situated 1041.74 feet northwest from its intersection with the northwest line of Babcock street measured on the said northeast line of said Harvard street, and running north 37° 2′ 54″ east for a distance of 826.01 feet; thence curving to the left with a radius of 740 feet for a distance of 219.42 feet; thence curving to the left with a radius of 275.00 feet for a distance of 127.64 feet; thence running north 6° 32′ 6″ west for a distance of 250.77 feet to the center line of Gibbs street, and taking a parallel width of twenty-five (25.00) feet on both sides of the above described center line from the northeast side of said Harvard street to the said center line of Gibbs street, and curving with a radius of 15.00 feet, the intersections the side lines of said Naples road with the said northeast line of said Harvard street.

Also, beginning at a point on the center line of said Gibbs street 21.28 feet distant in a northwesterly direction from the point where the center line of the previously described part of Naples road intersects the center line of said Gibbs street, and running north 20° 23′ 14″ east for a distance of 279.99 feet; thence curving to the left with a radius of 575.00 feet for a distance of 129.43 feet; thence running north 7° 29′ 24″ east for a distance of 141.19 feet; thence running north 8° 44′ 24″ east for a distance of 557.42 feet to the boundary line between the city of Boston and the town of Brookline, and taking a parallel width of twenty-five (25.00) feet on both sides of the above described center line. In addition to the land taken for the location of Naples road by the above description, there is also included the following described parcel situated near the junction of Naples road and Gibbs street: Beginning at the point where the easterly side-line of the second mentioned part of Naples road intersects the center line of Gibbs street, thence running north 20° 23′ 14″ east by said easterly line 62.58 feet; thence running southwesterly by a curve to the left of a radius of 75.00 feet for a distance of 50.35 feet; thence running south 6° 32′ 6″ east for a distance of 18.58 feet to the center line of Gibbs street; thence running north 68° 9′ 0″ west by the said center line of Gibbs street for a distance of 24.69 feet to the point of beginning, and taking lands as follows, viz.: —

From the owners of the fee, about 71,870 square feet lying between the north line of Harvard street and land now or late of Peter Graffam.

Also from the owners of the fee, about 18,440 square feet bounded southerly by land now or late of David H. McKay, and northerly by other land now or late of David H. McKay.

Also from the owners of the fee, about 33,871 square feet bounded southerly by land now or late of Peter Graffam, and northerly by the boundary line between the town of Brookline and the city of Boston.

We also take the right to support said street by sloping the banks upon the land of abutting owners; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

For a further identification of this description and location, reference is hereby made to a plan and profile of the same made by Alexis H. French, C. E., dated June 4th, 1897, approved by us, verified by our signatures, and adopted as a part of this record.

We have estimated the damages sustained by the owners of lands, rights and interests caused by the laying out and construction of said street, whether by taking land or injuring property in any manner whatsoever, and do estimate and determine the amount to be paid as follows: —

To the owners of the fee of said private way, $5.00.

The estimated cost of construction is $895.00.

And said street so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Naples road.

The said plan, profile, and this record, have this day been filed in the office of the Town Clerk.

HORACE JAMES,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
LUTHER M. MERRILL,
Selectmen of Brookline.

BROOKLINE, June 21st, 1897.

BROOKLINE, MASS., June 21, 1897.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, That Naples road, as laid out by the Selectmen and reported to the town at this meeting, be accepted and allowed as a townway, and that the sum of $900 be appropriated to pay for land or other damages and for the construction of said Naples road.

Voted, That an entry for the purpose of constructing Naples road be and the same is hereby authorized before all claims for damages by reason of the laying out and construction thereof shall have been finally adjusted or determined.

Mr. Edward Atkinson moved that the vote whereby the report of the Park Commissioners on the alteration and widening of Longwood-avenue bridge and approaches thereto, including parts of Longwood avenue and Chapel street, have been accepted and allowed, be reconsidered.

After considerable debate on the subject, the motion was rejected. Yeas, thirty-three (33); No, seventy-two (72).

Fourth Article taken up, — "To accept and allow Manchester road, as laid out by the Selectmen and reported to the town at this meeting."

Voted, That the reading of the reports on laying out the remaining townways, be dispensed with.

The Selectmen presented the following report on the laying out of Manchester road, to wit: —

We, the undersigned, Selectmen of Brookline, having given written and printed notices to Peter Graffam, L. Herbert Taft, Mary F. Wood, Octave L. Brunelle, Lester F. Stevens and Mary F. Jenks, being all the parties know to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street from Babcock street to Naples road, so called, being a private way known as Manchester road, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, June 21st, 1897, at five o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notices in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and having heard all the parties, and no objections being made, and the route of the way having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described by its center line.

Beginning at a point on the westerly line of Babcock street situated 1144.43 feet southerly from the southerly line of Commonwealth avenue and measured upon the said westerly line of the said Babcock street; thence running south 82° 13′ 4″ west for a distance of 100 feet; thence curving to the right with a radius of 550.23 feet for a distance of 271.08 feet; thence running north 69° 33′ 16″ west for a distance of 420.07 feet to the easterly line of Naples road, and taking from the owners of the fee a parallel width of twenty (20) feet on both sides of the above described center line from the west line of Babcock street to the east line of Naples road, containing about 31,646 square feet.

The location of said Manchester road is in accordance with a plan and profile of the same made by Alexis H. French, Civil Engineer, dated June 4, 1897, approved by us, verified by our signatures, and adopted as a part of this record.

We also take the right to support said road by sloping the banks upon the land of abutting owners, but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building, or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

No awards are made. The owners of the fee of the land over which said road is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land, grade, or other damages.

And said road, so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Manchester road.

The road having been constructed by the owners of the fee, is open to the public for travel.

The said plan, profile, release, and this record, have this day been filed in the office of the Town Clerk.

HORACE JAMES,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
LUTHER M. MERRILL,
Selectmen of Brookline.

BROOKLINE, MASS., June 21st, 1897.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Manchester road as a townway, as laid out and located by the Selectmen and reported to the town at this meeting.

Fifth Article taken up,—"To accept and allow Osborne road, as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of Osborne road, to wit:—

We, the undersigned, Selectmen of Brookline, having given written and printed notices to Peter Graffam, Martha A. McKay, Frank W. Mead, Mary E. Jacobs, Francis E. Parker, John M. Ford, Hattie L. Tucker, Harriet W. Aldrich, Joseph H. Mansfield, Kate F. Conley, Louise A. Chapin, Etta A. Brown, Adelaide Rockfellow and W. A. DeMerritt, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street from Babcock street to Naples road, so called, being a private way known as Osborne road, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, June 21st, 1897, at five o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day appointed for the hearing, and having given notice to

them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, by posting up copies of the printed and written notices in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the way having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described by its center line.

Beginning at a point on the westerly line of Babcock street situated 704.15 feet southerly from the south line of Commonwealth avenue and measured upon the said westerly line of the said Babcock street; thence running westerly by a curve to the right with a radius of 522.08 feet for a distance of 215.48 feet; thence running north 74° 4′ 1″ west for a distance of 407.23 feet to the easterly line of Naples road, and taking from the owners of the fee a parallel width of twenty (20) feet on both sides of the above described center line from the westerly line of Babcock street to the easterly line of Naples road, containing about 24,900 square feet.

The location of said Osborne road is in accordance with a plan and profile of the same made by Alexis H. French, Civil Engineer, dated June 4th, 1897, approved by us, verified by our signatures, and adopted as a part of this record.

We also take the right to support said road by sloping the banks upon the land of abutting owners; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building, or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

No awards are made. The owners of the fee of the land over which said road is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land, grade, or other damages.

And said road, so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Osborne road.

The road having been constructed by the owners of the fee, is open to the public for travel.

The said plan, profile, release, and this record, have this day been filed in the office of the Town Clerk.

Voted, To accept and allow Osborne road as a townway, as laid out and located by the Selectmen and reported to the town at this meeting.

Sixth Article taken up,—"To accept and allow Abbottsford road, as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of Abbottsford road, to wit:—

We, the undersigned, Selectmen of Brookline, having given written and printed notices to Peter Graffam, Frank P. Moss, Eugene G. Surette, Gladys C. Hubbard, Caroline A. Burtchaell, Mary C. Shapleigh, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street from Babcock street to Naples road, so called, being a private way known as Abbottsford road, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, June 21st, 1897, at five o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and having heard all the parties, and no objections being made, and the route of the way having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described by its center line.

Beginning at a point on the westerly line of Babcock street situated 924.26 feet southerly from the southerly line of Commonwealth avenue and measured upon the said westerly line of the said Babcock street; thence running south 82° 13′ 4″ west for a distance of 100 feet; thence curving to the right with a radius of 331.12 feet for a distance of 162.93 feet; thence running north 69° 36′ 6″ west for a distance of 428.86 feet to the easterly line of Naples road, and taking from the owners of the fee a parallel width of twenty (20) feet on both sides of the above described center line from the westerly line of Babcock street to the easterly line of Naples road, containing about 27,670 square feet.

The location of said Abbottsford road is in accordance with a plan and profile of the same made by Alexis H. French, Civil Engineer, dated June 4th, 1897, approved by us, verified by our signatures, and adopted as a part of this record.

We also take the right to support said street by sloping the banks upon the land of abutting owners; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

No awards are made; the owners of the fee of the land over which said street is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land, grade, or other damages.

And said street so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Abbottsford road.

The street having been constructed by the owners of the fee, is open to the public for travel.

The said plan, profile, release, and this record, have this day been filed in the office of the Town Clerk.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Abbottsford road as a townway, as laid out and located by the Selectmen and reported to the town at this meeting.

Seventh Article taken up,—"To accept and allow a new covered channel for a portion of Tannery Brook, so called, as laid out by the Selectmen and reported to the town at this meeting, and to appropriate $200 for its construction."

Voted, That the seventh article be indefinitely postponed.

Eighth Article taken up,—"To make an appropriation for the Metropolitan Sewer Tax."

Voted, That the sum of $13,167.27 be appropriated for the Metropolitan Sewer tax for the year 1897.

Ninth Article taken up,—"To authorize and instruct the Selectmen to petition the next General Court for such amendments to Chapter 57 of the Acts of 1885, as will give to the Tree Planting Committee the same or similar control over shade trees as is now by law vested in Tree Wardens and Park Commissioners."

Voted, That the Selectmen be authorized and instructed to petition the next General Court for such amendments to Chapter 57 of the Acts of 1885, as will give to the Tree Planting Committee the same or similar control over shade trees as is now by law vested in Tree Wardens and Park Commissioners.

Tenth Article taken up,—"To see if the town will approve the rules and regulations of the Trustees of Walnut Hills Cemetery."

Voted, That the rules and regulations of Walnut Hills Cemetery be referred back to the Trustees, for correction and revision.

Eleventh Article taken up,—"To see if the town will appropriate the sum of two hundred ($200) dollars, with which to procure plans and specifications for a new grammar school building to be erected in the Devotion School district."

Voted, That the sum of two hundred ($200) dollars be appropriated to procure plans and specifications for a new grammar school building to be erected in the Devotion School district.

Twelfth Article taken up,—"To adopt a by-law in relation to pile foundations, and to amend the building laws relating to walls in apartment and other buildings."

Voted, That the twelfth article be referred to a committee of three to consider and report upon at a future meeting.

The meeting nominated and chose the following-named gentlemen to constitute said committee: James M. Codman, Jr., William Atkinson and Luther M. Merrill.

Thirteenth Article taken up,—"To amend the by-law in relation to rain-water conductors."

Voted, That Section 71 of the Town By-Laws be amended to read as follows, to wit:—

SECTION 71. No rain-water conductor shall be connected with the house drain or sewer except by permission of the Board of Health or its agents. No rain-water conductor shall be used as a soil, waste or vent pipe, nor be connected therewith, nor shall any soil, waste or vent pipe be used as a rain-water conductor. When connected with the house drain, rain-water conductors shall be properly trapped.

Fourteenth Article taken up,—"To hear and act upon the report of the committee to which was referred the subject of a new Police Station and additional school and other accommodations in the vicinity of the Town Hall; to appropriate $100,000 towards the cost of obtaining any or all of such additional accommodations, and to authorize the Treasurer to borrow the same."

Voted, That the fourteenth article be referred back to the same committee to further consider and examine the matter and report in full at a future town meeting.

Dissolved. Attest: B. F. BAKER, *Town Clerk.*

GENERAL ELECTION, NOVEMBER 2, 1897.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Tuesday, the second day of November, next, it being the Tuesday next after the first Monday in said month, at thirty minutes after six o'clock in the forenoon, to give in their votes for the following State and County Officers, to wit:—

Governor of the Commonwealth; Lieutenant-Governor; Secretary of the Commonwealth; Treasurer and Receiver-General; Auditor of Accounts; Attorney-General; Councillor for the Second Councillor District; Senator for the Second Norfolk Senatorial District; a Representative to the General Court for the Second Norfolk Representative District; one County Commissioner for three years; one Register of Deeds for three years; one County Treasurer for three years.

All to be voted for on one ticket.

For these purposes the polls will be opened at seven o'clock in the forenoon, and may be closed at thirty minutes after four o'clock in the afternoon.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twentieth day of October, in the year of our Lord eighteen hundred and ninety-seven.

HORACE JAMES,
WM. F. HUMPHREY,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
LUTHER M. MERRILL,

Selectmen of Brookline.

NORFOLK, SS. BROOKLINE, October 25th, 1897.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting true attested copies of the same in three or more public places in said Brookline, all of which was done seven days at least before the day of said meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant the inhabitants of the town of Brookline, qualified to vote in elections, met in

the Town Hall in said town, on Tuesday, the second day of November, in the year of our Lord eighteen hundred and ninety-seven, it being the Tuesday next after the first Monday in said month, and were called to order at half-past six of the clock in the forenoon, by Horace James, chairman of the Selectmen and presiding election officer. The Town Clerk then read the warrant calling said meeting and the return thereon of the officer who served the same upon the inhabitants.

In conformity with the laws of the Commonwealth in relation to elections, the Town Hall had been fitted up as a polling place, a space railed off, and fifty shelves or compartments provided for the use and convenience of the voters to examine and mark their ballots, each compartment being supplied with cards of instruction and suitable conveniences for that purpose.

The Inspectors, Frederic M. Bond and Francis F. Muldowney, and Deputy Inspectors, Edwin N. Tyler, George H. Abbott, Robert A. Smiley and John E. Griffin, and the Tellers, Alfred E. Kenrick, Edwin A. Robart, Alexander S. Arthur, Harry H. Whitney, Charles A. Bowditch, James P. Parker, Samuel W. Bowker, Clarence E. Fuller, Frederick A. Flood, John W. Shields, Asa F. Smith, George P. Johnson, Tucker Daland, Jeremiah P. Canty, Edward F. Mullowney, Henry Ware, Dennis F. Donlon, Timothy Burke, Dennis Harrington, Dennis J. Dooley, Thomas P. Kelley, Percival L. Cushing and Charles A. W. Spencer, who had been appointed by the Selectmen, were sworn to the faithful discharge of their duties by the Town Clerk, and with the Selectmen and Town Clerk making an equal number of election officers from the two leading political parties.

Messrs. Frederic M. Bond and Francis F. Muldowney were then stationed at the entrances to the polling place, and furnished with a duplicate list of the male voters of the town, as prepared by the Registrars of Voters.

One set of the ballots supplied by the Secretary of the Commonwealth, marked "First set of ballots, three thousand six hundred, Town of Brookline," was then delivered to the presiding election officer by the Town Clerk, who took his receipt therefor. The presiding election officer then publicly broke the seal of said package and delivered the ballots to the Inspectors, who furnished them to the voters as they presented

themselves, and checked their names on the lists. The cards of instruction and specimen ballots were also posted in different parts of the hall outside of the railing.

The ballot-box — the "Ideal" furnished by the Commonwealth to be used at this election — was then opened in public meeting, and examined by the election officers and shown to be empty. The register of the box was then set at zero (0) and locked; the key was delivered to Willard Y. Gross, the constable having charge of the meeting.

The polls were then declared open for the reception of votes, and were kept open until thirty minutes past four of the clock in the afternoon, when, after due notice, they were declared closed.

The election officers had charge of the election, and the ballot-box and check-list were in their care, and by unanimous consent the ballot-box was opened at fifteen minutes past nine of the clock in the forenoon for the purpose of counting the ballots, and also several times during the day, and again at the close of the polls, when the box register stood at two thousand and thirty-seven (2037). The names checked on the lists of voters used by the Inspectors at the entrances to the polling place and those checked on the lists at the polls were then counted up and compared, and were found to agree, also to agree with the number registered by the ballot-box. The number of ballots left at the close of the polls was five hundred and sixty-three which, deducted from the thirty-six hundred receipted for by the presiding election officer, showed that two thousand and thirty-seven ballots had been delivered to the voters.

The election officers then proceeded to canvass the votes given in and the whole number was two thousand and thirty-seven, which were sorted, counted and recorded, and declaration thereof made in open town meeting, as required by law, and were for the following state and county officers, viz: —

Governor.

Nineteen hundred and sixty-four.

John Bascom, of Williamstown, Prohibition, had eighteen.

Thomas C. Brophy, of Boston, Socialist Labor Party, had thirty-one.

William Everett, of Quincy, Democratic National, had two hundred and forty-three.

George Fred Williams, of Dedham, Democratic, had four hundred and eighty.

Roger Wolcott, of Boston, Republican, had eleven hundred and ninety-two.

Blanks, seventy-three.

Lieutenant-Governor.

Eighteen hundred and eighty-six.

Edward A. Buckland, of South Hadley, Socialist Labor Party, had fourteen.

Christopher T. Callahan, of Holyoke, Democratic, had three hundred and sixty-one.

James E. Cotter, of Hyde Park, Democratic National, had two hundred and thirty-one.

W. Murray Crane, of Dalton, Republican, had twelve hundred and forty-six.

Willard O. Wylie, of Beverly, Prohibition, had thirty-four.

Blanks, one hundred and fifty-one.

Secretary.

Eighteen hundred and eighteen.

Addison W. Barr, of Worcester, Socialist Labor Party, had nineteen.

Charles D. Nash, of Whitman, Democratic, had three hundred and forty-six.

William M. Olin, of Boston, Republican, had twelve hundred and eighty-five.

Edwin Sawtell, of Brockton, Prohibition, had twenty-four.

Bernard M. Wolf, of Boston, Democratic National, had one hundred and forty-four.

Blanks, two hundred and nineteen.

Treasurer.

Eighteen hundred and eleven.

George A. Brown, of Lynn, Socialist Labor Party, had nineteen.

Robert C. Habberley, of Hyde Park, Prohibition, had fifteen.

Edward P. Shaw, of Newburyport, Republican, had twelve hundred and twenty-two.

Horace P. Tobey, of Wareham, Democratic National, had two hundred and seventeen.

Thomas A. Watson, of Braintree, Democratic, had three hundred and thirty-eight.

Blanks, two hundred and twenty-six.

Auditor.

Seventeen hundred and ninety-seven.

Joseph Ballam, of Boston, Socialist Labor Party, had twenty-one.

Harry Douglas, of Great Barrington, Democratic National, had one hundred and seventy-two.

John W. Kimball, of Fitchburg, Republican, had twelve hundred and thirty-eight.

Joseph Henry Sheldon, of Haverhill, Democratic, had three hundred and forty-nine.

Herbert M. Small, of Templeton, Prohibition, had seventeen.

Blanks, two hundred and forty.

Attorney-General.

Eighteen hundred and twenty-seven.

Wolcott Hamlin, of Amherst, Prohibition, had twenty-six.

William Harrison, of Lawrence, Socialist Labor Party, had twenty-four.

Hosea M. Knowlton, of New Bedford, Republican, had twelve hundred and sixty-two.

William W. McClench, of Chicopee, Democratic National, had one hundred and forty-five.

John A. O'Keefe, of Lynn, Democratic, had three hundred and seventy.

Blanks, two hundred and ten.

Councillor — Second District.

Eighteen hundred and eight.

Dana Estes, of Brookline, Democratic National, had three hundred and fifty-six.

Benjamin S. Lovell, of Weymouth, Republican, had eleven hundred and sixty-two.

George O. Wentworth, of Stoughton, Democratic, had two hundred and ninety.

Blanks, two hundred and twenty-nine.

Senator — Second Norfolk District.

Eighteen hundred.

Henry H. Francis, of Stoughton, Democratic, had three hundred and thirty-two.

Fred Homer Williams, of Brookline, Republican, had twelve hundred and twenty-seven.

George S. Winslow, of Norwood, Democratic National, had two hundred and forty.

Bates had one.

Blanks, two hundred and thirty.

Representative in General Court — Second Norfolk District.

Nineteen hundred and ninety-five.

James M. Codman, Jr., of Brookline, Non-partisan, had ten hundred and twenty-six.

Emery B. Gibbs, of Brookline, Republican, had nine hundred and sixty-nine.

Blanks, forty-two.

County Commissioner — Norfolk.

Fifteen hundred and fourteen.

James Hewins, of Medfield, Democratic, Democratic National, Republican, had fifteen hundred and fourteen.

Blanks, five hundred and twenty-three.

Register of Deeds — Norfolk County.

Fifteen hundred and six.

John H. Burdakin, of Dedham, Democratic, Democratic National, Republican, had fifteen hundred and six.

Blanks, five hundred and thirty-one.

County Treasurer — Norfolk.

Fifteen hundred and three.

Charles H. Smith, of Dedham, Democratic, Democratic National, Republican, had fifteen hundred and three.

Blanks, five hundred and thirty-four.

In voting, the check list was used, and no person was allowed to deposit his vote until his name had been found on the list and checked.

The business of the meeting being completed, the returns were filled up, signed by the Selectmen, and countersigned by the Town Clerk, and sealed up in open town meeting as required by law, and delivered to the Town Clerk to forward to their several places of destination.

The votes cast were then sealed up and endorsed by the presiding election officer; also the lists of voters used at the polls, and the lists used by the inspectors at the entrances to the polling place were sealed up and endorsed by the principal election officer and the inspectors, and were delivered into the custody of the Town Clerk, in conformity with the law in such cases made and provided.

The meeting was then declared dissolved, by Mr. Horace James, presiding election officer.

Dissolved. Attest: B. F. Baker, *Town Clerk.*

SPECIAL MEETING, DECEMBER 15, 1897.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss.

To either of the Constables of the Town of Brookline, Greeting: —

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Brookline, qualified to vote in elections, to meet at the Town Hall in said town, on Wednesday, the fifteenth day of December, current, at half-past seven o'clock in the evening, for the following purposes, to wit: —

First, To choose a Moderator.

Second, To accept and allow Holland road as a townway as laid out by the Selectmen and reported to the town at this meeting.

Third, To accept and allow Bowker street as a townway as laid out by the Selectmen and reported to the town at this meeting.

Fourth, To accept and allow Howard street as a townway as laid out by the Selectmen and reported to the town at this meeting.

Fifth, To change the name of Howard street to Walnut street, and to change the names of parts of Walnut and Warren streets so that Walnut street will extend to Dudley street, and Warren street will extend to Boylston street.

Sixth, To change the name of Keiffer street to Adams street.

Seventh, To change the name of a part of Sewall street to Cypress street, and to change the name of Sewall place, and of that part of Cypress street which lies between Sewall street and Chestnut street to Sewall street.

Eighth, To hear and act upon the report of the committee appointed to consider and report upon the adoption of a by-law in relation to pile foundations, and amendments of the building laws relating to walls in apartment and other buildings.

Ninth, To adopt additional by-laws and amendments to existing by-laws relating to the inspection, materials, construction, alteration, and use of buildings and other structures within the limits of the town.

Tenth, To hear and act upon the report of the joint committee to whom was referred the subject of a new Police Station, additional accommodations for the Pierce Primary and Grammar Schools, and other public buildings in the vicinity of the Town Hall.

Eleventh, To appropriate $68,000 to pay for land and for the construction thereon of a new Police Station, and to authorize the Treasurer to borrow the same.

Twelfth, To appropriate $10,000 to purchase the Bachelder estate adjoining the town's land on Prospect street for school-house accommodation, and to authorize the Treasurer to borrow the same.

Thirteenth, To appropriate $14,000 for land for additional water supply, and to authorize the Treasurer to borrow the same.

Fourteenth, To authorize the Selectmen to purchase a site upon which to erect a new Engine House, to appropriate $8,000 therefor, and to authorize the Treasurer to borrow the same.

Fifteenth, To see if the town will vote to direct the Selectmen to arrange within thirty (30) days, or such other time as the town may decide, another division of the town into precincts.

Sixteenth, To authorize and instruct the Selectmen to petition the next General Court for legislation requiring the licensing of gas fitters, and the supervision of the business of gas fitting in the town of Brookline.

Seventeenth, To authorize the Water Board to contract for water pipe for the season of 1898, to the extent of $5,000.

Eighteenth, To authorize the Water Board to extend the water main in South street, from its present end to a point opposite the premises of Henry D. Stedman, at a cost of $1900.

Nineteenth, To see if the town will make alterations in the by-laws relating to the Public Library.

Twentieth, To authorize the Park Commissioners, in behalf of the town, to accept from the heirs of Marshall Stearns a deed of the triangular piece of land lying between Park, Vernon and Marion streets.

Twenty-first, To see if the town will appropriate the sum of four hundred dollars to pay one-half the cost of building a temporary foot-bridge on Longwood avenue, on or near the location of the bridge lately removed.

Twenty-second, To authorize the Board of School Committee to employ an architect, and to make contracts for the erection of a Grammar school-house on the Edward Devotion School lot on Harvard street, at a cost not to exceed forty-five thousand dollars, exclusive of grading and furnishing.

Twenty-third, To see if the town will take such action as may be necessary to insure the permanent preservation of the "Babcock house."

Twenty-fourth, To authorize the purchase of a lot for a Primary school-house in the vicinity of Kent and Beacon streets, and to appropriate therefor a sum not exceeding forty thousand dollars, and to authorize the School Committee to procure plans for the erection of the building.

Twenty-fifth, To make the following additional appropriations as asked for by the Board of School Committee: For support of truants, $100; for evening schools, $200; for text books and supplies, $650.

Twenty-sixth, To make an additional appropriation of $1000 for contingencies.

Twenty-seventh, To make an additional appropriation of $500 for placing electric wires owned by the town under ground.

Twenty-eighth, To see if the town will vote to print and publish in book form a list of births, marriages and deaths from the settlement of the town to the present time, and make an appropriation therefor.

Twenty-ninth, To authorize the Treasurer to borrow money in anticipation of the taxes of the present municipal year.

Thirtieth, To hear and act upon reports of town officers and committees.

Thirty-first, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any town officers or committees.

Hereof fail not, and make due return of this warrant with your doings thereon to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this sixth day of December, in the year of our Lord one thousand eight hundred and ninety-seven.

HORACE JAMES,
NATHANIEL CONANT,
LUTHER M. MERRILL,
W. F. HUMPHREY,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

NORFOLK, ss. BROOKLINE, December 11, 1897.

By virtue hereof, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and

place and for the purposes herein named, by causing a printed attested copy of this warrant to be left at their last and usual place of abode, and I also posted attested copies of the same warrant in three or more public places in said Brookline, all of which was done four days at least before the day of said meeting.

W. Y. Gross, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Wednesday, the fifteenth day of December, in the year of our Lord one thousand eight hundred and ninety-seven, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up,—"To choose a Moderator."

The meeting nominated and chose for Moderator, Rufus G. F. Candage.

Second Article taken up,—"To accept and allow Holland road as a townway as laid out by the Selectmen and reported to the town at this meeting."

Voted, That the second article be indefinitely postponed.

Twenty-first Article taken up,—"To see if the town will appropriate the sum of four hundred dollars to pay one-half the cost of building a temporary foot-bridge on Longwood avenue on or near the location of the bridge lately removed."

Voted, That the sum of four hundred ($400) dollars be appropriated to pay one-half of the cost of building a foot-bridge on or near the location of Longwood avenue over the tracks of the Boston & Albany railroad and the adjacent stream, said sum to be taken from the appropriation for building the new bridge on Longwood avenue.

Voted, That the Park Commissioners be and they hereby are requested in conjunction with the authorities of the city of Boston to build a foot-bridge on or near the location of Longwood avenue over the tracks of the Boston & Albany railroad and the adjacent stream, the cost to the town of Brookline not to exceed four hundred ($400) dollars.

Third Article taken up,—"To accept and allow Bowker street as a townway as laid out by the Selectmen and reported to the town at this meeting."

Voted, That the reading of the report on the laying out of said street be dispensed with.

The Selectmen presented the following report on the laying out of said street, to wit: —

We, the undersigned, Selectmen of the Town of Brookline, having given printed and written notices to Watts H. Bowker, Arthur W. Bowker, John C. Barthelmes, C. W. Lynam, Henry A. Rutherford, Josiah A. Morrill, Charles A. Morrill, E. F. Proctor, Mary A. Gordon, Estate of Thomas Howe by Charles W. Chamberlin, Trustee, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street from Kent street to Toxteth street, being a private way known as Bowker street, such notices requiring such persons to appear before us at our room in the Town Hall, on Friday, November 26th, 1897, at 4.15 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, seven days at least before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notices in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and all the parties who desired having been heard in relation thereto, and the route of the street having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described.

Beginning at a point on the west line of Kent street situated 161.27 feet southerly from the intersection of the said west line of Kent street and the southwest line of Brook street, and running northwesterly by a line parallel with the straight portion of Brook street opposite thereto, for a distance of 667.44 feet to the east side of Toxteth street. The southwest line of said Bowker street is parallel with and forty (40) feet distant from the above described northwest line, and taking from the owners of the fee a strip of land forty (40) feet in width extending from Kent street to Toxteth street, containing 26,610 square feet.

For a further identification of this description and location, reference is hereby made to a plan drawn by Alexis H. French, Town Engineer, dated November 23d, 1897, approved by us, verified by our signatures and adopted as a part of this record.

No awards are made; the owners of the fee of the land over which said street is laid out, in consideration of the laying out by the Selectmen, and its acceptance by the town, have released all claims to land, grade or other damages. The street having been constructed by the owner of the land, is open to the public for travel.

And said street as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Bowker street.

The said plan, profile and this record, with the releases herein referred to, have this day been filed in the office of the Town Clerk.

HORACE JAMES,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
WM. F. HUMPHREY,
LUTHER M. MERRILL,
Selectmen of Brookline.

BROOKLINE, November 26th, 1897.

BROOKLINE, MASS., November 26, 1897.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Bowker street as a townway as laid out by the Selectmen and reported to the town at this meeting.

Fourth Article taken up,— "To accept and allow Howard street as a townway, as laid out by the Selectmen and reported to the town at this meeting."

Voted, That the reading of the report on the laying out of said street be dispensed with.

The Selectmen presented the following report on the laying out of said street, to wit: —

We, the undersigned, Selectmen of Brookline, having given printed and written notices to Ernest W. Bowditch and June Bright Osgood, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street from Warren street to Dudley street, being a private way known as Howard street, such notices requiring such persons to appear before us at our room in the Town Hall, on Friday, November 26th, 1897, at four o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notices in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and all the parties who desired having been heard in relation thereto, and the route of the street having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described.

The northerly line of location begins at a point in the westerly line of Warren street ten feet distant easterly from a stone bound marking the division line between land of J. B. Osgood and land of W. S. Scudder; thence runs southerly curving westerly on a curve of 75 feet radius 87.48 feet; thence continuing westerly curving northerly on a curve of 277.66 feet radius 96.67 feet, to a point five feet distant northerly from a stone bound, measured at right-angles to said northerly line of location; thence continuing westerly in a straight line 146.69 feet, to a point five feet northerly from a stone bound, measured at right-angles from said northerly line of location; thence continuing westerly, curving southerly on a curve of 163.75 feet radius 219.35 feet, to a point five feet distant westerly from a stone bound, measured at right-angles to said northerly line of location; thence continuing southerly in a straight line 180.37 feet to a point five feet distant westerly from a stone bound, measured at right-angles to said northerly line of location; thence continuing southerly curving westerly on a curve of twenty feet radius 31.66 feet, to a point in the northerly line of Dudley street.

The southerly line of location begins in the westerly line of Warren street, 117.42 feet distant southerly from the initial point of location of said northerly line of Howard street, hereinbefore described; thence runs northerly curving westerly on a curve of fifteen feet radius 30.38 feet, to a point 40 feet distant southerly from said northerly line of location, measured at right-angles thereto; thence reversing and continuing westerly parallel to said northerly line of location and 40 feet distant southerly therefrom, curving northerly on a curve of 317.66 feet radius 117.21 feet; thence continuing westerly in a straight line parallel to and 40 feet distant southerly from said northerly line of location 146.69 feet; thence continuing westerly curving southerly on a curve of 123.75 feet radius parallel to and 40 feet distant southerly from said northerly line of location 165.76 feet; thence continuing southerly on a straight line parallel to and 40 feet distant easterly from said northerly line of location 188.7 feet; thence continuing southerly curving easterly on a curve of 20 feet radius 26.35 feet, to a point in the northerly line of Dudley street, and taking from the owners of the fee the parcel of land between the above described side-lines, extending from Warren street to Dudley street, and containing about 28,100 square feet.

For a further identification of this description and location, reference is hereby made to a plan entitled, "Location of Howard street, Brookline, Mass., made by Ernest W. Bowditch, Engineer, dated August 24, 1897," approved by us, verified by our signatures, and adopted as a part of this record.

No awards are made; the owners of the fee of the land over which said street is laid out, in consideration of the laying out by the Selectmen, and its acceptance by the town, have released all claims to land, grade or other damages, but we have agreed on the part of the town to purchase from Mr. Bowditch the sewer which he has laid in said street, and shall levy assessments on the abutting estates in the usual manner.

And said street as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Howard street.

The said plan, profile and this record, with the releases herein referred to, have this day been filed in the office of the Town Clerk.

HORACE JAMES,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
WM. F. HUMPHREY,
LUTHER M. MERRILL,
Selectmen of Brookline.

BROOKLINE, November 26th, 1897.

BROOKLINE, MASS., November 26, 1897.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Howard street as a townway as laid out by the Selectmen and reported to the town at this meeting.

Fifth Article taken up,—"To change the name of Howard street to Walnut street, and to change the names of parts of Walnut and Warren streets so that Walnut street will extend to Dudley street, and Warren street will extend to Boylston street."

Voted, To change the name of Howard street to Walnut street, and to change the names of parts of Walnut and Warren streets so that Walnut street will extend to Dudley street, and Warren street will extend to Boylston street.

Sixth Article taken up,—"To change the name of Keiffer street to Adams street."

Voted, To indefinitely postpone the sixth article.

Seventh Article taken up,—"To change the name of a part of Sewall street to Cypress street, and to change the name of Sewall place, and of that part of Cypress street which lies between Sewall street and Chestnut street, to Sewall street."

Voted, To lay the seventh article on the table.

Voted, To take up the eighth and ninth articles.

Eighth,—"To hear and act upon the report of the committee appointed to consider and report upon the adoption of a by-law in relation to pile foundations, and amendments of the building laws relating to walls in apartment and other buildings."

Ninth,—"To adopt additional by-laws and amendments to existing by-laws relating to the inspection, materials, construction, alteration and use of buildings and other structures within the limits of the town."

Voted, That the following by-law be adopted: —

ARTICLE XXVII. PILING.

SECTION 90. When the nature of the ground requires it, all buildings shall be supported on foundation piles not more than three feet apart on centers in the direction of the wall, and the number, diameter and bearing of such piles shall be sufficient to support the superstructure proposed. The inspector shall determine the grade at which the piles shall be cut to insure constant immersion. There shall not be less than two rows under all external and party walls. All piles to be capped with block granite levellers not less than sixteen inches thick, each leveller having a firm bearing on the pile or piles which it covers. The inspector may require any applicant for a permit to ascertain by boring the nature of the ground on which he proposes to build.

Voted, That Section 15 of Article 10 of the Building Laws be amended so as to read as follows: —

SECTION 15. In all two-story buildings the external and party walls, if of brick, shall be not less than twelve inches thick to the top of the second floor, and not less than eight inches thick for the remaining height.

Voted, That Section 21 of the Building Laws be amended by adding the following at the end thereof: —

"But in the external walls of one-story buildings and of two-story dwelling houses, the walls on each side of the air space in a vaulted wall may be made of a thickness of not less than four inches, provided that such walls are securely bonded by cross withes made of full headers and not more than fifteen inches apart on centers, provided that such walls are not less than ten inches in total thickness, including the air space." So that the Section shall read as follows:—

SECTION 21. Vaulted walls shall contain, exclusive of withes, the same amount of material required for solid walls, and the walls on either side of the air space shall be not less than eight inches thick, and tied together with ties not more than two feet apart. But in the external walls of one-story buildings and of two-story dwelling houses, the walls on each side of the air space in a vaulted wall may be made of a thickness of not less than four inches, provided that such walls are securely bonded by cross withes made of full headers and not more than fifteen inches apart on centers, provided that such walls are not less than twelve inches in total thickness, including the air space.

ARTICLE XXVIII. WOODEN WALLS OF BUILDINGS MORE THAN ONE STORY HIGH.

SECTION 91. The following requirement shall apply to all buildings over one story in height hereafter erected:—

"No exterior wall of any such building shall be constructed of wood if such wall is anywhere less than ten feet distant from any adjoining property line except the line of a public way; or anywhere less than ten feet distant from any other building over one story in height; or anywhere less than twenty feet distant from any wooden wall of any building over one story in height hereafter erected."

Voted, That the foregoing section be indefinitely postponed.

Voted, That the following new by-laws be adopted: —

ARTICLE XXIX. DWELLINGS FOR TWO OR MORE FAMILIES.

SECTION 92. The requirements of this article shall apply to every building more than two stories high hereafter erected or converted to use as a building to be occupied for dwelling purposes by two or more separate families or households.

SECTION 93. In all such buildings there shall be at least two independent and sufficient ways of egress, accessible on each floor from each suite of apartments. Such ways of egress shall consist of flights of stairs extending from the lowest to the highest floor, and not more than one flight of stairs shall be placed in the same hallway. Every such way of egress from every such building shall be kept in good repair and unobstructed.

SECTION 94. In all such buildings more than thirty-five and less than fifty-five feet in height, from the top of outside foundation wall to the ceiling of the upper story, the external and party walls shall be not less than sixteen inches thick in the basement and first story and not less than twelve inches thick above.

SECTION 95. In all such buildings over three stories in height, no wood or other inflammable material shall be used as a material of construction excepting for under and upper flooring, window and door frames, sashes, doors, standing finish, hand rails for stairs, necessary sleepers bedded in masonry or plaster, and for isolated furring blocks bedded in masonry or plaster.

SECTION 96. In all such buildings over three stories in height, at least one stairway shall be enclosed in brick walls not less than twelve inches thick, extending through and not less than eighteen inches above the roof, and the enclosed space shall be provided with a ventilating skylight.

SECTION 97. All constructional steel or iron in all buildings hereafter built over three stories in height shall be protected by brick, terra cotta, plastering on metal or other incombustible material approved by the inspector.

ARTICLE XXX. PENALTIES.

SECTION 98. Whoever violates any of the provisions of Articles XXVII. to XXIX. inclusive of these by-laws shall be punished by a fine not exceeding one hundred dollars for each offence.

Voted, That the last sentence of Article XII., Section 38 of the building laws be amended by striking out the words "furnance and range" and

substituting the words "all smoke," so that the sentence as amended will read, "The wall of 'all smoke' flues must be eight inches thick or lined with terra cotta flue linings."

Voted, That Section 19 of the building laws be amended by adding at the end thereof the words, "and shall be built only as provided for in Section 37," so that the Section will read as follows:—

SECTION 19. Buildings more than seventy feet high are to have all walls of a thickness to correspond with the Boston building law now in force, and shall be built only as provided for in Section 37.

Section 37 of the Building Laws is as follows, to wit:

SECTION 37. No building hereafter erected, except spires of churches, shall exceed seventy feet in height from the sidewalk to the highest point of the roof, except by a special permit from the Board of Selectmen and Inspector of Buildings, in which case the building shall be a fire-poof building to conform to the provisions of the Boston building law now in force for buildings of the first class.

Voted, That the subject of the ways of egress in buildings other than tenement houses be referred to Charles A. Williams and Leonard C. Wason to examine into and report their recommendations at the adjournment of this meeting.

On motion of Mr. Horace James, it was

Voted, That the tenth, eleventh and twelfth articles in the warrant be taken up for consideration.

Tenth,—"To hear and act upon the report of the joint committee, to whom was referred the subject of a new Police Station, additional accommodations for the Pierce Primary and Grammar schools, and other public buildings in the vicinity of the Town Hall."

Eleventh,—"To appropriate $68,000 to pay for land, and for the construction thereon of a new Police Station, and to authorize the Treasurer to borrow the same."

Twelfth,—"To appropriate $10,000 to purchase the Bachelder estate, adjoining the town's land on Prospect street, for school-house accommodation, and to authorize the Treasurer to borrow the same."

The joint committee, to whom was referred the subject of a new Police Station, additional accommodations for the Pierce Primary and Grammar schools, and other public buildings in the vicinity of the Town Hall, recommended as the location for the new Police Station the Davis lot on Washington street, opposite the Town Hall, and for the purchase of said lot the sum of eighteen thousand dollars, and for the erection of

the new Police Station the sum of fifty thousand dollars; and as the best location for the school-house, the site on Prospect street, now occupied by the Pierce Grammar school, and to enlarge said school-house lot the purchase of the Bachelder estate on said Prospect street, adjoining the town's land, for the sum of ten thousand dollars.

On motion of Mr. Horace James, it was

Voted, That the report of the committee be accepted and the recommendations adopted.

On motion of Mr. Desmond FitzGerald, it was

Voted. That discussion on the above subject be limited to five minutes for each speaker.

On motion of Mr. Horace James, it was

Voted, That the Selectmen be authorized and directed to purchase from L. Shannon Davis and William E. Webster, trustees, a lot of land on Washington street, nearly opposite the Town Hall, containing about 10,575 square feet, for a new Police Station, and that the sum of $18,000 be appropriated therefor.

Mr. Horace James then offered the following vote, to wit:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow the sum of $18,000, appropriated at this meeting, to pay for land on Washington street for a new Police Station, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years, from the date of delivery of said note or notes.

The Moderator appointed as tellers, Messrs. James M. Codman, Jr., Leonard C. Wason and Thomas F. Barrett, and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was one hundred and thirty-five, as follows, to wit: "Yes," one hundred and thirty-five (135); "No," none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

On motion of Mr. Horace James, it was

Voted, That the sum of $50,000 be appropriated to pay for the construction of a new Police Station on the lot of land opposite the Town Hall on Washington street.

Mr. Horace James then offered the following vote, to wit:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow the sum of $50,000, appropriated at this meeting, to pay for the construction of a new Police Station on the lot of land opposite the Town Hall on Washington street, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years, from the delivery of said note or notes.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and forty-seven, as follows, to wit: "Yes," one hundred and forty-seven (147); "No," none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Voted, That Messrs. Horace James, Luther M. Merrill, James B. Hand, Prentiss Cummings and Michael Driscoll be appointed a committee to procure final plans and specifications, make contracts, and proceed as speedily as possible to erect the new Police Station authorized at this meeting.

On motion of Mr. Horace James, it was

Voted, That the Selectmen be authorized and instructed to purchase for school accommodation from J. L. Dexter, trustee, the Bachelder estate, adjoining the town's land on Prospect street, containing about 5,000 square feet, more or less, and that the sum of $10,000 be appropriated therefor.

Mr. Horace James offered the following vote, to wit:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow the sum of $10,000, appropriated at this meeting, to pay for the purchase of the Bachelder estate, adjoining the town's land on Prospect street, for school accommodation, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years, from the date of delivery of said note or notes.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and thirty-nine, as follows, to wit: "Yes," one hundred and

thirty-nine (139); "No," none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Voted, That the Building Committee appointed to build the new Police Station be also a committee to procure the necessary plans and specifications, invite proposals, and make contracts for erecting and furnishing a school-house on Prospect street to take the place of the Pierce Primary and Pierce Grammar schools, at a cost not exceeding $130,000.

Twenty-second Article taken up,—"To authorize the Board of School Committee to employ an architect, and to make contracts for the erection of a Grammar school-house on the Edward Devotion school lot on Harvard street, at a cost not to exceed forty-five thousand dollars, exclusive of grading and furnishing."

Voted, That the School Committee be authorized to employ an architect, and to make contracts for the erection of a Grammar school-house on the Edward Devotion school lot on Harvard street, at a cost not to exceed forty-five thousand dollars, exclusive of grading and furnishing.

Voted, That when this meeting adjourns, it be to meet in this place on Wednesday next, the twenty-second instant, at half-past seven of the clock in the evening.

Voted, To adjourn.

Adjourned. Attest: B. F. Baker, *Town Clerk.*

ADJOURNED SPECIAL MEETING, DEC. 22, 1897.

Pursuant to adjournment, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Wednesday, the twenty-second day of December, in the year of our Lord one thousand eight hundred and ninety-seven, and were called to order at half-past seven of the clock in the evening, by the Moderator, Rufus G. F. Candage.

Seventh Article taken from the table,—"To change the name of a part of Sewall street to Cypress street, and to change the name of Sewall place, and of that part of Cypress street which lies between Sewall street and Chestnut street, to Sewall street."

Voted, That the name of that part of Cypress street which extends from Sewall street to Chestnut street be changed to Kendall street; that the name of Sewall place be changed to Franklin street; that the name of that portion of Sewall street which extends to Sewall place be changed to Franklin street; that the name of the remaining portion of Sewall street be changed to Cypress street.

Eighth and Ninth Articles taken up.

Eighth,—"To hear and act upon the report of the committee appointed to consider and report upon the adoption of a by-law in relation to pile foundations, and amendments of the building laws relating to walls in apartment and other buildings."

Ninth,—"To adopt additional by-laws and amendments to existing by-laws relating to the inspection, materials, construction, alteration and use of buildings and other structures within the limits of the town."

Voted, That the following be adopted as a substitute for Section 21 of the Building Laws: —

SECTION 21. All vaulted walls, except in one-story buildings and two-story dwelling houses, shall contain, exclusive of withes, the same amount of material required for said walls. In all vaulted walls, except in one-story buildings and two-story dwelling houses, the wall on one side of the air space shall be not less than eight inches thick. All vaulted walls shall be bonded by ties not more than two feet apart. All vaulted walls in one-story buildings and two-story dwelling houses shall contain, exclusive of withes at least two-thirds of the amount of material required for solid walls.

Voted, That the words "fire clay" be substituted for the words "terra cotta" in the last line of Section 38 of the Building Laws.

On motion of Mr. Alfred D. Chandler, it was

Voted, That Section 75 of Article XXVI. of the Building Laws be amended to read as follows, to wit: —

SECTION 75. Each and every trap shall be protected from siphonage or air pressure by special cast-iron or galvanized wrought-iron air pipes of a size not less than two inches internal diameter to run from the crown of the trap; except that one and one-half inch galvanized wrought-iron pipe may be used for "back vents" for single fixtures for a distance not greater than fifteen feet. Lead air pipes may be used only when they are exposed to view. Air pipes for water-closet traps shall be of two-inch bore of thirty feet or less in length, and of three-inch bore of more than thirty feet in length; other air pipes shall be as large as the waste-pipe from the trap. This section shall not apply to traps having waste pipes not more than three feet in length between them and a line of soil pipe extending full size through the roof to the open air,

provided such traps have an independent connection with the soil pipe, and that no running water enters the stack from the stories above; it is further provided that a trap that is especially difficult to siphon and which shall be approved by the Inspector of Plumbing shall be used on such work.

Thirteenth Article taken up, — "To appropriate $14,000 for land for additional water suply, and to authorize the Treasurer to borrow the same."

Voted, That the sum of fourteen thousand dollars ($14,000) be, and the same is hereby appropriated, to pay for land taken under the provisions of Chapter 343 of the Acts of 1872, and Chapter 131 of the Acts of 1888, for procuring an additional water supply for the town.

Mr. Oscar B. Mowry offered the following vote, to wit: —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of fourteen thousand dollars ($14,000), appropriated at this meeting, to pay for land taken under the provisions of Chapter 343 of the Acts of 1872, and Chapter 131 of the Acts of 1888, for securing an additional water supply for the town, paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town, to be denominated on their face "Brookline Water Scrip," signed by the Treasurer, and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportionate payments as will extinguish the same within twenty years from the date of the delivery of said note or notes.

The Moderator appointed as tellers Messrs. Prescott F. Hall and Joseph Walker, and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was one hundred and forty-six, as follows, to wit: "Yes," one hundred and forty-six (146); "No," none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Fourteenth Article taken up, — "To authorize the Selectmen to purchase a site upon which to erect a new Engine House, to appropriate $8,000 therefor, and to authorize the Treasurer to borrow the same."

Voted, That the Selectmen be, and they are hereby, authorized to purchase a site for a new Engine House at a cost not exceeding $8,000, and that the sum of $8,000 be appropriated therefor.

Mr. Horace James offered the following vote, to wit: —

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow the sum of eight thousand dollars ($8,000), appropriated at this meeting, for the purchase of a site for a new Engine

House, paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years from the date of delivery of said note or notes.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and thirty-nine, as follows, to wit: "Yes," one hundred and thirty-nine (139); "No," none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Fifteenth Article taken up, — "To see if the town will vote to direct the Selectmen to arrange within thirty (30) days, or such other time as the town may decide, another division of the town into precincts."

Voted, That the Selectmen be directed to arrange and report within thirty (30) days a division of the town into voting precincts, the number of such precincts to be other than the present number of Selectmen.

Sixteenth Article taken up, — "To authorize and instruct the Selectmen to petition the next General Court for legislation requiring the licensing of gas fitters, and the supervision of the business of gas fitting in the town of Brookline."

Voted, That the Selectmen be authorized and instructed to apply to the next General Court for legislation requiring the licensing of gas fitters, and the supervision of the business of gas fitting in the town of Brookline.

Seventeenth Article taken up, — "To authorize the Water Board to contract for water pipe for the season of 1898, to the extent of $5,000."

Voted, That the Water Board be authorized to contract for water pipe for the season of 1898, to the extent of $5,000.

On motion of Mr. Alfred D. Chandler, the Tenth, Eleventh and Twelfth Articles were taken up, to wit: —

Tenth, — "To hear and act upon the report of the joint committee to whom was referred the subject of a new Police Station, additional accommodations for the Pierce Primary and Grammar Schools, and other public buildings in the vicinity of the Town Hall."

Eleventh, — "To appropriate $68,000 to pay for land, and for the construction thereon of a new Police Station, and to authorize the Treasurer to borrow the same."

Twelfth, — "To appropriate $10,000 to purchase the Bachelder estate adjoining the town's land on Prospect street, for school-house accommodation, and to authorize the Treasurer to borrow the same."

On motion of Mr. A. D. Chandler, it was

Voted, That the vote whereby the town voted on the fifteenth instant "That the Selectmen be authorized and directed to purchase from L. Shannon Davis and William E. Webster, trustees, a lot of land on Washington street, nearly opposite the Town Hall, containing about 10,575 square feet, for a new Police Station, and that the sum of $18,000 be appropriated therefor," be, and the same is hereby, reconsidered.

"Yes," one hundred and nine (109); "No," forty-four (44).

Mr. Alfred D. Chandler moved

That the Selectmen be authorized and directed to purchase from Albert L. Lincoln, Jr., a lot of land bounded in part by Harvard, Pierce and Prospect streets, containing about 37,900 square feet, with the buildings thereon, for a new Police Station and for any other purposes which may be lawful, and that the sum of forty thousand dollars be appropriated therefor.

After considerable debate on the subject, it was

Voted, To refer the matter to the adjournment of this meeting.

Voted, That when this meeting adjourns, it be to meet in this place on Wednesday next, the twenty-ninth instant, at half-past seven of the clock in the evening.

Voted, To adjourn.

Adjourned. Attest: B. F. Baker, *Town Clerk.*

ADJOURNED SPECIAL MEETING, DEC. 29, 1897.

Pursuant to adjournment the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Wednesday, the twenty-ninth day of December, in the year of our Lord one thousand eight hundred and ninety-seven, and were called to order at half-past seven of the clock in the evening, by the Moderator, Rufus G. F. Candage.

On motion of Mr. Alfred D. Chandler, it was

Voted, That articles ten, eleven and twelve be laid on the table, and that the articles in the warrant that have not been acted upon be first taken up in the order in which they are printed in the warrant, beginning with article eighteen.

Eighteenth Article taken up.—"To authorize the Water Board to extend the water-main in South street, from its present end to a point opposite the premises of Henry D. Stedman, at a cost of $1900."

On motion of Mr. Oscar B. Mowry, it was

Voted, That the Water Board be authorized to extend the water-main in South street from its present end to a point opposite the premises of Henry D. Stedman, at a cost not exceeding $1900, said sum to be taken from unexpended balances of appropriation for street-mains likely to be called for.

Nineteenth Article taken up.—"To see if the town will make alteration in the by-laws relating to the Public Library."

Voted, That the Trustees of the Public Library be authorized to change their by-laws in relation to the time of holding their meetings.

Twentieth Article taken up.—"To authorize the Park Commissioners, in behalf of the town, to accept from the heirs of Marshall Stearns a deed of the triangular piece of land lying between Park, Vernon and Marion streets."

Voted, To authorize the Park Commissioners, in behalf of the town, to accept from the heirs of Marshall Stearns a deed of the triangular piece of land lying between Park, Vernon and Marion streets.

Twenty-third Article taken up.—"To see if the town will take such action as may be necessary to ensure the permanent preservation of the 'Babcock House.'"

Voted, That the twenty-third article be referred to a committee of five to be appointed by the Moderator, to examine into the subject of the article, and report at a future meeting.

The Moderator appointed Messrs. Albert L. Lincoln, Jr., J. A. Schweinfurth, Charles H. Stearns, Thomas B. Griggs and Joseph Walker to constitute said committee.

Twenty-fourth Article taken up.—"To authorize the purchase of a lot for a Primary school-house in the vicinity of Kent and Beacon streets, and to appropriate therefor a sum not exceeding forty thousand dollars, and to authorize the School Committee to procure plans for the erection of the building."

On motion of Mr. William H. Lincoln, it was

Voted. That the Selectmen be authorized to purchase for school accommodation, as recommended by the School Committee, from Charles H. and the heirs of Marshall Stearns, a lot of land containing about 30,000 square feet on Stearns road, adjoining the Longwood Playground, and that the sum of $18,000 be appropriated therefor.

Mr. William H. Lincoln offered the following vote, to wit:—

Voted. That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of $18,000, appropriated at this meeting, for the purchase of land on Stearns road, adjoining the Longwood Playground, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years, from the date of delivery of said note or notes.

The vote was then put upon its passage, the same tellers, Messrs. Prescott F. Hall and Joseph Walker, acting, and the whole number of votes was two hundred and seven, as follows, to wit: "Yes," two hundred and seven (207); "No," none (0); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

On motion of Mr. William H. Lincoln, it was

Voted. That the School Committee be authorized to procure plans for the erection of a school building on this lot.

Twenty-fifth Article taken up,—"To make the following additional appropriations as asked for by the Board of School Committee: For support of truants, $100; for evening schools, $200; for text books and supplies, $650."

On motion of Mr. William H. Lincoln, it was

Voted. That additional appropriations for schools be made as follows: For support of truants, $100; for evening schools, $200; for text books and supplies, $650; to be taken from any unexpended balances or money now in the treasury not otherwise appropriated.

Twenty-sixth Article taken up,—"To make an additional appropriation of $1,000 for contingencies."

Voted. That an additional sum of $1,000 be appropriated for contingencies, to be taken from any unexpended balances or money in the treasury not otherwise appropriated.

Twenty-seventh Article taken up,—"To make an additional appropriation of $500 for placing electric wires owned by the town under ground."

Voted, That an additional sum of $500 be appropriated for placing wires under ground, to be taken from any unexpended balances or money in the treasury not otherwise appropriated.

Twenty-eighth Article taken up,—"To see if the town will vote to print and publish in book form a list of births, marriages and deaths from the settlement of the town to the present time, and make an appropriation therefor."

On motion of Mr. Horace James, it was

Voted, That the twenty-eighth article be referred to a committee consisting of Messrs. Rufus G. F. Candage, Charles H. Drew and B. F. Baker, to consider the matter and report at a future meeting.

Twenty-ninth Article taken up,—"To authorize the Treasurer to borrow money in anticipation of the taxes of the present municipal year."

Voted, That for the purpose of procuring a temporary loan to and for the use of the town of Brookline, in anticipation of the taxes of the present municipal year remaining due and unpaid at the time said loan is incurred, the Town Treasurer is hereby authorized to borrow from time to time, with the approval of the Selectmen, a sum not exceeding fifty thousand dollars, and not exceeding the amount of the taxes for the present municipal year outstanding, not abated and due the town at the time and times when said debts shall be incurred; and said Treasurer is further authorized to execute and deliver the note or notes of the town therefor, payable within one year from the time when said debt or debts are incurred, with interest thereon at a rate not exceeding six per centum per annum. Any debts incurred by a loan or loans to the town under this vote are hereby expressly made payable from the taxes of the present municipal year.

Thirtieth Article taken up,—"To hear and act upon reports of town officers and committees."

On motion of Mr. Horace James, it was

Voted, That the reports printed on pages thirty-five to forty-one of the Report on the Articles in the Warrant for this meeting be accepted, placed on file, and the committee be discharged.

Mr. Charles A. Williams, for the committee to whom was referred the subject of a by-law on the ways of egress in buildings other than tenement houses, to examine into and report thereon, reported that in their opinion it is inexpedient to pass such a by-law.

Voted, That the report be accepted and the committee discharged.

Mr. Desmond FitzGerald presented the following rules and regulations of Walnut Hills Cemetery, Brookline, Mass.: —

RULES AND REGULATIONS CONCERNING LOTS, TOMBS, ETC.

1. No lot shall be enclosed by a wall, fence, coping, hedge, or by any boundary whatever; but the limits of each lot shall be marked at each corner by suitable granite posts, and these boundary marks shall be sunk in the ground so that the tops shall be below the surface of the ground. Each lot shall be legibly numbered in a manner to be approved by the Trustees.

2. No lot shall be used for any other purpose than as a place of burial for the dead; and no trees within the lot shall be cut down or destroyed without the consent of the Trustees.

3. The proprietors of lots shall not erect any monument, cenotaph, or stone commemorative of the dead, without obtaining the approval of the Board of Trustees, and no flowers, plants, shrubs, or trees shall be planted or cultivated in any lot without the approval of said Trustees.

4. The Trustees shall have the right to remove from any lot such trees and shrubs as shall, in their judgment, be detrimental to the adjacent lots or avenues.

5. No tomb shall be constructed or allowed within the bounds of the Cemetery unless by special permission of the Trustees, and only in such places and in such manner as the Trustees shall direct; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for *hire*.

6. All lots shall be indivisible.

7. All lots when sold, shall be trenched, graded, sodded and prepared by the Superintendent, who shall also provide and set the boundary posts; and all such work shall be paid for by the purchaser in addition to the amount paid for the lot. No monument or other structure of white marble shall be erected within the bounds of the Cemetery.

RULES AND REGULATIONS CONCERNING VISITORS.

1. No vehicle shall be admitted on Sunday unless accompanied by a proprietor of a lot or a member of his or her household with his or her ticket.

2. No horse or other animal shall be allowed in any part of the Cemetery, except upon the avenues; or be driven or ridden at a rate faster than a walk; or left without a keeper, unless fastened to the places provided for the purpose.

3. All persons with fire-arms or any article on sale are prohibited from entering the Cemetery, and no refreshments will be allowed upon the grounds.

4. All persons are prohibited from writing upon or otherwise defacing any monument, fence, sign, or other structure within or belonging to the Cemetery.

5. All persons are prohibited from gathering any flowers, either wild or cultivated, or from breaking or otherwise injuring any tree, shrub or plant, or from annoying birds, squirrels or other harmless animals within the Cemetery.

6. Dogs will not be admitted into the Cemetery.

7. Visitors must walk on the avenues and paths, and will not be allowed on any other portion of the grounds.

8. All noisy and disorderly persons will be expelled from the Cemetery.

9. No person in the employ of the Trustees is allowed to receive any gratuity for services rendered to visitors.

10. The Superintendent is authorized to cause the arrest and prosecution of all persons violating these regulations.

Voted, To approve the foregoing rules and regulations for Walnut Hills Cemetery.

Articles Ten, Eleven and Twelve were taken from the table.

Mr. Alfred D. Chandler withdrew his motion to purchase the land of Albert L. Lincoln, Jr., on Harvard, Pierce and Prospect streets, no opposition being made.

Mr. Alfred D. Chandler offered the following vote, to wit: —

Voted, To rescind that part of the vote of December 15, 1897, whereby the town adopted the recommendations of the joint committee under the tenth article of this warrant.

The subject-matter of this vote was discussed at considerable length, in relation to suitable lots and buildings for a police station.

On motion of Mr. James B. Hand, it was

Voted, That the subject-matter of articles ten, eleven and twelve be referred to a committee consisting of Messrs. Horace James, Luther M. Merrill and William F. Humphrey of the Selectmen, Desmond FitzGerald, Charles S. Sargent and William H. Lincoln of the Park Commissioners, and James R. Dunbar, Michael Driscoll and Prentiss Cummings of the School Committee, with instructions to report at the next town meeting.

Dissolved. Attest: B. F. Baker, *Town Clerk.*

SPECIAL MEETING, FEBRUARY 9, 1898.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss.

To either of the Constables of the Town of Brookline, Greeting: —

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Wednesday, the ninth day of February, current, at half-past seven o'clock in the evening, for the following purposes, to wit: —

First, To choose a Moderator.

Second, To hear and act upon the report of the committee to whom was referred articles ten, eleven and twelve, in the warrant for the town meeting held December 15th, 1897, and by adjournment on December 22d and December 29th, 1897, to accept and adopt the report of said committee, and to appropriate such sum or sums of money as may be required to carry out their recommendations, and to authorize the Treasurer to borrow the same.

Third, To appropriate the sum of eighteen thousand dollars to pay for the Davis lot, so called, on which to erect a Police Station, and to authorize the Treasurer to borrow the same.

Fourth, To appropriate fifty thousand dollars for the construction of a new Police Station, and to authorize the Treasurer to borrow the same.

Fifth, To appropriate ten thousand dollars to purchase the Bachelder estate adjoining the town's land on Prospect street for school-house accommodation, and to authorize the Treasurer to borrow the same.

Sixth, To appropriate twenty-four thousand dollars to purchase the two lots of land on Prospect street, opposite the Town Hall lot, and between the Bachelder lot and Washington street, for Police Station accommodation, and to authorize the Treasurer to borrow the same.

Seventh, To see what action the town will take upon the petition of William I. Bowditch and others to the General Court for legislation to provide for sittings of the Probate Court in Brookline.

Eighth, To see if the town will adopt the division of the town into three voting precincts as made by the Selectmen and reported to the Town Clerk as required by law.

Ninth, To hear and act upon reports of town officers and committees.

Tenth, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any town officers or committees.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this thirty-first day of January, in the year of our Lord one thousand eight hundred and ninety-eight.

HORACE JAMES,
NATHANIEL CONANT,
JAMES M. CODMAN, JR.,
WILLIAM F. HUMPHREY,
LUTHER M. MERRILL,
Selectmen of Brookline.

NORFOLK, SS. BROOKLINE, February 4th, 1898.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed

attested copy of the same to be left at their last and usual place of abode, and also by posting true attested copies of the same in three or more public places in said Brookline, all of which was done four days at least before the day of said meeting.

W. Y. Gross, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall, in said town, on Wednesday, the ninth day of February, in the year of our Lord one thousand eight hundred and ninety-eight, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up,— "To choose a Moderator."

The meeting nominated and chose for Moderator, Hon. Charles H. Drew.

Second Article taken up,— "To hear and act upon the report of the committee to whom was referred articles ten, eleven and twelve, in the warrant for the town meeting held December 15th, 1897, and by adjournment on December 22d and December 29th, 1897, to accept and adopt the report of said committee, and to appropriate such sum or sums of money as may be required to carry out their recommendations, and to authorize the Treasurer to borrow the same."

Under this article two reports were presented.

Mr. Horace James presented the majority report of the committee, signed by Messrs. Horace James, Desmond Fitz-Gerald, Michael Driscoll, William H. Lincoln, James R. Dunbar and Charles S. Sargent, which had been printed and circulated, in the Report of the Selectmen on the Articles of the Warrant, in which they reaffirmed their previous opinion and report on the subject, that in their opinion the best location for the proposed school-house is on Prospect street, opposite Pierce street; and for the new Police Station the Davis lot on Washington street opposite the Town Hall; and that for the carrying out of these plans they recommend the purchase of the Bachelder lot on Prospect street, and the property of the Davis heirs on Washington street; also, that when the Pierce Primary school-house shall be vacated for school purposes, it be converted into town offices.

Capt. William F. Humphrey presented a minority report of the committee, signed by Messrs. William F. Humphrey, Prentiss Cummings and Luther M. Merrill, which had also been printed and circulated, in which they recommended that the town purchase in addition to the Bachelder lot, next the present Police Station, the two remaining lots on Prospect street, between the Bachelder lot and Washington street; to put the Police Station on these two lots, having the public entrance on Washington street; to refit the present brick Grammar School for a Primary School, and to build a new Grammar School on the corner of Prospect and School streets where the old High School building now stands. They advocate this plan on the ground that it is less expensive, affords an unquestionably superior site for a Police Station and gives free access of light and air on all sides; that the school accommodation would give the same number of rooms as proposed by the committee, sixteen in all, twelve in the new Grammar school, and four in the present Grammar school, to be converted into a Primary school; that the present Primary school can be converted into town offices, and leave the present Police Station available for town purposes.

Mr. Horace James moved that the majority report of the committee be accepted and that its recommendations be adopted.

Capt. William F. Humphrey offered as a substitute motion that the minority report of the committee be accepted and its recommendations adopted.

After a lengthy debate on the matter, of over two hours, in which the merits of each report was fully and ably discussed, it was

Voted, That the substitute report of the minority of the committee be accepted.

Voted, That the minority report of the joint committee, signed by Messrs. Humphrey, Cummings and Merrill, be accepted, and its recommendations adopted.

On motion of Mr. Alfred D. Chandler, it was

Voted, That Messrs. Horace James, Luther M. Merrill, James B. Hand, Prentiss Cummings, Michael Driscoll, B. W. Neal and Natbaniel Conant be appointed a building committee to procure plans and specifications, invite proposals, and make contracts for erecting and furnishing a school-house at the corner of School and Prospect streets at a cost not exceeding $100,000.

Third Article taken up,—"To appropriate the sum of eighteen thousand dollars to pay for the Davis lot, so called, on which to erect a Police Station, and to authorize the Treasurer to borrow the same."

Voted, That the third article be indefinitely postponed.

Fourth Article taken up,—"To appropriate fifty thousand dollars for the construction of a new Police Station, and to authorize the Treasurer to borrow the same."

Voted, That the fourth article be indefinitely postponed.

Fifth Article taken up,—"To appropriate ten thousand dollars to purchase the Bachelder estate adjoining the town's land on Prospect street for school-house accommodation, and to authorize the Treasurer to borrow the same."

Mr. James M. Codman, Jr., offered the following vote, to wit:—

That the Selectmen be authorized and instructed to purchase from J. L. Dexter, trustee, the Bachelder estate adjoining the town's land on Prospect street, containing about 5,000 square feet, more or less, and that the sum of $10,000 be appropriated therefor.

The Moderator ruled that the motion was not in order under the fifth article, but that it could be entertained under the second article.

Voted, That the fifth article be indefinitely postponed.

Second Article taken up,—"To hear and act upon the report of the committee to whom was referred articles ten, eleven and twelve, in the warrant for the town meeting held December 15th, 1897, and by adjournment on December 22d and December 29th, 1897, to accept and adopt the report of said committee, and to appropriate such sum or sums of money as may be required to carry out their recommendations, and to authorize the Treasurer to borrow the same."

Voted, That the Selectmen be authorized and instructed to purchase from J. L. Dexter, trustee, the Bachelder estate adjoining the town's land on Prospect street, containing about 5,000 square feet, more or less, and that the sum of $10,000 be appropriated therefor.

Mr. James M. Codman, Jr., then offered the following vote, to wit:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow the sum of $10,000, appropriated at this meeting, to pay for the purchase of the Bachelder estate adjoining the town's

land on Prospect street, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer, and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years from the date of delivery of said note or notes.

The Moderator appointed Messrs. Joseph Walker and Frederic Cunningham to act as tellers, and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was one hundred and two, as follows, to wit: "Yes," one hundred and one (101); "No," one (1); and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Sixth Article taken up,—"To appropriate twenty-four thousand dollars to purchase the two lots of land on Prospect street opposite the Town Hall lot, and between the Bachelder lot and Washington street, for Police Station accommodation, and to authorize the Treasurer to borrow the same."

On motion of Mr. Alfred D. Chandler, it was

Voted, That the Selectmen be authorized and instructed to purchase for Police Station accommodation the two lots of land on Prospect street, opposite the Town Hall lot, and between the Bachelder lot and Washington street, containing about 12,000 square feet, more or less, and that the sum of twenty-four thousand dollars ($24,000) be appropriated therefor.

Mr. Chandler then offered the following vote, to wit:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow the sum of twenty-four thousand dollars ($24,000) appropriated at this meeting, to pay for the purchase for Police Station accommodation, of the two lots of land on Prospect street, opposite the Town Hall lot, and between the Bachelder lot and Washing-street, containing about twelve thousand square feet, more or less, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportionate payments as will extinguish the same in or within not exceeding ten years from the date of delivery of the said note or notes.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was ninety-two, as follows, to wit: "Yes," eighty-six (86); "No," six (6); and

the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Eighth Article taken up,—"To see if the town will adopt the division of the town into three voting precincts as made by the Selectmen and reported to the Town Clerk as required by law."

Voted, That the eighth article be laid upon the table.

Seventh Article taken up,—"To see what action the town will take upon the petition of William I. Bowditch and others to the General Court for legislation to provide for sittings of the Probate Court in Brookline."

On motion of Mr. Alfred D. Chandler, it was

Voted, That the town of Brookline hereby approves the petition of William I. Bowditch and others to the General Court for legislation to authorize the holding of the Probate Court in the County of Norfolk in the town of Brookline at stated times, and also to authorize the town of Brookline to provide suitable court accommodations, either alone or jointly with the County of Norfolk; and that the said town also approves the two bills which accompany the said petition; and that the Selectmen of Brookline are hereby authorized and instructed to urge before the General Court, either personally or by counsel, the passage of such legislation as will effect the objects of the said petition.

Dissolved. Attest: B. F. Baker, *Town Clerk.*

REPORTS

OF THE

TOWN OFFICERS OF BROOKLINE

FOR THE

YEAR ENDING JANUARY 31, 1898.

BOARD OF SELECTMEN.

ORGANIZATION, 1897–8.

HORACE JAMES, *Chairman.*
JAMES M. CODMAN, JR. WILLIAM F. HUMPHREY.
LUTHER M. MERRILL. NATHANIEL CONANT.
GEORGE F. JOYCE, *Clerk.*

STANDING COMMITTEES.

ACCOUNTS — Messrs. Humphrey and Codman.
ENGINEERING DEPARTMENT — Messrs. James and Merrill.
FIRE DEPARTMENT — Messrs. Conant and Humphrey.
HIGHWAY DEPARTMENT — Messrs. Codman and Merrill.
LIGHTS, POLES AND WIRES — Messrs. Codman and Conant.
POLICE — Messrs. Conant and Merrill.
PUBLIC BUILDINGS — Messrs. James and Humphrey.
SEWERS — Messrs. James and Merrill.
SUITS AGAINST THE TOWN — Messrs. Codman and James.

On Highway Districts.

DISTRICT NO. 2 — Mr. Humphrey.
DISTRICT NO. 3 — Mr. James.
DISTRICT NO. 4 — Mr. Codman.
DISTRICT NO. 5 — Mr. Conant.

REPORT OF THE SELECTMEN.

The Selectmen submit the following report for the fiscal year, ending January 31st, 1898:—

Finances.

	1897.	1898.
Gross debt at the closing of the Treasurer's books, February 15th	$2,079,212 00	$1,394,951 00
Cash and securities (at par) in the Sinking Fund	491,982 03	38,977 43
Actual debt	$1,587,229 97	$1,355,973 57

Borrowed, 1897–8.

For Longwood-avenue Bridge @ $3\frac{9}{16}$ %	$25,000 00
Land for additional water supply @ $3\frac{35}{100}$ %	14,000 00
	$39,000 00

Debts paid off from the Taxes and Receipts of the Fiscal Year 1897–8.

For Riverdale Park, land	$8,250 00
Riverdale Park, construction	18,830 00
Longwood Playground, land	4,000 00
Longwood Playground, construction	1,600 00
Beacon street, widening	40,000 00
Harvard street, widening	3,750 00
Washington street, widening	3,050 00
Sewall avenue	1,300 00
Dwight street	600 00
Cypress-street bridge	3,500 00
Dean-road bridge	1,000 00
Aspinwall-avenue bridge	1,900 00
Village Brook channel	11,950 00
Main sewer overflow	3,000 00
Sewer from Boylston street to Dudley street	1,250 00
Williams-street drainage	1,400 00
Increase and improvement of water supply	9,881 00
Sundry street mains	1,500 00
Public Library additions	2,600 00
Board of Health hospitals	500 00
New Bathhouse	4,000 00
Lincoln School (land and buildings)	4,000 00
Cabot School (land and buildings)	2,000 00
Pierce Primary School, enlargement	2,000 00
Old High School, enlargement	500 00
Lawrence School, enlargement	1,500 00
Sewall School	3,500 00
Devotion estate	6,100 00
Devotion School	5,000 00
Manual Training School	2,400 00
High School lot	5,600 00
High School and furnishings	12,500 00
Druce-street lot	1,500 00
Druce-street School	2,800 00
	$173,261 00

The amount of debt to be paid from taxes and receipts of the fiscal year 1898–9 is $179,211, borrowed for the following purposes: —

1890–92	Riverdale Park, land	$8,250 00
1890–95	Riverdale Park, construction	18,830 00
1891	Longwood Playground, land	4,000 00
1894–96	Longwood Playground, construction	1,600 00
1888–89	Beacon street, widening	20,000 00
1894	Harvard street, widening	3,750 00
1894	Washington street, widening	3,050 00
1895	Webster street, widening	5,500 00
1891	Sewall avenue	1,300 00
1895	Chestnut street and Clark road	3,000 00
1895	Stone crushing plant	5,000 00
1891	Cypress-street bridge	3,500 00
1891	Dean-road bridge	1,000 00
1897	Longwood-avenue bridge	1,250 00
1893	Aspinwall-avenue bridge	1,900 00
1895	Main sewer overflow	3,000 00
1895	Chestnut-street brook channel	7,000 00
1893–96	Village Brook channel	11,950 00
1895	Smelt Brook improvement	15,000 00
1894	Sewer from Boylston street to Dudley street	1,250 00
1891–97	Increase and improvement of water supply	10,581 00
1888–91	Public Library additions	2,600 00
1894	Board of Health hospitals	500 00
1895–96	Bath-house	4,000 00
1888	Lincoln School	1,000 00
1888	Pierce Primary School, enlargement	2,000 00
1891	High School, enlargement	500 00
1891	Lawrence School, enlargement	1,500 00
1891	Sewall School-house	3,500 00
1891	Devotion School-house	2,000 00
1893	Manual Training School	2,400 00
1896	Druce-street School	2,800 00
1894–95	High School	10,000 00
1895	High School furnishings	2,500 00
1893	High School lot	5,600 00
1891	Devotion estate	6,100 00
1895	Druce-street lot	1,500 00
		$179,211 00

This year's valuation of the real and personal estate in Brookline is $64,169,200 as compared with $60,996,800 a year ago. This increase taken in connection with the small amount borrowed during the year and the payment of more than $75,000 into the sinking fund, in addition to the payment from taxes of $173,261 of maturing debt, has further increased our borrowing capacity under the Municipal Indebtedness act, which now stands at about $835,000.

The Town Debt.

The important financial event of the year has been the extinguishment by operation of the sinking fund of $125,000, 5 per cent sewer bonds and $425,000 water bonds, of which $400,000 bore interest at 7 per cent and $25,000 at 5 per cent. The immediate pecuniary advantage to the town resulting from the maturity of these bonds is measured by the saving in the annual interest and sinking fund charges which they have entailed for so long. The town is to be congratulated not only upon saving more than $100,000 a year in this way, but also upon having reached what is practically the end of the sinking fund system of managing our debt, a system which has proved complicated, costly and wasteful. There now remain only $42,000 water bonds to be provided for by the sinking fund, and these mature January 1st, 1900. To meet them, there is in the sinking fund cash and bonds maturing at various dates, amounting to $38,977.43, an amount sufficient without further appropriation to extinguish these bonds at maturity. The cash resources coming into the hands of the commissioners from time to time should be used for the purchase of some of the $42,000 bonds in question. If this course is pursued, the sinking fund will cease to be a disturbing factor in our financial system.

The plan of making our loans payable in annual proportionate payments under the terms of Chapter 133 of the Acts of 1882, was first tried in 1886 with the loan of $48,000 for the widening of Washington-street bridge, and this system has been pursued ever since. Already the bridge loan referred to has been entirely paid off, and in the coming year the last of the debt incurred for the widening of Beacon street will be paid. For Brookline, annual payments are far better than a sinking fund.

The unusually small amount borrowed during the past year is partly due to the fact that loans for large amounts which have been authorized by the town had not been issued at the close of the financial year. Considerable sums will be required early in the new financial year for the continuation of the work on Longwood-avenue bridge, for the purchase of a school lot on Stearns road, and for the acquisition of land for playgrounds. For these purposes loans have been authorized by the town, but not yet issued, amounting in the aggregate to

$180,000. The purchase of land and the construction of buildings in the vicinity of the Town Hall will necessitate still further additions to our indebtedness.

The opportunity offered by the relief from the burden of the old sinking fund debt is an important one, and the wisest manner of taking advantage of it is to raise by taxation a substantial proportion of the exceptional expenditures to which the town is committed and thus keep the debt within reasonable limits.

The whole amount of debt outstanding, with a rough summary of the objects for which it was incurred, and the amount of interest and of maturing principal to be paid from the revenue of the current fiscal year follow: —

	Principal outstanding.	Principal maturing 1898–9.	Interest charge 1898–9.
For Land and buildings for schools . . .	$358,600 00	$41,400 00	$13,045 13
Land and construction of parks . . .	333,560 00	32,680 00	12,802 47
Land and construction of water works .	304,791 00	10,581 00	11,944 95
Streets, street widenings and bridges .	207,700 00	49,250 00	7,304 25
Sewers and surface-water drains . .	144,900 00	38,200 00	5,026 81
Public buildings other than schools .	45,400 00	7,100 00	1,568 81
	$1,394,951 00	$179,211 00	$51,692 42

If the population be estimated at 17,000, the outstanding debt amounts to about $80 per capita.

Interest.

While the interest charge is greatly reduced from what it has been in past years, it is still a very substantial amount, and an effort should be made to keep it down. Our own citizens should be encouraged to hold Brookline bonds, and all possible ways of broadening the market for our securities should be sought. We must not rest satisfied until our bonds command as good figures as those of any municipality in the land.

State Tax.

This year the triennial reapportionment of State and County taxes is made, and by the report of the Tax Commissioner, Brookline's proportion of the State tax is to be $24.24 of each $1,000 of the State tax, as compared with $23.79 at present. The Auditor's estimates indicate that the total State tax this

year will not exceed $1,750,000, which was the amount of last year's tax. Our proportion of this would come to $42,420. Many measures are pending in the Legislature which contemplate the assumption by the State at various expenses now borne by cities, towns and counties. Should these or any of them become law, this estimate would of course require modification accordingly.

County Tax.

Our share of the County tax, as fixed by the Tax Commissioner, is $24.24 of each $67.20, or slightly more than 36 per cent.

The estimates of the County Commissioners for the current year indicate that a County tax of about $150,000 will be sufficient, unless an additional sum should be raised to provide the county with "working capital," in accordance with the suggestions of the Controller of County Accounts. Our proportion of a County tax of $150,000 would be $54,107.14.

Metropolitan Sewer Tax.

In considering the town's debt it is usual to reckon only the debt authorized by vote of the town and issued upon the town's credit. Under the system of Metropolitan undertakings adopted by the State, however, that part of the Metropolitan indebtedness for which Brookline is ultimately liable is just as important as the debt which is managed by the town. Within a comparatively few years, the State has issued for the various Metropolitan undertakings an enormous amount of bonds, most of which run for forty years. The State pays the interest upon the bonds and also maintains a sinking fund for their ultimate extinguishment. In the case of the Metropolitan Sewer debt, the State collects each year from the municipalities in the Metropolitan Sewer District, the precise amount necessary to meet these interest and sinking fund charges. The proportions in which the different municipalities contribute are fixed once in five years by a special commission appointed for the purpose. Our share of the Metropolitan Sewer debt at present amounts to more than $265,000. While we have learned by experience to pay off a portion of each of our loans every year, so that the burden of each debt is constantly decreasing, the State manages the Metropolitan indebtedness by a sort of progressive sinking

fund, so that the annual cost of carrying the debt grows larger as time goes on. The indebtedness of $265,000 is represented by the right to use the Metropolitan sewer from the outlet of our own main sewer at St. Mary's street to the end of the Metropolitan sewer at Huntington avenue. From this point, the Metropolitan sewage is taken by the city of Boston through its system of sewers to the sea. The annual rental paid to Boston for this service is additional to the cost of carrying the sewer debt and is a heavy fixed charge. By the terms of a new contract recently made between the Metropolitan Sewerage Commissioners and the City of Boston, this rental is hereafter to be about twice as much as it has been heretofore, and in consequence of this, our tax for this year cannot safely be estimated at less than $20,000, and may somewhat exceed that sum.

The Metropolitan Sewerage Commissioners propose to make an elaborate investigation during the coming year of the cost of constructing an outlet for the Metropolitan sewer entirely independent of the Boston system, and it is possible that this will prove to be an economical scheme.

The ever-increasing Metropolitan sewer assessments, continuing as they must for a long term of years, will take more from our taxpayers than will be required by the whole of our own present indebtedness for either schools, parks or water, and for this reason alone the subject may well receive attention in proportion to its magnitude. The management of Brookline's interests in metropolitan affairs during the next few years is likely to be the most important matter which our town officers will be called upon to deal with.

Metropolitan Parks.

It is not yet possible to form an estimate of the amount of indebtedness incurred and to be incurred for Brookline on account of the Metropolitan Park system. The whole amount of expenditure authorized so far is $6,800,000, which has been borrowed by the State on forty-year loans.

Of this sum $3,800,000 is for park purposes, and the whole of this has been expended or will be when outstanding claims are settled.

There has been authorized for Metropolitan boulevards an expenditure of $2,000,000, and about one-half of this has not yet been used.

The remaining $1,000,000 of the gross amount of the debt is being used under the terms of the statutes in paying the interest and sinking fund charges upon the whole of the loan till the year 1900, and also for defraying the cost of the maintenance of the system.

Propositions are being considered for increasing the park loans by the amount necessary for taking the banks of the Neponset and Mystic rivers, and there are also many schemes for additional boulevards. As the law now stands, the system is to be finished by the year 1900, and the proportions are then to be determined in which the cities and towns included in the Metropolitan Park district shall thereafter contribute the sums necessary for paying interest and sinking fund requirements upon the whole debt as well as for maintaining the parks and boulevards. After 1900, of course, the million dollars now being used for running expenses will be simply a portion of the debt, representing nothing. A considerable permanent debt for these objects should be included in any consideration of our total indebtedness.

Appropriations.

The amount recommended in the following appropriation vote is $916,629.56, compared with total charged against the taxes and receipts of previous years of,—

1895	1896	1897
$950,465.85	$984,825.88	$971,500.15

These figures taken in connection with the general financial condition of the town outlined above show that a large portion of the money required for new school-houses this year, can and ought to be raised by taxation and not borrowed, unless the whole situation is entirely changed by legislation.

The net expenditures from all sources, after deducting payments to sinking fund and for maturing debt, compare as follows:—

1895	1896	1897
$952,921.26	$867,220.28	$785,390.93

The form in which the appropriations have been recommended by the Selectmen and voted by the town for many years has sacrificed fullness of statement to compactnes. Where the title of an appropriation is the only statement of

the purpose for which the money is appropriated, and that title must be brief enough to fit within the limits of half of a rather narrow page, much that ought actually to be expressed is left to more or less vague understanding. The form now proposed aims to express what has always been understood and to render still fuller expression convenient. The scheme is also calculated to remove certain technical difficulties in accounting which have arisen, and to make it possible, if desired, to minimize duplication of figures in the Treasury and Accounting departments.

(Vote.) The following sums, amounting in the aggregate to $916,629.56, are hereby appropriated to defray the expenses which will come in course of payment for the financial year ending January 31st, 1899. All expenditures made by authority of this vote shall be accounted for in detail by the Accounting department:—

A. ($135,000.) For maintaining the Public Schools, the sum of $135,000.00, to be paid from the Treasury upon the orders of the School Committee, and charged by the Treasurer to "Education"; and from this sum there is authorized for each of the following specific purposes an expenditure not exceeding,—

1. For the High School $26,000.00
   (1897, expended, $25,062.63.)
2. For Grammar and Primary Schools $72,500.00
   (1897, expended, $70,100.56.)
3. For Kindergartens $13,000.00
   (1897, expended, $12,542.53.)
4. For Manual Training and Domestic Arts $11,500.00
   (1897, expended, $11,369.43.)
5. For General School Expenses $10,500.00
   (1897, expended, $10,460.33.)
6. For Evening Schools $1,500.00
   (1897, expended, $978.29.)

(Total School appropriations, 1897, $127,200.00; expended, gross, $130,513.77; receipts, $3,385.00; net, $127,128.77.)

B. ($35,900.) For the maintenance of the Water Works and for the ordinary extensions of the same, including the construction of new street mains, the sum of $35,900.00, to be paid from the Treasury upon the orders of the Water Board and charged by the Treasurer to "Water"; and from this sum there is authorized for each of the following specific purposes, in addition to the salaries of the Water Board, the Water Registrar and the Superintendent of Water Works, which are hereby fixed for the current financial year at $900, $1,500 and $2,500 respectively, an expenditure not exceeding,—

1. For maintenance of water works $15,500.00
   (1897, appropriated, $15,500.00; expended, $15,496.98.)
2. For extension of water works $15,500.00
   (1897, appropriated, $17,051.00; expended, $12,604.48.)

Expenditures for work done and materials furnished under the direction of the Water Board, the ultimate cost of which is not intended

to be borne by the town, shall be deemed to be a part of the cost of the extension of water works until the town is reimbursed therefor, and whenever the town is reimbursed for any such expenditure, the amount of such reimbursement shall forthwith be credited to and deducted from the cost of extension of water works.

C. **($11,150.) For the care and maintenance of parks and public grounds,** the sum of $9,150.00, to be paid from the Treasury on the orders of the Park Commissioners and charged by the Treasurer to "Parks and Public Grounds"; and for planting trees the sum of $2,000.00, to be paid from the Treasury upon the orders of the Selectmen, at the recommendation of the Committee on Planting Trees, and charged by the Treasurer to "Planting Trees"; and from these sums there is authorized for each of the following specific purposes an expenditure not exceeding,—

1. For the maintenance of the Riverdale Parkway and the care of public grounds $8,150.00
   (1897, appropriated, $7,200.00; expended, $6,517.32.)

   To which there shall be added:—

   For grading Longwood Playground $1,000.00
   (1897, appropriated, $4,008.34; expended, $4,003.66.)
2. For planting trees $2,000.00
   (1897, appropriated, $2,000.00; expended, $1,801.43.)

D. **($145,500.) For maintaining and watering highways, constructing and repairing sidewalks, and lighting streets and ways,** $145,500.00, to be paid from the Treasury upon the orders of the Selectmen and charged by the Treasurer to "Care and lighting of Streets"; and from this sum there is authorized for each of the following specific purposes an expenditure not exceeding,—

1. For the maintenance of highways, including the salary of the Superintendent of Streets, which is hereby fixed at $2,500.00 for the current financial year . . . $67,500.00
   (1897, appropriated, $62,500.00; expended, $62,447.03.)
2. For the construction and repair of sidewalks $16,000.00
   (1897, appropriated, $16,000.00; expended, $13,609.69.)
3. For watering streets $17,000.00
   (1897, appropriated, $17,000.00; expended, $15,418.82.)
4. For lighting streets $45,000.00
   (1897, appropriated, $44,000.00; expended, $41,310.41.)

E. **($128,975.) For maintaining the public safety and health,** the sum of $128,975.00, to be paid from the Treasury upon the orders of the Selectmen and charged by the Treasurer to "Public Safety and Health"; and from this sum there is authorized for each of the following specific purposes an expenditure not exceeding,—

1. For maintaining the Police Department $50,000.00
   (1897, appropriated, $50,000.00; expended, $49,448.56.)
2. For maintaining the Fire Department $35,000.00
   (1897, appropriated, $28,900.00; expended, $28,608.05.)

   To which there shall be added:—

   For new hook and ladder truck in exchange for old one $1,000.00

   For new building and apparatus for Chestnut Hill District and for maintaining the same $6,900.00

3. For the maintenance and extension of the fire and police alarm telegraph system, including the salary of the Superintendent of Lights and Wires, which is hereby fixed at $1,500.00 for the current financial year . . . $4,400.00
(1897, appropriated, $6,500.00; expended, $6,487.58.)

To which there shall be added:—

For a new repeater and switchboard, two new fire alarm boxes and altering one police box $1,375.00

For placing town wires underground, including $500 appropriated at February meeting $2,000.00
(1897, appropriated, $2,000.00; expended, $1,576.45.)

4. For preserving the public health $18,000.00
(1897, appropriated, $17,000.00; expended, $17,295.72.)

5. For maintaining the Bath-house $7,600.00
(1897, appropriated, $7,600.00; expended, $7,345.16.)

6. For the salary of the Inspector of Buildings $1,500.00
(1897, appropriated, $1,500.00; expended, $1,500.00.)

7. For the salary of the Inspector of Plumbing $1,200.00
(1897, appropriated, $1,200.00; expended, $1,200.00.)

F. ($29,000.) For constructing, maintaining and repairing sewers and surface-water drains, the sum of $29,000.00, to be paid from the Treasury on the orders of the Selectmen and charged by the Treasurer to "Drainage"; and from this sum there is authorized for each of the following specific purposes an expenditure not exceeding,—

1. For the construction of sewers $20,000.00
(1897, appropriated, $25,000.00; expended, $14,216.45.)

2. For the construction of surface-water drains $5,000.00

3. For maintaining and repairing sewers and surface-water drains $4,000.00
(1897, appropriated, for care of sewers, $4,000.00; expended, $2,740.34.)

G. ($9,650.) For assistance to the poor and disabled, including the maintenance of the almshouse, the sum of $9,650.00, to be paid from the Treasury upon the orders of the Selectmen and charged by the Treasurer to "Support of Poor and Military Aid"; and from this sum there is authorized for each of the following specific purposes an expenditure not exceeding,—

1. For the support of the poor $8,500.00
(1897, appropriated, $8,500.00; expended, $7,877.87.)

2. For assistance to disabled soldiers and sailors, and the families of deceased soldiers and sailors $400.00
(1897, appropriated, $400.00; expended, $336.71.)

3. For state and military aid $750.00
(1897, appropriated, $750.00; expended, $692.00.)

Except for state and military aid, expenditures under this head (G), the ultimate cost of which is not intended to be borne by the town, shall be deemed to be a part of the cost of the support of the poor until the town is reimbursed therefor, and whenever the town is reimbursed for

any such expenditures, the amount of such reimbursement shall forthwith be credited to and deducted from the cost of the support of the poor.

H. ($67,024.) For general expenses of administration, and maintenance of the Public Library, including salaries for the current financial year, the sum of $67,024.00, to be paid from the Treasury upon the orders of the Selectmen and charged by the Treasurer to "General Expenses of Administration"; and from this sum there is authorized for each of the following specific purposes an expenditure not exceeding,—

1. For the maintenance of the Public Library, to be paid over to the Treasurer of the Trustees of the Public Library from time to time as wanted by the Trustees . $15,000.00
   (1897, appropriated, $10,500.00; expended, $10,500.00.)
2. For the salary of the Assessors $3,300.00
   (1897, appropriated, $3,300.00; expended, $3,300.00.)
3. For extra clerical assistance to the Assessors $300.00
   (1897, appropriated, $300.00; expended, $152.66.)
4. For the salary of the Clerk of the Assessors $1,200.00
   (1897, appropriated, $1,200.00; expended, $1,150.00.)
5. For rent of the Assessors' office, and fuel $650.00
   (1897, appropriated, $650.00; expended, $651.40.)
6. For the salaries of the Selectmen, Overseers of the Poor and Board of Health, from which shall be paid to the Chairman $1,350, and to each of the others who are Selectmen $750, and to each of the remaining Overseers of the Poor $150 . . . . . $4,650.00
   (1897, appropriated, $4,650.00; expended, $4,650.00.)
7. For the salary of the Clerk of the Selectmen, Overseers of the Poor and Board of Health $1,900.00
   (1897, appropriated, $1,800.00; expended, including $100 as clerk of the Board of Health, $1,900.00.)
8. For the salary of the stenographer $624.00
   (1897, appropriated, $520.00; expended, $520.00.)
9. For the salary of the Town Clerk, including the preparation of the records of town meetings for publication and the preparation of an index to the annual town report $1,800.00
   (1897, appropriated, $1,800.00; expended, $1,800.00.)
10. For the salary of the Registrars of Voters $400.00
    (1897, appropriated, $400.00; expended, $400.00.)
11. For the salary of the Clerk of Walnut Hills Cemetery . . $150.00
    (1897, appropriated, $150.00; expended, $150.00.)
12. For the salary of the Town Treasurer and Collector, from which shall be paid by him the cost of such assistants as he may need $5,000.00
    (1897, appropriated, $5,000.00; expended, $5,000.00.)
13. For the salary of the Treasurer of the Trustees of the Sinking Fund $100.00
    (1897, appropriated, $200.00; expended, $200.00.)
14. For the salary of the Accountant $1,500.00
    (1897, appropriated, $1,500.00; expended, $1,500.00.)

15. For the salary of the Board of Auditors $150.00
(1897, appropriated, $150.00; expended, $150.00.)

16. For the Engineering Department, including the salary of the Town Engineer, which is hereby fixed at $3,000 for the current financial year $11,000.00
(1897, appropriated, $10,000.00; expended, $9,997.37.)

17. For the maintenance of the Town Hall and the salary of the janitor $3,200.00
(1897, appropriated, $3,200.00; expended, $2,750.63.)

18. For exterior repairs of town buildings $3,000.00
(1897, appropriated, $3,000.00; expended, $2,931.90.)

19. For the observance of Decoration Day $400.00
(1897, appropriated, $400.00; expended, $400.00.)

20. For the care of the Brookline Cemetery $200.00
(1897, appropriated, $200.00; expended, $166.00.)

21. For printing and advertising, for legal and other miscellaneous expenditures, ringing bells and contingencies . $12,500.00
(1897, appropriated, $12,500.00; expended, $12,023.71.)

I. ($237,903.42.) For interest on the town debt and for so much of the principal of the town debt incurred prior to February 1st, 1898, as matures during the current financial year, including that which matures on February 1st, 1899, $237,903.42, to be paid from the Treasury upon the orders of the Selectmen; and from this sum there is authorized for each of the following specific purposes an expenditure of,

1. For payment of maturing funded debt $179,211.00
(1897, appropriated, $173,261.00; expended, $173,261.00.)

2. For interest on funded debt $51,692.42
(1897, appropriated, $87,887.81; expended, $87,993.65.)

3. For interest on loans in anticipation of taxes $7,000.00
(1897, appropriated, $7,094.80; expended, $7,137.79.)

The repayment of any money borrowed in anticipation of taxes during the current financial year is hereby authorized, such repayments to be made upon the orders of the Selectmen, but a separate account of borrowings and repayments shall be kept by itself.

J. ($116,527.14.) To pay the several State, County and Metropolitan taxes which may be assessed upon the town and become due and payable during the current financial year, $116,527.14, or such sum as may be assessed in the aggregate.

1. For the State tax $42,420.00
(1897, appropriated, $41,632.50; expended, $41,632.50.)

2. For the County tax $54,107.14
(1897, appropriated, $58,354.17; expended, $58,354,17.)

3. For the Metropolitan Sewer tax $20,000.00
(1897, appropriated, $13,167.27; expended, $13,167.27.)

For the purpose of determining the amount expended for any of the purposes authorized, all reimbursements and credits shall be deducted from the amount actually expended; but this provision shall not be construed to apply to actual cash received from taxes, assessments, water rates, rents, tuition, bath-house and other fees, fines or interest.

Whenever work is done or materials furnished by one department for another department, the cost of which is charged in the first instance to

the appropriation of the former department, credit shall, upon the approval of the latter department and the officers authorized to draw orders against the appropriations thereof, forthwith be given to the former department upon the books of the Accountant, and such credits shall not be made to appear as actual cash transactions upon the books of the Treasurer.

Lighting Streets.

This subject received much attention at the last annual town meeting, and acting in accordance with the opinion of the town as then expressed, the Selectmen succeeded, after much negotiation, in making a two years' contract with the Brookline Gas Light Company for arc lights at the reduced price of thirty-five cents per light per night, and a five years' contract with the Welsbach Street Lighting Company of America for its lights at $32 per light per year. The Welsbach contract is terminable at the option of the town on the first of July, 1898, by notice given before the first of May. The contracts in full are as follows: —

[CONTRACT WITH BROOKLINE GAS LIGHT COMPANY.]

THIS AGREEMENT made and entered into this first day of May, A. D. 1897, by and between the Brookline Gas Light Company, a corporation duly established under the laws of the Commonwealth of Massachusetts, and having its usual place of business in Boston, Massachusetts, hereinafter called "the Company," of the first part, and the town of Brookline, in the County of Norfolk, and hereinafter called "the town," of the second part, WITNESSETH:

First. — The Company agrees to furnish for a period of two years from and after this date such number of electric arc lights as may be legally located in the streets, ways, squares, parks and public places and public grounds of the town of Brookline. Said arc lights are to be furnished at the rate of thirty-five cents per light per night during such time as the number thereof located in streets, ways, squares, parks and public places and public grounds of the town shall be two hundred and twenty-five or more, but if during any part of the time before the first day of May, A. D. 1899, the number of said arc lights so located in the town shall fall below said minimum number of two hundred and twenty-five lights, then for such time as said total number of said arc lights so located shall be less than two hundred and twenty-five, the town is to pay for said lights at the rate of forty cents per light per night.

Said lights are to be kept lighted continuously between dusk and dawn during such hours as the Selectmen of the town may direct, the total number of hours per light per year not to exceed thirty-eight hundred and fifty.

Wherever lamps are connected to underground wires belonging to the town or any department thereof, the price will be one cent per lamp less per night than otherwise.

All new mast-arms and hoods which may be required beyond those now in use in said town are to be furnished by and at the expense of said town, and are to be of such make and such form as said town or the Selectmen thereof may select, and the cost of setting such new mast-arms and hoods, and of making the necessary connections therewith, is to be paid for by said town. All other apparatus necessary under this

contract is to be furnished and set by the Company at its expense, including all poles and wires.

The electric current to be furnished for the arc lights is never to be less than nine and six-tenths amperes, and the pressure at each lamp is to be not less than forty-eight volts, being an electrical energy of four hundred and sixty-one watts. If less amperes are used, then the volts shall be enough greater to require four hundred and sixty-one electrical watts per lamp, and giving a nominal candle power of two thousand.

Carbons used must be at least one-half or seven-sixteenths inch in diameter, of the best quality and style adapted for street lighting, and must burn uniformly and give a clear and steady light.

The globes are to be of clear glass, unless otherwise ordered by the Selectmen of the town, free from lettering, and all of the best quality and proper shape to avoid casting rings and streaks of light and shadow.

The Company is to brush thoroughly all globes inside and outside at least three times a week, and to wash the same as frequently as may be considered necessary by the Selectmen of the town, and is to replace immediately by sound ones any globes that may become broken.

The present overhead system of construction is to be used.

Second. — The Company further agrees to indemnify and save the town harmless from and against any and all claims and demands for damages, costs and expenses for or on account of injuries to persons or property arising from imperfect constructions and maintenance, or from any use of its wires and apparatus, and from any and all claims for damage by reason of any infringement of patent rights in the use of lamps, lights, wires, poles, machinery and appliances connected therewith.

Third. — And, further, the said Company agrees that, should any of the lamps fail to burn uniformly and give a clear and steady light, to the satisfaction of the Selectmen of the town, the Company will at its own expense replace them with others satisfactory to said Selectmen.

Fourth. — The Company agrees at its own expense to maintain an efficient system of patrol for inspecting the lamps during the hours which they are in use, so that any lamp which fails to burn properly shall be promptly reported and put in order, or immediately replaced. For this inspection a sufficient number of men shall be employed to enable each lamp to be examined at least three times during each night.

Fifth. — The town agrees that if said Company shall well and faithfully perform the promises and conditions of this contract in all its parts, first satisfying the said town that no proceedings either in law or equity have been begun against said town on account of any infringement of patent rights, or the wrongful use of or injury by said electric lamps, lights, wires, poles, machinery and appliances, or any of them, then the town will pay the Company monthly during the period of this contract such sum as the total number of lights burning at the price named may amount to. In case any such suit or suits against said town shall have been begun, or notice of a claim for damages shall have been given, the town shall pay any amount due under this contract, notwithstanding such suit or notice, if the Company shall furnish the town with a bond of indemnity with satisfactory sureties.

Said sum shall be in full payment and discharge for any and all expenses attending the care, maintenance and use of such lights and apparatus, and it is hereby understood and agreed that if through accident or other cause the said lamps, or any of them, shall fail to be lighted and kept so lighted as stated above, any night or nights during the period of this contract, then for each lamp that shall fail to be lighted there shall be deducted from the sum to be paid by said town an amount for each light not so lighted equal to the rate to be paid for lighting the same under this contract as provided. In case the actual current supplied to any of the lamps shall be less than that called for herein, payment shall only be made for the actual current ascertained. The amount to be paid to be based pro rata on the amount which would be paid were the current equal to that required hereby, unless said deficiencies should amount to over twenty per cent of the current called for, in which case no payment shall be made, the lights being considered useless. And, further, this is not to be construed to imply a right to continue to furnish lights under this contract at reduced currents.

For the purpose of making tests of currents and of examining the lamps, wires, poles, apparatus and appliances with the view of learning whether the Company is complying with the terms of this agreement, it is further understood and agreed that at all proper times the town, by such person or persons as the Selectmen of the town may authorize, shall have access to all said lamps, wires, poles, apparatus and appliances in the town, and also to the plants of the Company, and shall have the further privilege at any time and all times of attaching in any of the circuits, at such point or points as they may select, one or more ammeters or other measuring instruments, and to maintain the same during its pleasure, and have the further right to remove at any time one or more lamps for the purpose of testing the candle-power of said lamp or lamps.

This contract shall continue in force for two years from the date hereof, subject to appropriations; and shall continue thereafter until a new agreement is made by the parties, or until the expiration of six months after notice in writing by either party of its election to terminate this contract, which notice may be given in such wise as to terminate said contract at the end of said period of two years.

In consideration of this contract and of the above promises of said town, the Company agrees to furnish electric arc lights for the lighting of the public buildings when so requested to do by the departments having charge of said public buildings, at the same rates and on the same conditions provided for in this contract.

All prior contracts of every kind and description between the parties hereto, if any there are now in force, for furnishing gas or electric lights, are hereby annulled, and in consideration of the making of this contract and of one dollar to the Company by the town paid, receipt whereof is hereby acknowledged, the Company does hereby release and discharge the town from all claims and demands of every name and nature which at the date hereof it has or claims to have against said town, except for the electric lights and gas supplied by said Company during the month of April, 1897.

IN WITNESS WHEREOF said Company by its proper officer, and said town by its Selectmen, duly authorized, have hereunto set their hands and seals.

THE BROOKLINE GAS LIGHT COMPANY,
by ROBERT AMORY, President. [L. S.]

THE TOWN OF BROOKLINE,
by HORACE JAMES.

[CONTRACT WITH WELSBACH STREET LIGHTING CO.]

THIS AGREEMENT made this seventeenth day of May, A. D. 1897, between the town of Brookline, in the County of Norfolk and Commonwealth of Massachusetts, hereinafter called "the town," and the Welsbach Street Lighting Company of America, a corporation duly established by law and having its principal place of business at Philadelphia, in the County of Philadelphia and State of Pennsylvania, hereinafter called "the Company," WITNESSETH:

That the said Company, in consideration of the covenants and agreements hereinafter mentioned on the part of the town and its successors to be kept and performed, hereby agrees with the town to furnish lights as hereinafter set forth. The Company agrees to place the Company's improved fixtures on the street lanterns within said town, which are hereinafter mentioned, at its own expense, and at its own expense to furnish all gas required or self-generating burners required for the lighting of said lanterns, and at the expense of the Company to furnish all material and mantles used in lighting said lanterns, and to renew the same as often as may be necessary; also at the expense of the Company to furnish men to light said lanterns and to keep the same clean; also at the expense of the Company to light all such lamps such number of nights and for such number of hours per night as are hereinafter mentioned during the continuance of this agreement, in accordance with the following specifications, for a term of five years from July 1st, 1897, it being, however, mutually agreed that this contract may be terminated at the expiration of one year from said last mentioned date upon written notice being given by the town, or by the Selectmen thereof, to the Company, sixty (60) days before the expiration of the said first year of said term of five (5) years, in accordance with the provisions as stated below under the covenant of compensation.

Minimum Number.—The lights to be furnished by the Company shall be lights used in the streets, public places or private ways of the town, and are not to be less than one hundred (100) in number, but may be as many more as may be required from time to time by the Selectmen of said town, to be located in such parts of the town as the Selectmen may deem desirable.

Service.—The lamps are to be lighted by the Company every night in every month in every year during which this contract shall be in force, and shall burn from dusk until dawn during such hours as the Selectmen of said town shall from time to time designate, and the lights furnished shall be of sixty candle power each, but the total number of hours per light per year shall not exceed thirty-eight hundred and fifty.

The Company further agrees that should any of the lamps fail to burn uniformly and to give a clear and steady light of the aforesaid candle power to the satisfaction of the Selectmen of the town, the Company will at its own expense replace them with others satisfactory to said Selectmen; and the Company agrees at its own expense to maintain an efficient system of patrol for inspecting the lamps during the hours in which they are in use, so that any lamp which fails to burn properly shall be promptly reported and put in order or immediately replaced. For this inspection a sufficient number of men shall be employed to enable each lamp to be examined at least three times during each night, if necessary.

Lanterns.—The Company shall furnish first class keystone lanterns, and shall keep the same in good repair, and in said lanterns the Company shall place its improved attachments for lighting.

Posts and Connections.—The Company shall furnish and erect its standard iron posts wherever its self-generating Welsbach gas lamps are used. The Company shall also furnish, where posts are required beyond those which may be furnished by the town, the standard iron posts of the Company for all their Welsbach gas lamps used, and shall pay the cost of connecting all such posts with the gas mains. If the connections with gas mains are not made in such a way as to assure a free flow of gas to the burners at all times, the Company shall have the right to use their self-generating burners instead of gas, but gas shall be used where and when obtainable with a proper flow.

Cleaning.—The lanterns shall be cleaned by the Company at its expense during the period while this contract remains in force to the acceptance of the town or of its Selectmen.

Indemnity.—The Company further agrees to indemnify and save the town harmless from and against any and all claims and demands for damages, costs and expenses for or on account of injuries to persons or property arising from any act or default of the Company or its servants or agents in the performance of this contract, and from any and all claims for damage by reason of any infringement of patent rights in the use of lamps, machinery and appliances furnished by the Company under this contract.

Compensation.—The town agrees that if the Company shall well and faithfully perform the promises and conditions of this contract in all its parts, first satisfying the said town that no proceedings either in law or equity have been begun against said town on account of any infringement of patent rights or the wrongful use of or injury by said lamps, posts and appliances, or any of them, then the town will pay the Company in full for all compensation to the Company for furnishing light as aforesaid, and for furnishing and affixing its improved fixtures, and for furnishing its self-generating burners, and for the performance by the

Company of all its other undertakings under this contract, thirty-two dollars ($32.00) per year for each and every light furnished by the Company according to this contract, payable monthly during the term of this contract.

In case any such suit or suits against said town shall have been begun, or notice of a claim for damages shall have been given, the town shall pay any amount due under this contract, notwithstanding such suit or notice, if the Company shall furnish the town with a bond of indemnity with satisfactory sureties. Such sum shall be in full payment and discharge for any and all expenses attending the care, maintenance and use of such lights and apparatus, and it is hereby understood and agreed that if through accident or other cause the said lamps or any of them shall fail to be lighted and kept so lighted as stated above any night or nights during the period of this contract, then for each lamp that shall fail to be lighted or kept so lighted there shall be deducted from the sum to be paid by the said town an amount for each light not so lighted equal to the rate to be paid for lighting the same under this contract as provided for the time that such light remains unlighted.

In case the candle power of the lamps shall be less than that called for herein, payment shall only be made for the actual candle power furnished, the amount to be paid to be based pro rata on the amount which would be paid were the candle power equal to that required hereby, unless said deficiencies should amount to over twenty (20) per cent of the candle power called for, in which case no payment shall be made, the lights being considered useless.

And further, this is not to be construed to imply the right to continue to furnish lights under this contract at any candle power less than that called for by the contract.

For the purpose of making tests of candle power and of examining the lamps, posts, apparatus and appliances, with the view of learning whether the Company is complying with the terms of this agreement, it is further agreed that at all proper times the town, by such person or persons as the Selectmen of the town may authorize, shall have access to all said lamps, posts, apparatus and appliances in the town, and shall have the privilege of making all proper tests for determing the candle power of said lamps, and shall have the further right to remove at any time one or more lamps for the purpose of testing the candle power of said lamps.

If, however, the town elects to terminate this contract at the end of the first year as hereinbefore provided, the price to be paid to the Company shall be thirty-five dollars and fifty cents ($35.50) instead of thirty-two dollars ($32.00) per light per year for each and every light furnished by the Company according to this contract; and in case this contract shall be terminated as aforesaid, the town shall also repay the Company the reasonable cost of connecting with the gas mains all such posts as shall have been connected at the expense of the Company with the gas mains while this contract was in force.

It is further hereby agreed and understood that all lanterns, posts and fixtures furnished by the Company shall be and remain its property.

Bond.—The Company agrees to furnish to the town a bond in the sum of twenty-five hundred dollars ($2500) with a surety or sureties satisfactory to the Selectmen, for the faithful performance of this contract.

In witness whereof the parties hereto have caused their respective corporate seals to be hereunto affixed, and these presents to be signed by their respective officers hereto duly authorized, the day and year first above written.

{L. S.}

Welsbach Street Lighting Company of America,
by Martin Maloney, President. [L. S.]

Attest: Nathan Y. Worrall, Sec'y.
May 15th, 1897.

On the whole, the Welsbach lights have proved very successful. They have been kept in good condition, and the mantles have been promptly replaced whenever necessary. In percentage of lights out they compare favorably with the other kinds of lights now in use. They are far superior to the ordinary gas lights, and in many streets their use seems more appropriate than that of arc lights, because of the better subdivision of the light. This is especially true in winding streets, and in those with much foliage. Of course, surrounding buildings and grounds can be much more brilliantly illuminated by the use of arc lights, but if such illumination is to be furnished for private rather than public reasons, it should be accompanied by a special charge in proportion to the service rendered. Moreover, there is a serious objection to lighting a man's house and grounds with an arc light, even incidentally, for when, as is often the case, public interest requires the removal of the light to a new location, there is apt to be a feeling that a wrong has been done. While Brookline was the first municipality in New England to introduce these lights, they are now in use on the Mystic Valley Parkway, and in Cambridge, Worcester, Methuen, New Haven and Newport.

There is no written contract for the ordinary gas lights, but the town simply pays a dollar a thousand feet for the gas used and employs its own men to do the lighting. The naphtha

lights are furnished as heretofore by the Globe Gas Light Company at a cost of seven cents per night per light. Many changes and additions of new lights have been made during the year, and the town is now better and more thoroughly lighted than ever before. A table by streets of all the lights and other interesting information will be found in the report of the Superintendent of Lights. We recommend that all kinds of lights now in use be continued through the year, such changes and additions being made as may from time to time seem desirable. The appropriation asked for is $45,000, which has been calculated as follows: —

221 arcs	@	$127.75	=	$28,232 75
11 arcs	@	124.10	=	1,365 10
½ arc	@	73.00	=	73 00
129 naphtha	@	25.55	=	3,295 95
187 gas	@	say 25.50	=	4,768 50
109 Welsbach	@	$32.00	=	3,488 00
				$41,223 30
Repairs and incidentals				250 00
New poles and underground work for Parkway				1,200 00
New lights				2,000 00
				$44,673 30

Police Department.

During the year four new men have been added to the police force, which now numbers 43 men in all, including officers. The work of the year, an account of which is given as usual in the report of the Chief, has been upon much the same lines as in former years. It is believed that an appropriation of $50,000, the same as last year, will be sufficient to meet this year's expenses.

Fire Department.

For details of the organization and work of this department reference is made to the report of the Fire Engineers published herewith. It will be noticed that they recommend the employment of additional permanent men and that call men be done away with entirely. In this we partially concur. We suggest that the permanent force be increased by adding five men, and the call force by adding four men — this for working the apparatus which the town now owns. We recommend that the salary of the Chief Engineer be fixed at $1,200 per year and that he be required to devote his whole time to the work of the department; that the salary of the Assistant

Engineers be fixed at $200 per annum; that the pay of the permanent men remain the same as it now is, and that the pay of the call men be increased to $100 per annum, — this scheme to go into effect May 1st, 1898. For the carrying out of these suggestions an appropriation of $35,000 will be required.

With reference to new apparatus, the report of the Engineers recommends repairing the old hook and ladder truck now kept in the steamer house in the village. We think it would be better to exchange the old truck for a new one. This can be done at an expense of $1,000, and the old truck kept in use until the new one is ready.

In December last we were asked to take some steps towards providing apparatus for the Chestnut Hill district, and we recommend (1) that a new engine house be built on the lot of land belonging to the town on Heath street, at an estimated cost of $3,000; (2) the purchase of a combination engine, hose, etc., at a cost of $1,800; (3) one pair horses and harnesses, $500; (4) the removal of the bell from Hose 2 house to new house, $75; (5) for new gong and indicator, $250; (6) the employment of two permanent and three call men for six months for this house, and feeding and shoeing two horses for six months, $1,275. Total expenditure required, $6,900.

To sum up, the cost of maintaining the existing department, if the changes as suggested are made, will be $35,000. The cost of new apparatus, etc., will be, for new hook and ladder truck $1,000; for new house, apparatus, horses and equipment for Chestnut Hill district, $5,625; for pay of three call men and two permanent men, and feeding and shoeing two horses for six months, $1,275.

At the town meeting held December 15, 1897, an appropriation of $8,000 was made for the purchase of a lot of land on which to erect an engine house in the vicinity of Aspinwall Hill. As yet no land has been bought. The lot we had in mind at the time of making the appropriation cannot now be purchased for that purpose, and we are trying to find another suitable location.

Fire and Police Alarm Telegraph, Poles and Wires.

The fire and police alarm system has worked well, and has been much improved by the additions authorized by the town a year ago. As the number of boxes increases, additional central apparatus becomes necessary. A detailed account of

the work done during the year and the improvements proposed will be found in the Superintendent's report. The telephone company continues to bury a good many wires each year, and it has been the policy of the town to use the conduits of the telephone company for its own wires as fast as possible. We recommend that a further appropriation for this purpose be added to the appropriation for maintaining the system. Some effort was made to induce the gas company to take steps towards removing its overhead wires from Beacon street, but without avail, and the new contract for lighting contains a provision that the present overhead system of construction shall be used.

The appropriation recommended is made up in detail, as follows: —

Salary of the Superintendent	$1,500	
Care and shoeing of horse, repairing wagon and new harness	450	
Wages of assistants	1,500	
Rent of telephones in police boxes	175	
Supplies and incidentals	775	
Ordinary expenses of maintenance		$4,400
Repeater and switchboard	$1,125	
Two new fire-alarm boxes	150	
Altering one police box	100	
New apparatus		1,375
Underground wires, including $500 appropriated at the meeting in February		2,000
		$7,775

Legislation asked for by the Town.

At the town meeting held on Feb. 23d, 1897, the Selectmen were instructed to ask for legislation in relation to precinct voting. This was subsequently obtained and reported to the town. At the meeting of Feb. 9th, 1898, it was voted to seek legislation to extend and define the powers of the tree planting committee. An act for this purpose, which requires acceptance by the town, will probably become law before the annual meeting.

The Selectmen were also instructed at the meeting in December last, to ask for legislation relative to the licensing of gas fitters and the regulation of gas fitting. After a public hearing in the Town Hall, a bill was prepared and submitted to the Legislature. As this subject has not attracted general interest at all in proportion to its importance, the bill has been referred to the next General Court for further consideration.

Attention is called to the terms of the bill, which is printed on a subsequent page of this report (following the report of the Examiners of Plumbers), in order that it may be examined carefully, and perfected if necessary.

Inspection and Survey of Buildings.

We desire to call the attention of the citizens to the necessity of an increase in the force employed in this department. As at present constituted, we have only the Inspector of Buildings and one assistant, who is also Inspector of Plumbing and Sanitary Inspector for the Board of Health. His duties in connection with these positions fully occupy his time, thus leaving but one man to attend to the office work and out-door inspection of buildings. The Inspector now spends the forenoon in the office, and makes such inspections of buildings as he can in the afternoon. With the large amount of building which has been in progress for the past few years, he does not have time properly to inspect the work. Again, persons frequently wish to consult him at the office in the afternoon, but he is not there. Some one should be in the office all the time during business hours, and as no man can be in two places at the same time, the necessity of an additional Inspector for out-door work is apparent.

During the past two years various changes and additions have been made in the building laws, with a view to improving and perfecting them; but it is useless to make laws unless proper provision is made for enforcing them. We therefore suggest that the board of Selectmen be authorized to appoint an additional Assistant Inspector of Buildings, with such salary as the town may vote.

Repair of Town Buildings.

The amount of appropriation for this purpose was $3,000; the amount expended is $2,931.90; balance unexpended, $68.10. For details of this expenditure see Accountant's report.

Reports.

The reports of the various heads of departments and other officers are unusually full and complete, and to avoid needless repetition, reference is made to them for numerous facts which the by-laws require the Selectmen to report upon.

Guide Boards.

The guide boards heretofore reported are still maintained, and in our opinion are sufficient for the present.

Contracts.

Contracts were awarded as follows:—

For Coal.—To H. G. Jordan & Co.

Hard coal at $4.88 per ton of 2000 pounds.
Bituminous coal at $3.57 per ton of 2000 pounds.

For Lighting.—To Brookline Gas Light Co. and the Welsbach Street Lighting Co. of America.

(For terms see report on Street Lighting.)

For Sidewalk.—To C. W. Lynam.

Concrete walks:

New (cold work), per square yard	$0.75
Skim coating (cold) per square yard	.40
Skim coating (hot) per square yard	.55
Sidewalk crossings, per square yard	.90
Street crossings, per square yard	1.50
Driveways, per square yard	1.00
Street gutters, per square yard	1.20

Plank walks:

Hard pine, planed, delivered, $21 per M.

Licenses.

Licenses were granted as follows:—

Victuallers.—M. Cavicchi, 115 Washington street; Harvey Blunt, 1352 Beacon street; A. L. Bridgman & Co., 8 Station street; Frank P. Baker, 196 Washington street; John R. Heard, Pond avenue.

Carriage.—Frank H. Flanders, Nos. 16, 17, 18, 19, 20, 21; James J. O'Day, No. 9; W. H. McManus, No. 23; D. F. McCarthy, No. 7; Robert Patterson, Nos. 13, 14, 15; Rowan McCarn, Nos. 24, 25.

Druggists.—Arthur W. Bowker, J. Everett Brown, Alfred J. Hayman, William H. Butler, David F. Baxter, J. P. Sweeney.

Employment.—Oliver Bennett, 231 Washington street; Mary A. Holmes, 77 Walnut street; Catherine Clough, 9 Harvard place; Annie Welch, 5A Harvard street; Julia Mosher, 23 School street.

Billiard and Pool.—Antonio Carreiro, 104 Washington street; John J. Murphy, 32 Washington street; Frank P. Freitas, 88 Boylston street; Thomas F. King, 6 Station street.

Junk.—Thomas J. McGarry, James Murneghan, William F. Carroll.

Grease and Bones.—Patrick McCarthy, John Lynch, Michael Hughes.

Auctioneers.—John J. McCormack, John J. Cantwell, William M. Snow, Frank Moseley, Henry W. Jackson, William Binder, John J. Henry, Harlow P. Rogers, Willard Y. Gross.

Drain Layers.— Horace James, Michael J. O'Hearn, Thomas J. Kelley, Bernard T. Malone, James Moloney, Michael Casey, Thomas B. Sheehan, Francis F. Morton, Philip S. Allen, James Driscoll, Dennis Driscoll, Timothy Driscoll, Johnson Brothers, Stephen D. Hodge, Peter Graffam, Alexander McMurtrey, B. F. Carroll.

LUTHER M. MERRILL,
JAMES M. CODMAN, JR.,
WM. F. HUMPHREY,
Selectmen of Brookline.

REPORT ON SUITS TO WHICH THE TOWN IS A PARTY.

February 11, 1898.

Horace James, Esq.,
Chairman Board of Selectmen: —

Dear Sir, — I report as follows concerning the suits I have had charge of for the town: —

First.

James McDonnell vs. *Brookline.*

This case, which has been pending a long time, was dismissed at the last call of the docket, for want of prosecution.

Second.

Henry P. Nawn vs. *Brookline.*

Action of contract brought to recover about $13,000 by the contractor for macadamizing the walks and drives of the Brookline part of the Muddy River Improvement.

This case was tried at great length before the late Hon. Edmund H. Bennett as auditor. The case had been fully presented and argued, but Judge Bennett died before any report was made. It is not yet determined what will be the best course to pursue with this case under the circumstances.

Third.

Mary W. Gardner vs. *Brookline.*

This was a petition for damages for the taking by the town of about eleven acres of land in West Roxbury for the water supply of the town. The case was tried before a commission appointed under the statute. The commissioners were Judge Harriman and Messrs. George W. Estabrook and Joseph B. Warner.

It was undisputed that there was a very large amount of good gravel upon the lot, and at the hearings the petitioner claimed about $23,000 damages.

The commissioners awarded $12,000, and the interest and costs brought the amount up to $15,563.23. This amount has been paid by the town, and the proper entries have been made on the docket of the court.

Fourth.

Town of Brookline vs. *Daniel A. Lynch.*

This is a bill in equity brought by the town to secure the removal from land in Dedham, formerly owned by the defendant and taken by the town for its water supply, of a windmill pump which the defendant continued to use to pump water for his own use from a well on the land taken, notwithstanding that the town had taken the land and paid for it.

There was a hearing on the bill before Mr. Justice Barker in the Supreme Judicial Court. The court made a decree in favor of the town, and the defendant appealed to the full court. The appeal has not yet been heard.

Fifth.

Stephen A. Ferrin vs. *Brookline.*

This is an action of tort for injuries alleged to have been received by plaintiff by being thrown from a carriage in which he was driving on Beacon street. This case has not yet been tried.

Sixth.

Eugene B. Stoddard vs. *Brookline.*

Willet M. Clark vs. *Brookline.*

These are two actions brought to recover for injuries alleged to have been received by the plaintiffs while driving on Boylston street in Brookline.

As stated in last year's report, these cases are being defended by the City of Boston, as the defect in the street, if there was any defect, was due to the action of the city in laying its water pipes through Boylston street. The cases have not yet been tried.

Seventh.

Peter Graffam vs. *Brookline.*

This was a petition brought to recover damages for land taken for the laying out and improvement of Smelt Brook.

The time allowed by law for the bringing of such cases had elapsed before the suit was begun, and upon this fact being brought to the attention of the plaintiff, he agreed to an entry of judgment for the defendant without costs, and this entry was made upon the docket, thus disposing of the case.

Eighth.

Mary F. Jenks vs. *Brookline.*
Lester F. Stevens vs. *Brookline.*
Peter Graffam vs. *Brookline.*
James H. Beals vs. *Brookline.*

These are petitions brought to secure a reduction of the betterment assessments levied by the Selectmen on the estates of the several petitioners for the Smelt Brook improvement. The cases will be likely to come up at the May sitting of the Superior Court.

Ninth.

Ætna Mills vs. *Brookline.*
Ætna Mills vs. *Brookline.*
Boston Manufacturing Co. vs. *Brookline.*
Boston Manufacturing Co. vs. *Brookline.*
Walker Pratt Manufacturing Co. vs. *Brookline.*
Walker Pratt Manufacturing Co. vs. *Brookline.*
William S. and Frank Cordingly vs. *Brookline.*
William S. and Frank Cordingly vs. *Brookline.*
Hollingsworth Whitney Co. vs. *Brookline.*
Hollingsworth Whitney Co. vs. *Brookline.*
Mary W. Crehore et al. vs. *Brookline.*
Mary W. Crehore et al. vs. *Brookline.*
Dudley Mills vs. *Brookline.*
Dudley Mills vs. *Brookline.*
William G. Ryle et al. vs. *Brookline.*
William G. Ryle et al. vs. *Brookline.*
Richard H. Paine et al. vs. *Brookline.*
Richard H. Paine et al. vs. *Brookline.*
Ellen E. Bishop vs. *Brookline.*
Ellen E. Bishop vs. *Brookline.*
John C. Sullivan vs. *Brookline.*
John C. Sullivan vs. *Brookline.*
Henry D. Pope Tr. vs. *Brookline.*
Henry D. Pope Tr. vs. *Brookline.*

These are petitions brought by the mill-owners on Charles River to recover damages for the taking of the waters of the river by the town. In each case two petitions have been filed, one in Suffolk and one in Norfolk County, the petitioners being in doubt as to the proper County to sue in. As these petitions were begun long after the time allowed by the statute for such cases, I am unable to see how they can be maintained.

Tenth.

Julia Daley vs. *Brookline.*

Action of tort to recover damages for an injury alleged to have been caused by a fall on an icy sidewalk. This action was returnable on the first Monday of February in the Superior Court at Dedham.

Eleventh.

James Quinn vs. *Brookline.*

This is a petition for revision of a betterment assessed by the Selectmen for the improvement of the Chestnut street brook. This action has just been begun, and was made returnable at the Superior Court in February.

Twelfth.

Henry G. Dorr vs. *Brookline.*

This is a petition for damages alleged to have been caused by the adoption of the building line on Beacon street. It is returnable to court in March next. The estate in question is situated at the corner of Beacon and St. Mary's streets.

Thirteenth.

Thomas J. Kelley et al. vs. *Brookline.*

Thomas J. Kelley vs. *Brookline.*

Walstein R. Chester vs. *Brookline.*

These are petitions for a revision of the betterments assessed on the petitioners' lands for the improvement of the Chestnut street brook. They are returnable to the Superior Court in March.

Yours very truly,

CHARLES A. WILLIAMS.

REPORT OF THE CHIEF OF POLICE.

Brookline, Jan. 31, 1898.

To the Honorable Board of Selectmen: —

Gentlemen,—I have the honor to submit my twenty-second annual report of the Police Department, for the year ending Jan. 31, 1898.

The Force.

Chief.— Alonzo Bowman, appointed patrolman April, 1871; promoted to Chief May, 1876.

First Lieutenant.— George F. Dearborn, appointed patrolman April, 1870; promoted to sergeant July, 1878; to lieutenant May, 1891.

Second Lieutenant.— Frank Bartlett, appointed patrolman April, 1882; promoted to sergeant May, 1891; to lieutenant December, 1895.

Inspector.— Albert S. Paige, appointed patrolman May, 1876; promoted to inspector with rank of lieutenant May, 1888.

First Sergeant.— Alonzo W. Corey, appointed patrolman October, 1879; promoted to sergeant November, 1891.

Second Sergeant.— Joseph J. O'Connell, appointed patrolman April, 1879; promoted to sergeant September, 1893.

Third Sergeant.— Edward J. Mealy, Jr., appointed patrolman January, 1883; promoted to sergeant January, 1895.

Patrolmen.	Appointed.	Patrolmen.	Appointed.
Alden A. Manley	Nov., 1880	James J. Powers	May, 1893
James Gleason	April, 1882	John Johnson	May, 1893
Henry J. Graham	April, 1882	John Carmody	May, 1893
Peter Curry	Sept., 1885	Charles G. Donohoe	May, 1893
Andrew Creelman	Dec., 1886	Henry A. Rutherford	Sept., 1893
George W. Piper	May, 1887	Michael C. Lynch	May, 1895
George E. Stitt	May, 1887	Hervey E. Cook	May, 1895
Michael O'Day	May, 1887	William Dugan	June, 1895
Emery E. Allen	Jan., 1888	John T. Connor	Dec., 1895
Fred. C. Gordon	June, 1888	James McDonald	June, 1896
John J. Sullivan	Sept., 1890	Thomas J. Craig	June, 1896
John Crory	May, 1891	Joseph J. Carroll	June, 1896
Patrick A. Kelleher	May, 1891	Michael F. Manly	June, 1896
Charles C. Watterson	May, 1891	James Comerford	Mar., 1897
James J. Phillips	May, 1892	Joseph F. Harvey	May, 1897
Stephen D. Halloran	May, 1892	Frank A. Johnson	May, 1897
Wilbur F. Merritt	Feb., 1893	James P. Meade	May, 1897
Joseph McMurray	May, 1893	Michael F. Fleming	May, 1897

The organization of the force remains the same as last year. The first division goes on duty at 12.45 A. M., the second division at 7.45 A. M., and the third division at 5.45 P. M. Each division is in charge of a sergeant on street duty. The first and third divisions are in charge of Sergeants O'Connell and Mealy, the second is in charge of Sergeant Corey.

Having a sergeant on active duty on the streets, in charge of each division, has very much increased the efficiency of the service. Lieutenants Dearborn and Bartlett are in charge of the station on the first and third divisions alternately, at night.

Arrests for the Year 1897–8.

Number of arrests for the year			512
Males	495	Single	364
Females	17	Residents	351
Married	148	Non-residents	161
Residents arrested for drunkenness			106
Non-residents arrested for drunkenness			75
Wagon calls			268

Nationality of persons arrested: —

United States	290	Sweden	3
Ireland	140	Germany	2
Canada and English Provinces	36	Greece	2
England	18	Austria	1
Italy	7	Syria	1
Russia	7	Switzerland	1
Scotland	4		

Causes for Arrest.

Offenses against the person: —		
Assault and battery	39	
Assault, felonious	3	
Assault, felonious attempt	1	
Assault on a police officer	1	
		44
Offenses against property: —		
Breaking, entering and larceny	14	
Breaking, entering and attempted larceny	1	
Embezzlement	3	
False pretences, obtaining property by	3	
Larceny (simple)	47	
Larceny in a building	4	
Larceny from the person	1	
Malicious mischief	13	
Receiving stolen property	2	
Trespass (willful)	24	
		112
Offenses against public order, etc.: —		
Bastardy	2	
Bicycle law, violation of	5	
Board of Health violation, order of	2	
Cruelty to animals	6	
Dipsomania	1	
Disturbance of the peace	19	
Drunkenness, 1st arrest for	164	
Drunkenness, 2d arrest for	5	
Drunkenness, 3d arrest for	3	
Drunkenness, common	9

Vagrancy	19	
		356
Total arrests		512

Persons Applying for Lodgings.

Number of persons applying for lodgings	2,918
(Six hundred and four less than last year.)	
Number of males	2,906
" of females	12
" under the age of 20 years	21
" between ages of 20 and 30 years	791
" " " 30 and 40 "	1,615
" " " 40 and 50 "	728
" " " 50 and 60 "	296
" " " 60 and 70 "	64
" " " 70 and 80 "	3

Nationality of persons lodged: —

United States	1,422	Finland	3
Ireland	1,013	Belgium	2
England	253	France	2
Scotland	75	Cuba	1
Germany	26	Russia	1
Sweden	10	Switzerland	1
Denmark	3		

Occupation of persons applying for lodgings: —

Laborers	1,817	Machinists	79
Building trades	278	Printers	31
Mill operatives	184	Domestic servants	12
Shoemakers	159	Various other employments	222
Iron-workers	136		

The number of persons lodged the past year is 604 less than the previous year, and 997 less than in 1895–6. We estimate that about 20 per cent of persons applying for lodgings the past year were willing tramps — that is, they had rather tramp the country over than to work.

The statistics of criminals and lodgers is made up and classified by Sergeant Corey. There is quite a demand for these statements from statisticians.

A lot of miscellaneous work has been recorded the past year. The more important work is as follows: —

Ambulance calls — injured or sick persons taken to hospitals or homes	93
Accidents reported and assistance rendered	56
Stores and shops found open and owners or occupants notified	140
Complaints investigated	491
Disturbances suppressed without arrest	110
Defects in streets and sidewalks reported	149
Gas leaks in street pipes and connections	11
Water running to waste and leaks in street pipes	15
Fires extinguished without alarm	12
Stray animals running at large cared for	62
Runaway horses and teams caught by mounted officers	27
Sick and disabled persons assisted	41
Lost children found and cared for	20
Nuisances reported	31
Dead animals reported to Supt. of Streets and buried (mostly dogs)	127
Dangerous places on streets and sidewalks reported, and lanterns furnished at night	297
Residences temporarily vacant and special police protection asked for	367
Officers off duty reporting on fire alarms	259
Officers detailed by request of citizens	82
Officers detailed on public occasions	98
Telegraph and telephone wires reported down	22
Dogs killed	75
Amount of property taken from persons arrested, and returned to them and receipted for	$4,095
Amount of property reported stolen	5,827
Amount of stolen property recovered	4,952
Value of property stolen out of town and recovered in Brookline	1,625
Amount of fines imposed in Police Court	1,055
Total amount of imprisonment by sentence and in default of fines, ninety-one years and four months.	

The Liquor Laws and Enforcement.

Action taken by the last session of the Legislature—it being Chapter 271—has rendered the enforcement of the liquor laws in no-license towns much easier. The law has worked well in this town, and we have secured convictions of violators of this law where before convictions were very uncertain. Several seizures have been made from so-called kitchen barrooms. The great difficulty in proving sales of liquor, or its being kept for sale, has prevented convictions, as in former years.

The licensed druggists, so far as I have been able to ascertain, have (with one exception) done their liquor business in a legal manner.

Arrests for the offense of drunkenness in the last five years have been as follows: —

1893–4 . . . 357.	1895–6 . . . 197.	1897–8 . . . 181.
1894–5 . . . 221.	1896–7 . . . 156.	

The Police Signal System.

Our police signal system (the Gamewell) has as in former years proved a very important part of our police system. The very severe test to which the system was subjected by the recent blizzard, when not a signal box failed to work satisfactorily, and not a single wire failed to do prompt service, is a strong endorsement of the excellence and permanency of the work of Superintendent Davis. Every other police signal system in this vicinity was seriously upset, and rendered useless for many hours from the effects of the storm.

Juvenile Offenders.

It is a matter for sincere regret that the list of juvenile offenders is rapidly increasing. One of the most serious problems that confronts this department, as well as all law-abiding people, is what are we going to do with the children on our streets — the young boys, yes, and girls, who are fast learning their first lessons in crime.

As I expressed in a former report, the parents of these children are largely to blame. I would that a law could be made that would hold parents responsible for misdemeanors of their minor children in certain cases and to a certain extent.

The number of juvenile offenders — mostly boys — arrested in the last five years under 17 years of age: —

In 1893 there were 95 arrests, 63 of whom were before the court, 32 were reprimanded and released.
In 1894 there were 80 arrests, 53 of whom were before the court, 17 were reprimanded and released.
In 1895 there were 104 arrests, 69 of whom were before the court, 36 were reprimanded and released.
In 1896 there were 140 arrests, 115 of whom were before the court, 25 were reprimanded and released.
In 1897 there were 144 arrests, 115 of whom were before the court, 26 were reprimanded and released.

In the last year, 1897, $85.00 in fines has been paid by juvenile offenders, and imprisonment of twenty-one months has been imposed by the Police Court in various institutions provided for the purpose. Eleven juveniles have been turned over to officers of the State Board and placed in correctional institutions or in homes the past year.

Total number of juvenile offenders arrested in the last five years, 563; number in court, 415.

A large proportion of boys under 17 years of age are placed on probation by the court.

The services of an active probation officer have been notably valuable the past year.

Mounted Service.

The mounted police service has been well maintained the past year. This service has been notably valuable on the Riverdale Parkway in the driving season, as well as on the Beacon Boulevard. The streets in the south part of the town—the outlying districts—are patrolled by mounted officers.

The absence from duty of officers by reason of illness has been notably less than last year.

The Inspector of Police has, as in former years, done good work in many directions. In the recovery of stolen property and conviction of thieves his work has been especially valuable.

Special Mention.

The good work done by mounted officers Lieutenant Bartlett and Patrolman Crory, on the Beacon Boulevard during the recent sleighing carnival, is worthy of mention, especially the prompt, fearless and intelligent action by mounted officer Crory in stopping several runaway horses in one afternoon, thereby preventing serious if not fatal accidents.

Equipment, Etc.

We have a well-equipped police department, with four good horses, a good patrol wagon, and a first-class ambulance furnished with rubber tires, which make it a superior conveyance for sick or injured persons.

The discipline of this department, with few exceptions, has been very good. One of the cardinal points in a good police officer is sobriety on all occasions, both on and off duty. He should also observe unquestioned obedience of orders, be neat in appearance both on and off duty, polite to every one, and firm in the discharge of every duty.

I wish to acknowledge kind courtesies received from the Engineers of the Fire Department, also valuable assistance from many good citizens. In conclusion I desire to thank the entire force for their coöperation and loyal service, and you, gentlemen of the board, for the uniform courtesy and support you have given me.

Yours respectfully,

ALONZO BOWMAN,
Chief of Police.

REPORT OF THE FIRE ENGINEERS.

Brookline, Feb. 1, 1898.

To the Board of Selectmen:—

Gentlemen,—In compliance with the town by-laws, the Board of Engineers herewith respectfully submit their annual report of the condition and operation of the department during the year ending Jan. 31, 1898. You will find annexed a statement of fires and alarms which have occurred the past year, with the amount of loss and insurance as nearly as could be ascertained.

Fire Record.

During the past year the department has answered seventy-one alarms; thirty-seven were bell alarms, and thirty-four were still and telephone alarms. The causes of these alarms were as follows:—

Lighted matches igniting drapery	2	False alarm	4
Burning fuse in electric car	3	Unnecessary alarm	2
Alcohol lamp	2	Fire-crackers	2
Overheated stoves and furnace	4	Incendiary	2
Chimney fires	5	Smoky stove	1
Bon-fires	3	Kettle of tar on roof	1
Sparks from bon-fire	1	Spontaneous combustion	3
Sparks from locomotive	2	Kettle of fat boiling over	1
Fire in woods	3	Sun's rays focused on curtain	1
Sparks from pipe	2	Smoke escaping from church tower	2
Grass fires	5	Drying plastering	2
Careless use of matches	3	Defective hearth under fire-place	1
Dump fires	8	No-school signal	2
Explosion of kerosene lamp	4		

The loss, and insurance paid, as nearly as could be ascertained, were:—

Value of buildings and contents	$165,700.00
Loss on buildings and contents	31,831.00
Insurance on buildings and contents	174,610.00
Insurance paid	24,743.00

Organization.

The force of this department, consisting of seventy-two men, is divided as follows: One chief engineer, two district chiefs, forty-two hosemen, thirteen hook and ladder men, two enginemen, two assistant enginemen, and ten drivers of apparatus.

Of this number, sixteen are permanently employed, and devote their whole time to the interests of the department. The balance, fifty-six men, are only required to perform fire duty when called by the alarm bells.

The permanent force consists of two enginemen, ten drivers of apparatus, three hosemen and one tiller man. The call force consists of one chief, two district chiefs, two assistant enginemen and fifty-one hosemen and laddermen.

There will have to be formed, the coming year, another ladder company to man the second ladder truck now being operated by a detail from the several call companies, and two substitutes.

Apparatus.

During the past year a new aerial, turn-table ladder of modern style was purchased and put in service, and has given good satisfaction. With this addition we now have in service the following apparatus: One hook and ladder truck, one aerial ladder, two two-horse hose wagons, two one-horse hose wagons, one combination chemical and hose wagon, one chemical engine, two steam fire engines, four hose pungs and one four-wheel reel in reserve, all in good condition, with the exception of the old ladder truck, which has been in service about twenty-two years, and to repair which it would be necessary to put on new ladders and repaint the carriage. The wagon used by Hose 1, which has been in service a number of years, should be painted.

Hose.

This branch of the service requires constant care and attention. There is on hand at the present time 9100 feet of fire hose in good condition and 300 feet in poor condition; 1750 feet of new hose having been added the past year.

Horses.

We have in service in this department at the present time twenty-three horses, twenty-one belonging to the town, and two which we have for the winter for their keeping.

During the year three new horses have been purchased, two for Ladder 2 and one for Hose 2.

The horses have received the same good care and attention as in years past. As some of the horses are old and liable to give out at any time, it may be necessary next year to purchase one or two more.

Harnesses.

There are in service eight sets double harnesses, six single harnesses, one single lead harness, and two old sets of double harnesses which are used on the horses when watering streets.

Hydrant Service.

By the report of the Superintendent of Water Works for the year ending Jan. 31, 1898, we find that 15 new hydrants have been added the past year to the high and low service, making a total of 452 hydrants which can be used for fire service, which under the care of Supt. F. F. Forbes have always given good satisfaction.

Houses.

We have to report that the houses in this department are in fair condition. By order of the board of Selectmen new floors have been laid in the main rooms of houses occupied by Hose 1 and Hose 3, to replace the old and worn out ones. A contract has been made with Kenrick Bros. to put steam heat into house occupied by Ladder 1 and Hose 2, which will replace the old method of heating by stoves. This leaves the Chemical house in Longwood the only one to be heated by stoves, and we would recommend that steam heat be put into this house the coming season.

Fire Alarm Service.

During the past year four new boxes have been added to the service, one on Corey Hill, one on Beacon street opposite Kent street, and a special box in each of the car stables, making a total of forty-five boxes, which, under the care of Supt. E. N. Davis, have given good satisfaction. A new box should be added the coming year, to be located somewhere in Linden place, as a large number of new buildings have been erected in that neighborhood in the last year or two, also one on Flora street, opposite Walter avenue. For other particulars in regard to the fire alarm service we would respectfully refer you to the report of the Superintendent of Fire Alarm.

Recommendations.

The advantage derived from the present small permanent force in a measure illustrates the quickness with which fires can be reached and handled. The very general use of telephones, both in business and manufacturing establishments,

but more especially in private dwellings, some of which are some distance from the street signal boxes, and the frequent calls for the department through this medium requires that a working force shall at all times be in readiness to answer, and we would recommend that the permanent force be increased yearly until the department shall become permanent. Also, as there is considerable valuable property in the vicinity of Holyhood district, we would recommend that steps be taken to erect a building, and that a combination wagon be located there, so as to be able to hold a fire in check until the arrival of other apparatus.

Appropriations.

The Engineers would recommend the following amounts for the coming year : —

Current expenses of fire department	$31,500.00
For additional permanent men for the several companies . .	16,000.00

Acknowledgments.

In closing this report we would respectfully thank the chairman and members of the board of Selectmen for their support and interest taken in the department at all times, and also to the Police Department for services rendered at fires, and to the officers and members of this department for the interest they have taken under all circumstances.

George H. Johnson,
F. F. Muldowney,
E. Frank Proctor,
Board of Engineers.

Record of Fires and Alarms for the Year Ending Jan. 31, 1898.

1897.

Feb. 8. Still, 6.40 a. m. Frame dwelling, Prospect street, owned by Mrs. Wason, occupied by E. F. Proctor. Caused by lighted match coming in contact with drapery. Value of contents, $2,000; insurance on contents, $1,000; loss and insurance paid on contents, $30.

Feb. 10. Still, 12.08 a. m. Electric car on Washington street near Pond. Caused by fuse burning out and setting fire to floor. Extinguished by Hose 1. Damage slight.

Feb. 15. Box 46, 2.14 p. m. Frame dwelling, Sewall avenue, owned and occupied by Mrs. Gordon Plummer. Caused by explosion of alcohol lamp. Value of building, $3,000; insurance, $3,000; loss on building, $6.00.

March 14. Still, 1.20 P. M. Frame dwelling, owned by C. Connors. Caused by burning soot in chimney. No damage.

March 24. Still, 1.45 P. M. Frame dwelling, Houlihan avenue, owned and occupied by Michael McGrail. Value of building, $4,000; insurance, $3,000; loss and insurance paid, $38.00. Caused by overheated stove.

March 31. Box 25. Wooden shed, in rear of house owned and occupied by Dana Estes. Value, $500; loss, $300; partly insured; insurance paid, $100. Caused by sparks from bonfire.

April 2. Box 25, 5.34 P. M. Grass fire, Dean road near railroad. Cause, sparks from locomotive. No damage.

April 6. Box 313, 8 47 P. M. False alarm, by some unknown person.

April 18. Still, 10.15 P. M. Whyte's Block, Washington street. Caused by hot pipe in pocket of coat. Damage, $5.00.

April 23. Still, 6 P. M. Dump fire on Toxteth street. Extinguished by Hose 2.

April 23. Still, 7.30 P. M. Grass fire, Lancaster road. Extinguished by Combination 1.

April 29. Still, 6.30 P. M. Dump fire, Francis street. Extinguished by Chemical 1.

May 14. Box 33, 6.36 P. M. Frame dwelling, owned by John McNamara & Son, unoccupied, Mason terrace. Value of building, $8,000; insurance on building, $5,000; damage and insurance paid, $1,500.

May 14. Box 27, 6.50 P. M. Alarm for same fire, Mason terrace, not knowing Box 33 had been pulled.

May 15. Still, 9.40 P. M. Bonfire on Fairbanks street. No damage. Extinguished by Hose 2.

May 20. Still, 9 40 A. M. Burning sleepers, Dean road. Cause, sparks from locomotive. Extinguished by Hose 3.

May 23. Still, 2.45 P. M. Dump fire, Pleasant street. Extinguished by Combination 1.

May 27. Still, 9.45 P. M. Rubbish pile, Mrs. Hallett's, 310 Harvard street. Cause, careless use of matches. Extinguished by Combination 1.

June 3. Box 14, 10.27 P. M. Frame dwelling, corner of Sewall and Roberts streets, owned by James Donahue, occupied by Miss Maria Ward. Value of building, $5,000; insurance, $5,000; damage slight. Cause, explosion of kerosene lamp.

June 22. Box 9, 1.42 P. M. One-story frame shop, owned by T. J. O'Brien, rear of 273 Boylston street. Value of building, $200; damage, $100; value of contents, $500; damage to contents, $200. No insurance.

June 30. Box 9, 1 P. M. Four-story brick dwelling, owned by Richard Grogan, occupied by T. J. O'Brien and others. Value of building, $10,000; insurance $10,000; damage and insurance paid, $150. Value of contents, $1,000; damage, $10; no insurance. Cause, upsetting kerosene stove.

July 4. Box 5, 1.04 P. M. Frame dwelling, owned and occupied by A. J. Cusick. Fire on roof. Value of building, $1,800; damage, $30. Cause, sparks from locomotive.

July 4. Still, 9.20 P. M. Bonfire on Brookline-avenue playground. Extinguished by Hose 4.

July 4. Still, 10 P. M. Bonfire, Linden place. Extinguished by Hose 4.

July 4. Box 14, 4.02 P. M. Three-story frame dwelling, 4 Sewall street, occupied by several families. Value, $4,000; damage slight. Fire originated on roof. Cause, firecrackers.

July 5. Box 42, 10.47 A. M. Two and one-half story frame dwelling, 86 Ivy street, owned by S. A. Woods. Fire originated in dog house in rear. Damage slight. Cause, firecrackers.

July 6. Still, 1.40 P. M. Dump fire, Harrison street. Extinguished by Hose 1.

July 13. Box 18, 5.45 P. M. Two and one-half story frame dwelling, owned and occupied by Charles P. Gardiner, Clyde street. Value, $15,000; insurance, $20,500; damage, $25. Fire originated on first floor. Cause, overheated furnace, drying cellar.

July 16. Box 33, 8.50 P. M. Three-story frame dwelling, 28 Mason terrace, owned by John McNamara & Sons, unoccupied. Value, $8,000; insurance, $5,000. Damage $1,000. Fire originated in cellar. Cause, incendiary.

July 17. Box 33, 5.17 P. M. Three-story frame dwelling, 28 Mason terrace. Value, $8,000; insurance, $5,000; damage, $1,072. Fire originated on second floor. Cause, incendiary.

July 17. Still, 9.15 A. M. Two and one-half story frame dwelling, No. 30 Center street, owned and occupied by W. F. Woodman. Answered by Combination 1. Cause, smoky stove. No damage.

July 19. Still, 11.25 P. M. Dump fire, rear of Babcock street. Extinguished by Combination 1.

July 22. Still, 10.45 A. M. Electric wire setting fire to trees, Chestnut Hill avenue, near house of M. O'Hare. Extinguished by Hose 3.

July 23. Box 17, 4.58 P. M. False alarm. Caused by some unknown person breaking box.

Aug. 16. Box 4, 8.16 A. M. False alarm. Caused by some unknown person breaking box.

Aug. 23. Still, 2 P. M. Chimney fire in Mrs. Moses Dow's house, corner Harvard and Harris streets. Answered by Hose 1. No damage,

Aug. 30. Box 5, 4.33 P. M. Fire on roof of house owned and occupied by Patrick Murphy, Walter avenue. Caused by roofers upsetting kettle of tar. Damage slight.

Sept. 1. Box 6, 12.58 A. M. Fire in rear of house, owned by T. B. Griggs, Linden street. Cause, spontaneous combustion. Damage slight.

Sept. 20. Box 6, 5.53 P. M. Frame dwelling, 260 Washington street, owned by J. M. Seamans, occupied by E. T. Downs. Value of building, $5,000; insurance, $5,000; damage $32. Cause, kettle of fat boiling over.

Sept. 23. Box 5, 1.30 A. M. Brick building, owned by George N. Talbot, 6 Station street. Value of building, $21,000; insurance, $21,000; damage and insurance paid, $1,800; damage to contents, $175. Cause, unknown.

Oct. 5. Still, 7 P. M. Frame dwelling, 198 Babcock street, owned and occupied by Hattie L. Tucker. Value of building, $14,000; insurance on building, $10,000; damage, $50. Damage to contents, $25; no insurance.

Oct. 7. Still, 9 A. M. Frame dwelling, Rawson road, owned by Rev. Reuen Thomas. Value of building, $10,000; insurance on building, $10,000; damage to and insurance paid on building, $100. Value of contents, $20,000; insurance on contents, $10,000; damage and insurance paid on contents, $58. Cause, lighted match igniting drapery.

Oct. 9. Still, 10.30 P. M. Fire in woods, Abbottsford road. Extinguished by Combination 1.

Oct. 15. Still. Stone dwelling, 205 Davis avenue, owned and occupied by Patrick Johnson. Insurance on contents, $4,000; damage and insurance paid on contents, $50. Cause, lighted match in waste paper.

Oct. 19. Still. Frame dwelling, 106 Sewall avenue, owned and occupied by William Stearns. Value of building, $8,000; insurance, $6,000; damage to and insurance paid on building, $15. Value of contents, $2,000; insurance, $1,000; damage and insurance paid on contents, $5. Cause, overturned lamp.

Oct. 19. Still, 9 A. M. Dump fire, Harvard street, near Devotion street. Extinguished by Combination 1.

Oct. 30. Box 36, 3.28 P. M. False alarm.

Oct. 31. Still, 2 P. M. Grass fire. Extinguished by Combination 1.

Nov. 3. Box 35, 7.25 A. M. Frame dwelling, unoccupied, owned by D. H. McKay, Naples road. Value of building, $10,000; insurance, $8,000; damage and insurance paid, $642. Cause, spontaneous combustion.

Nov. 11. Still, 8.40 P. M. Dump fire on Harrison street. Extinguished by Hose 1.

Nov. 13. Box 32, 11.40 A. M. Alarm pulled for smoking chimney on Harvard Church, services of department not needed.

Nov. 16. Still. Two and one-half story stone dwelling, Washington street, owned and occupied by Thomas J. Galvin. Value of contents, $10,000; insurance on contents, $9,000; damage and insurance paid on contents, $35. Cause, lighted lamp igniting shade.

Nov. 24. Box 33, 5.44 P. M. Alarm pulled for lights seen in unoccupied house. Alarm needless.

Nov. 25. Box 5, 4 P. M. Shed in rear of Morlock's Hotel. Burnt by careless boys and lighted candle. Damage $5; no insurance.

Nov. 26. Box 212, 6.15 P. M. Frame dwelling, Chestnut Hill road, owned and occupied by Nettie E. Somers. Value of building, $6,000; damage to and insurance paid on building, $3,992. Value of contents, $4,000; insurance on contents, $1,000; insurance paid on contents, $400.

Dec. 1. Box 5, 5.05 P. M. Alarm needless. Cause, smoking lamp.

Dec. 8. Box 34, 10.01 P. M. Electric coal car belonging to the West End Railroad. Damage slight.

Dec. 10. Box 24, 1.36 P. M. One-story frame building, corner of Beacon street and Chestnut Hill avenue. The building was situated just over the Boston line. After the arrival of the Boston department the Brookline department returned home.

Dec. 15. Box 9, 10.40 P. M. New three-story frame building, Boylston street, owned by Michael O'Hearn. Cause, overheated stove drying plastering. No damage.

Dec. 19. Box 45, 4.19 P. M. Grass fire on Ivy street. No damage.

Dec. 19. Still, 5.10 P. M. Chimney fire, house of Mr. Briggs, Allerton street. Extinguished by Hose 1. No damage.

Dec. 20. Still, 4.05 P. M. Fire in woods, Rawson road. Extinguished by Hose 2.

Dec. 24. Box 312, 2.49 A. M. Frame dwelling, 140 Naples road, owned and occupied by Rachel R. Newman. Value of building, $15,000; insurance $15,000; damage to building, $10.290. Value of contents, $12,000; insurance, $8,000; damage to contents, $10,000.

Dec. 24, Still, 10 A. M. Three-story brick and frame dwelling, owned by estate of Edward S. Philbrick, occupied by Mrs. C. C. Palmer. Value of building, $6,000; insurance on building, $6,000; damage to building, $6. Damage to contents, $250; no insurance.

Dec. 28. Box 14, 7.19 A. M. Three-story frame building, owned by Michael Walsh, occupied by William Anderson. Value of building, $3,000; insurance, $4,000; damage to building, $20. Cause, child 3 years old playing with matches.

1898.

Jan. 5, 1898. Still, 3. P. M. Two-story brick dwelling, owned by Howard Stockton, trustee, occupied by R. S. Demmon. Value of building, $6,000; insurance, $8,000; damage to building, $200. Cause, defective hearth under fireplace.

Jan. 5. Box 46, 7.31 P. M. New building, corner of St. Paul and Beacon streets. No fire. Cause of alarm, steam from drying plastering.

Jan. 6. Still, 2.10 P. M. Chimney fire, Mrs. Sprague's, Columbia street. Extinguished by Combination 1. No damage.

Jan. 12. Still, 4 P. M. Dump fire in rear of Combination house. No damage.

Jan. 22. Box 36, 6.42 A. M. Smoke escaping from tower of St. Paul's Episcopal Church, cause of the alarm. No damage.

Jan. 27. Box 22, 7.55 A. M. No-school signal.

REPORT OF THE SUPERINTENDENT OF WIRES AND LIGHTS.

To the Honorable Board of Selectmen:—

GENTLEMEN,—I have the honor to submit the ninth annual report of lights and wires, fire-alarm and police telegraph.

Street Lighting.

Arc Lights.

The lighting system has been somewhat changed since last year. A new contract was made with the Brookline Gas Light Company, in which the price of arc lights was to be reduced five cents per night for street lights, and four cents per night for lights on the Parkway; the number to be not less than two hundred and twenty-five. A contract was also made with the Welsbach Street Lighting Company of America for one hundred or more lights, the company to furnish posts and lanterns, make all connections, furnish the gas, all mantles, and a man to light and extinguish, clean and repair all lanterns; the price to be $32.00 per light per year for a five-year contract, or $35.50 for a one-year contract.

This has made some change in the number of arc lights. Feb. 1st, 1897, there were 241; fifteen have been discontinued and six added during the year, making the total number of lights 232 on Jan. 31st, 1898.

Number of hours to be lighted	3,828
Number of hours reported out, arc lights	2,384
" " " " " gas "	2,371
" " " " " naphtha lights	829

The five 20 c. p. incandescent lights which were in use Feb. 1st, 1897, have been discontinued during the year. One was replaced by the arc light on Beacon street opposite Tappan street, and two on Gardner path, and two in the alley-way between Carlton and Hawes streets were replaced by Welsbach lights.

Gas Lights.

This system of lighting has not been improved very much during the year. It was recommended last year that the half-inch pipes be removed and one-inch pipe used from the main to the lantern. A list of the desired changes was sent to the Brookline Gas Light Co., which informed the department that the expense must be borne by the town. As no provision for this change was made in the appropriation, the work has not been done.

As the installation of the Welsbach lights reduced the number of gas lights per lighter, the routes were changed so that three men could do the work of four. The gas lights being very much scattered, there is a large territory to be covered, and the lighters are occupied from fifteen to twenty minutes longer than the time allowed, which is one hour each for lighting and extinguishing. In July a petition was sent to the Selectmen, signed by the lighters, asking that the amount received for their work (which was $480.00 per year) be increased. It was finally decided to pay 2½ cents per lamp, and since September 25th the men have been paid in this way.

Nineteen new gas lights were added during the year, the cost of which was $74.61. Seven lights were changed so that the streets and walks could be lighted to better advantage, the cost being $17.73. The number of lights in use Feb. 1st, 1897, was 225. Fifty-seven were discontinued during the year, and as nineteen were added, the total number, Jan. 31st, 1898, is 187.

Number of lights blown out, and out from other causes . .	68
Number of lights blown out by pipes freezing	174
Number of lights of glass broken	137

Naphtha Lights.

Very little change has been made in the naphtha lights during the year. Nine have been added, eight of which were placed on Woodland road and one on South street. One light was discontinued on Cameron street.

The Globe Gas Light Company repaired one hundred and forty-six lanterns, painted, straightened and leaded one hundred and twenty-one posts, repairing and fitting frames. The cost of this work was $154.00.

Welsbach Lights.

This method of lighting seems to meet the approval of the public in general, and is being adopted by many surrounding cities and towns. There seems to be less trouble from these lights than any in use at present. Since they were connected in July not one has been reported out through any defect in the light. Several have been shut off entirely, probably by boys. Patrolmen report defective mantles, which are replaced as soon as notice is received. Frequently a mantle becomes split, but so long as there is enough left to receive gas it gives a good light,— much better than ordinary gas or naphtha.

A letter received from a gentleman in the Chestnut Hill district says: "The new form of gas light is the best light for street purposes that I have ever seen." If the cost of setting posts and connecting are included in the cost of ordinary gas, it will be nearly as cheap to use all Welsbach lights.

Fire Alarm System.

The number of boxes connected and working in the fire alarm circuits is forty-three. Forty-two of these are placed in the various highways of the town, and one in the Town Hall. Three iron posts and shells for underground connections were purchased, and placed as follows: One on Beacon street opposite Kent street, one on Francis street near the Lawrence School, one on Cypress street opposite Gorham avenue. These are arranged so that they can be piped for gas at any time, and a red lantern placed on top, showing the location day or night.

It was voted to purchase a large bell and striking machine to be placed on the roof of the Town Hall. This was connected and in working order June 1st. It has been suggested that a light roof be placed over the bell. This perhaps would have a tendency to throw the sound down into the streets below. I would suggest that the weights be carried nearer the rear of the Hall, where there will be more drop, as two alarms coming in succession would lower the weights to the floor and stop the machine. This could be done for about $100.

Two new boxes were connected during the year. No. 47 was placed on Beacon street opposite Kent street, and No. 315 on Lancaster terrace opposite Mason terrace.

The Boston Elevated Railway Company petitioned the Selectmen for permission to connect two boxes on the circuit. This being granted, one box was placed on the car shed on Franklin street, and one on the car shed at Reservoir Station, the company furnishing the boxes and running the line.

The Chief of the Fire Department, in his report, asks that two new boxes be added this year, one to be located on Linden place near Perry street, and the other somewhere in the vicinity of the Parsons School.

I would respectfully suggest that before any new boxes are added, or lines extended, a new six-circuit repeater be purchased, and the circuits divided. At present we have only two circuits, and these are carrying more than is safe to insure good service. Our No. 1 circuit includes that part of the town south of Kent street and Washington street and west of Fairbanks street. The No. 2 circuit includes the section north and east of the above streets.

A repeater of this description can be bought at a cost of $1,000, including setting up, ready to work, the Gamewell Company allowing us $200 for the one now in use.

I would divide these circuits into five, so as to include the following boxes: —

Circuit No. 1.

Box No.	
4.	Brookline avenue, corner Washington street.
5.	Hose House No. 1.
6.	Harvard square.
7.	Hose House No. 2.
12.	Walnut street, corner Walnut path.
13.	High street, corner Cumberland avenue.
8.	Cypress street, opposite Gorham avenue.
9.	Boylston street, opposite Cameron street.
14.	Cor. Cypress and Kendall streets.
15.	Cor. Walnut and Cypress streets.
512.	Boston Elevated Railway Co. car-shed, Franklin street. (This would also include Hose No. 1, Hose No. 2, Chief's residence, Town Hall, and Police Station.)

Circuit No. 2.

Box No.	
16.	Cor. Walnut and Boylston streets.
17.	Cor. Cottage and Warren streets.
18.	Cor. Warren and Clyde streets.
19.	Clyde street, near Newton High-Service Pumping Station.
21.	Boylston street, corner Chestnut Hill avenue.
23.	Cor. Boylston and Hammond streets.
28.	Cor. Buckminster and Holland roads.
29.	Cor. Tappan street and Gardner road.
212.	Norfolk road, near Circuit road, Hose House No. 3.

Circuit No. 3.

Box No.	
24.	Fisher avenue, corner Chestnut Hill road.
25.	Beacon street, near Dean road.
26.	Winthrop road, near Addington road.
27.	Cor. Beacon and Washington streets.
39.	Cor. Washington street and Gardner road.
315.	Cor. Lancaster and Mason terraces.
712.	Car-shed, Reservoir station.

Circuit No. 4.

Box No.	
31.	Cor. Aspinwall avenue and Harvard street.
32.	Cor. Park and Marion streets.
33.	Cor. Summit avenue and Mason terrace.
34.	Cor. Beacon and Harvard streets.
35.	Harvard street, near Thorndike street.
314.	Combination Engine House.
312.	Cor. Naples and Abbottsford roads, Combination House.

Circuit No. 5.

Box No.	
36.	Cor. Alton place and St. Paul street.
37.	Cor. Toxteth street and Aspinwall avenue.
38.	Cor. Freeman and St. Paul streets.
41.	Cor. Carlton and Colchester streets.
42.	Chemical Engine House.
43.	Cor. Kent street and Longwood avenue.
45.	Cor. Essex and Mountfort streets.
46.	Cor. St. Paul street and Sewall avenue.
47.	Beacon street, opposite Kent street.
313.	Francis street, off Harrison street.

The Superintendent of Water Works has asked to have the line extended to the high-service pumping station, and that a gong be placed there, to notify the engineer in order that he may be prepared to start his pumps should occasion require.

A storage battery was purchased of the Holtzer-Cabot Electric Co., the cost of which was $462. The switch-board is arranged for six circuits, but at present we are using only two. So far, this has given perfect satisfaction. It occupies less room, and is by far clearer than the old gravity batteries.

Police Telegraph.

This system is in good condition, and is working very satisfactorily. A few changes have been made during the year in the location of boxes, as recommended by the Chief of Police in the last annual report. A new creeping device was added to the register, which will enable us to dispense with one wire, thereby reducing the number of aerial lines. The underground wires will be used for fire-alarm purposes, should the changes mentioned in the report on Fire Alarm be made as recommended.

As the Chief of Police has not recommended any additional boxes this year, it may be well to call the attention of the committee to the desired change of the old "Chicago" box for the improved "Gardner" pattern. In the former, when the door is opened by the patrolman the mechanism is exposed to the storm, which either rusts or corrodes the parts and interferes with the working. This is noticed after a heavy rain or snow storm, particularly such as that of January 31st last. There are thirty-three boxes in use, located in the various highways; nineteen of these are of the "Gardner" pattern, and fourteen are of the "Chicago." As it would incur an expense of fourteen hundred dollars to change all the boxes, I would recommend that one or more be changed each year.

Underground Wires.

The work of placing wires under ground was extended as far as this system will allow, and includes Davis avenue, Sumner road and Blake road, Washington street, Fairbanks street, Lancaster terrace, Beacon street to Tappan, Winthrop path to Winthrop road. After the appropriation for this work was made, the conduits were extended on Boylston street from Sumner road to Heath street, and an extra appropriation of $500 was made in January. The wire has been ordered, but owing to some delay at the factory has not yet arrived.

The wires used by the Water Department for connection with the pumping-stations by telephone, and the reservoirs with indicators, was paid for out of this appropriation, the cost of which was $426.40. The amount paid for fire-alarm and police wires was $730.48.

Inspection of Wires.

The magnitude of this work is shown by the fact that 177 buildings were inspected during the year where electric-light wires have been installed. All new work is inspected before it is covered with laths. There was some annoyance from lathers covering the wires at first, but when told that the work would not be accepted, the wires were uncovered. In some few cases it was found necessary to make changes. The electric wiring done at present is very much superior to

that of a few years ago, before the department was created. The total capacity of 16 c. p. lamps installed was 8,431.

No fires have been reported as caused by electric wires.

Few pole lines have been erected during the year. The only line having a large number erected at one time was on Naples road, where twenty-three poles were set. Most of the poles were inspected, and those found to be weak or decayed were changed, either by the Telephone Company or the Brookline Gas Light Co. I think credit is due to both companies for the excellent construction, as was demonstrated during the last heavy snow storm.

Respectfully submitted,

E. N. Davis,
Supt. Wires and Lights.

REPORT OF THE SUPERINTENDENT OF STREETS AND SEWERS.

Brookline, Feb. 14, 1898.

To the Honorable Board of Selectmen: —

Gentlemen, — I respectfully submit my twenty-second annual report of the work done, and the expense incurred in the Highway department, for the year ending January 31, 1898.

The amount appropriated at the annual meeting for the support of highways was $60,000 and receipts. The amount received from sundry parties for labor and materials furnished, and from other departments and special appropriations, for the use of horses, and for material prepared at the expense of the Highway department, was $2,110.78. The gross amount expended was $62,057.81, and the details of this expenditure are as follows: —

Addington road: sundry repairs	$34 92
Avon street: dressed with fine stone	73 97
Babcock street: graded and macadamized and two new catch-basins built	2,054 69
Beacon street: resurfaced and gutters repaved	3,007 89
Boylston street: macadamized in part; gravelled in part, and sundry repairs	1,847 76
Brookline avenue; macadamized	194 53
Buckminster road: sundry repairs	70 20
Chestnut street: macadamized and repaired	381 46
Chestnut Hill avenue: resurfaced in part	143 98
Clark road: macadamized from Boylston street to Sumner road	920 21
Cleaning street crossings	327 38
Cleaning gutters, streets and sidewalks, and sundry small repairs	5,999 25
Clinton road: labor on sidewalks, repaired, etc.	123 77
Clyde street: resurfaced in part and repaired	240 57
Colbourne crescent: gravelled in part	42 25
Colchester street: repaired	34 72
Coolidge street: dressed with fine stone	26 05
Cowan's pit: stone crushed now on hand	73 48
Crossings: labor and materials for new crossings and for repaving old crossings, etc.	1,680 37
Amount carried forward	$17,277 45

Amount brought forward	$17,277 45
Cypress street: macadamized in part	1,079 30
Cutting grass and weeds, etc.	879 27
Davis avenue: macadamized in part	190 62
Dean road: repaired; labor on sidewalks, etc.	86 85
Druce street: repaired; labor on sidewalks, etc.	44 91
Dudley street: repaired	28 42
Fisher avenue: sundry repairs	163 62
Franklin street, formerly Sewall place: graded and macadamized in part	303 18
Gardner road: dressed with fine stone	156 51
Goddard avenue: sundry repairs	80 72
Gravel, stone, sand, etc.: cash paid for same	1,412 66
Guide boards, street signs, private-way signs, etc.	207 41
Hammond street: macadamized in parts and repaired	503 98
Harrison street: sidewalks graded	22 19
Harvard street; repaired	28 46
Heath street: macadamized in parts and repaired	2,852 73
High street: gravelled in parts	170 79
Holland road: gravelled and rolled	164 07
Horses and stable: care and maintenance, including repairs on carts, harnesses, etc., new harnesses, blankets, etc.	6,764 99
Cash paid for two new horses, less cash received for two old ones	360 00
Cash paid for one new double cart	190 00
Cash paid for new mud scraper	340 00
Kent street: macadamized in part	217 94
Kerrigan place; gutter paved, and repaired on account of sewer construction	54 65
Lagrange street: macadamized in part	209 92
Linden street: gutter paved	86 55
Longwood avenue: macadamized in part and patched	663 11
Miscellaneous work, including salary of Assistant Superintendent	2,307 34
Monmouth court: new fence on line of railroad, and repaired	42 34
Newton street: macadamized in part, and repaired	685 58
Newton street ledge: stone crushed now on hand	467 86
Pearl street: macadamized	423 85
Picking ice in gutters and on streets	474 28
Pleasant street: gravelled in part	96 13
Plowing gutters in winter	174 83
Plowing snow on sidewalks	596 92
Rawson road: dressed with fine stone and repaired	100 39
Repairing streets not elsewhere charged	1,373 78
Sanding streets and sidewalks in winter	266 21
Seaver street: gravelled in part	94 93
Amount carried forward	$41,644 74

Amount brought forward		$41,644 74
Sectional care of streets, crossings, etc.		6,516 79
Sewall avenue: dressed with fine stone		108 68
Shovelling snow off sidewalks and sundry work in winter		5,845 11
South street: repaired		20 58
Steam roller: coal, oil, waste, supplies and repairs		842 26
St. Mary street: sundry repairs		128 88
Sundry winter work: levelling snow, carting, etc.		307 44
Thorndike street: dressed with gravel and fine stone		54 69
Tools: new tools, etc.; repairs and sharpening		525 75
Trees: removing trees and sundry work		115 83
Walnut street: macadamized, gutters repaved, etc.		2,587 77
Warren street: sundry repairs		94 84
Washington street: macadamized in parts and repaired		1,723 67
Westminster ledge: blasting and crushing stone now on hand		425 62
Winchester street: macadamized in part and gravelled in part		573 47
Winthrop road: gutter paved; tree lawns graded and seeded, and street repaired		541 69
		$62,057 81
Less amounts received, viz:		
Health Department: for use of horses	$1,565 00	
Care of sewers: for use of horses	303 00	
Westbourne terrace: for preparing material	80 82	
Sundry parties, labor and stock	161 96	
Total amount received		2,110 78
Total net amount expended and charged to appropriation for support of highways		$59,947 03

Mr. Fred B. Richardson was appointed assistant superintendent of streets, and has continued to perform his duties in a very satisfactory manner.

Two horses, having outgrown their usefulness, were sold and two young horses were bought. The department now owns twenty-one work horses, and one driving horse; the Superintendent and his assistant each furnish a horse, which are kept at the town stable, making the whole number maintained at the expense of the Highway Department twenty-four. There has been considerable sickness among the horses at the Cypress-street stables during the past winter.

At the annual meeting an appropriation of two hundred dollars was made to procure plans for a new stable to take the place of the old barn on the Devotion School lot, which must

be removed in the spring to make room for the new grammar school. The whole matter of addit'onal accommodation has been carefully considered during the year by the Highway committee of your board and myself, and we have concluded that an enlargement of the Cypress-street stable, with a storage and baiting yard at Harvard or Devotion street, will best meet the present needs of the town. The stable on Cypress street was built in 1873, and has scant accommodation for seventeen horses; there is no carriage room, no harness room, no place where the men may eat their dinners in comfort, and no place for isolating sick horses; the shed room is inadequate, and more facilities for doing business are very much needed. Messrs. Peabody and Stearns are preparing plans for enlarging this stable so as to provide accommodations for thirty horses, and we hope to submit the plans and estimates of the cost early enough to ask for an appropriation at the annual meeting.

A Barnard–Castle road and pavement scraper has been bought, which will greatly facilitate the removal of mud from the roads.

The subject of wide tires on vehicles designed to carry heavy loads is again attracting considerable attention; the town has already done something in this direction, and I would suggest that the good work be continued as fast as our carts need repairs or renewals.

The Metropolitan Water Board has laid a 48-inch main water pipe from Beacon street through Winchester, Fuller and Harvard streets to the town line, and connections and blow-offs have been laid in Beacon street at five places. For the present their work on this side of the town seems to be finished. On the other side of the town they have laid a 48-inch main through the westerly end of Dudley street, Warren street and Cottage street as far as Goddard avenue; the work is not yet completed, and early in the spring it will be continued in Cottage street to the town line, and in Boylston street from Fisher avenue to Reservoir lane.

The city of Boston has laid a 42-inch main from the high service reservoir on Fisher Hill through Fisher avenue to Boylston street, connecting in that street with the pipes laid a few years ago. The work of laying the pipes was not finished

until late in the year, and the streets are in a very bad state, but we have the assurance of the city authorities that they will be restored to their former good condition.

The city of Boston, through its water commissioner, has offered to pay the sum of five hundred dollars for injury to our streets, caused by laying a 48-inch main water pipe in 1896; this is only one-half the sum asked, but it is all they will pay.

The work of resurfacing Beacon street was continued last year, and almost all of it has been done. When the street was widened, it was thought that a special appropriation would be required for such extensive repairs, but we have been able to do the work from our regular appropriation; the construction of sidewalks in front of the large buildings recently finished and in process of construction between St. Paul street and Carlton street, will doubtless involve the necessity of again resurfacing the street, as it has settled considerably in this section.

The right to renew the lease of the ledge on the land of the Westminster Land Company on Washington street in the Brighton district expires this year, and steps must be taken towards extending the lease or securing another ledge.

During the autumn months many complaints were made of the untidy condition of the streets in the village end of the town; they were chiefly on account of the unsightliness of paper and other rubbish thrown into the streets, or blown by the wind from back yards and private ways over which this department has no control. Most of the school children in this part of the town go home for their luncheons; the recess is long enough for this, but is too short to allow the luncheons to be eaten at home, and many are therefore done up in paper and eaten on the way back to school; the paper in which they are wrapped is thrown into the street, and when we remember that there are more than five hundred pupils in the grammar school alone, we can easily see how great a nuisance this one small matter may become. Frequently leaves are raked from back yards and lawns and thrown into the streets just after our force has thoroughly cleaned them, and this trouble with leaves begins in September and lasts until snow flies. But by far the greatest annoyance is caused by poking over the ash barrels after they have been placed on the sidewalks

for removal. It is proposed to place public waste barrels in suitable places into which paper, fruit leavings and other rubbish may be thrown. The number of section men whose chief duty is to clean the streets and crossings should be increased; much can be done by enlisting the help of the school children, as has been done in New York, or, if this should not be deemed practicable, they can at least be taught to refrain from littering the streets. With the help of the police the practice of poking over the contents of the ash barrels can be stopped, and finally, I believe the town ought to have some control over most of the private ways. Villa lane, Village lane, Fay place, Cameron street, Sewall-street place, and other ways have a dense population, and their condition could be very much improved if they were laid out as public ways, and the cost of their maintenance would be small.

It is difficult and expensive to maintain gravel or macadam streets, through which the electric cars run, in good condition, unless they are of greater width than many of our streets, and the question of using some more durable material on Washington, Boylston and Cypress streets is worthy of serious consideration. Granite blocks are objectionable on account of noise, and asphalt is expensive; objections are made to its use on account of its slipperiness. Brick pavements have not received the attention in this neighborhood, which it seems to me they deserve. The experience of the city of Springfield with this kind of pavement has been most satisfactory, and I would suggest that it be given a trial. The tracks on Boylston street will probably be relaid at an early date, and this would offer a favorable opportunity for the experiment.

Change of Names.

The names of Walnut and Warren streets, at and near their intersection, were changed, so that Walnut street now continues on past the Unitarian Church through the new street on the Bowditch estate to Dudley street, and Warren street continues on by the Bowditch estate to Boylston street, opposite Sumner road. The street between the grass plots and the estate of Moses Williams will continue to be known as Walnut street.

The name of that part of Sewall street, between Cypress street, and the angle at the school-house, was changed to

Cypress street, and it is proposed that when the private way between the car-house and High street is laid out as a public way, it shall be given the name of Cypress street.

The name of that part of Sewall street, between Chestnut street and Sewall place, and the whole of Sewall place, was changed to Franklin street.

The name of that part of Cypress street, between Sewall street, as formerly named, and Chestnut street, was changed to Kendall street.

Street Crossings.

New cross-walks of North River stone and small granite blocks were laid at the following places: —

Across Buckminster road at Fisher avenue.
" Warren street at entrance to the Bowditch estate.
" Walnut street at Upland road.
" Harvard street at Naples road.
" " " at the Devotion School.
" Beacon street at Winthrop road.
" " " at Bilafsky's Block.
" Fuller street at Center street.
" Colchester street at Hawes street.
" Abbottsford road at Naples road.
" Washington street at new road on the Blake estate.
" Longwood avenue at Marshal street.
" Private way (Brewer's) at Park street.
" Chapel street, near the Railroad Station.

A new crossing of coal-tar concrete was laid across Homer street at Harvard street; many crossings of plank were laid across streets where the travel at present is light; these, of course, are only temporary affairs, and must be replaced in a short time by something more lasting. The older crossings have been renewed in many places, and much more of the same sort of work should be done in the coming year.

New Streets.

Shailer Street was accepted as a private way December 16, 1896, and was constructed without expense to the town. During this past year a concrete walk, with a loam edge, was laid on the northerly side, the cost of which was charged to the Sidewalk appropriation.

Naples Road was accepted as a public way June 30, 1897, and an appropriation of $900 was made to put it in order.

The street is fifty feet wide, and had been practically finished by the owners as a gravel road, with concrete walks and grass edges on both sides for the greater part of its length, but it was unfinished at the intersection of Gibbs street, and the grade was very objectionable at Abbottsford road. The grade has been changed to correspond with the accepted profile, and circular edgestones and a crossing of North River stone have been laid on the westerly side at Abbottsford road. The roadway was dressed with gravel from Harvard street to Abbottsford road, and one more catch-basin was built at Gibbs street. No provision has been made for the removal of storm-water from the northerly end of the street, and as the distance is considerable, and the longitudinal inclination slight, I recommend the construction of a surface-water drain, with a sufficient number of catch-basins, from the main drain in Gibbs street to the northerly side of Osborne road at least.

Manchester Road, Abbottsford Road and Osborne Road were accepted as public ways June 30, 1897. These streets are forty feet wide, and lead from Babcock street to Naples road; they were constructed by the owner with concrete walks and loam edges, and offered to the town free of cost. The material in the roadways is for the most part poor, and it will be necessary to macadamize them very soon. There is only one vacant lot on Osborne road, and this street should be rebuilt at once. There is considerable building on the other two streets, and it would be better to defer work on them until the houses are finished. Circular edgestones and crosswalks should be provided for all three streets.

Bowker Street was accepted as a public way December 15, 1897. This street is forty feet wide, and leads from Kent street to Toxteth street; it was built by the owners with gravel, and cost the town nothing. A plank walk was laid on the northerly side, the cost of which was charged to the appropriation for Sidewalks.

Howard Street was accepted as a public way December 15, 1897. This street is forty feet wide, and leads from Warren street to Dudley street; it was made of stone and gravel by the owner, and offered to the town without cost. Its name was changed to Walnut street.

Holland Road, between Hyslop road and Fisher avenue, was laid out by the Selectmen, and offered to the town for acceptance as a public way at the meeting held December 15, 1897. It is a thoroughly well-made street, but owing to a question as to rights of drainage it was not accepted.

Special Appropriations.

Westbourne Terrace. The balance of the appropriation for Westbourne terrace and Bartlett crescent, amounting to $213.12, was expended on the latter street. The sidewalks and tree lawns were regraded, and the roadway was macadamized. A day or two with the steam roller will put the street in good condition.

No other special appropriations were made this year, except those of $200 for plans for a new stable, and $900 for Naples road. Mention has already been made of these matters.

Watering Streets.

Four teams of the Fire Department continue to sprinkle limited sections of streets near the engine houses. Hook and Ladder No. 1 was changed to a three-horse hitch, and is no longer required to water the streets. The section formerly done by this team was divided among the other routes. Besides these, twenty-two hired teams were employed in this work, and after July 9 another team, belonging to Mr. John Miskell, was hired. The same rates, viz., one hundred dollars per month, including Sunday watering, were paid. The appropriation was $17,000, but owing to the very small amount of watering needed in November, when the work is paid for by the day, only $15,418.82 was expended. The service continues to improve, and fewer complaints were received than in any previous year.

Sidewalks.

The kind and amount of work done on sidewalks is shown in the following table, which does not include the small patching on brick and concrete sidewalks, nor the repairs of plank walks. When plank walks have been rebuilt with old stock, the work has been considered in the nature of repairs and is not included in the table:—

Streets.	Lin. feet New Plank Walk.	Lin. feet New Edgestone.	Lin. feet Edgestone Reset.	Sq. yards New Concrete.	Sq. yds. Concrete Repaired.	Sq. yds. Brick.	Sq. feet Artificial Stone.	Sq. yds. Gutters.

	9679.25	2709.1	1652.5	5398.9	2145.8	174.8	8903.8	1401.0

The appropriation for sidewalks was $16,000, and the expenditure, given in detail in the Treasurer's report, was as follows: —

Edgestones	$3,330 49
New concrete walks	4,597 55
Repairing concrete walks	1,045 48
New plank walks	2,065 48
Repairing plank walks	907 62
Brick walks	213 68
Artificial stone walks	579 51
Gravel walks and sundries	913 93
Total	$13,653 74

Hard-pine lumber, planed to an even thickness, was used in laying plank walks.

The allowance towards the cost of artificial stone walks was fixed at eight cents per square foot, and the companies laying this work have given bonds to keep the walks in good condition for five years.

A substitute for granite edgestones, made of Portland cement concrete with a corner-piece of galvanized iron, has lately been put on the market, which can be furnished for about the same price as the ordinary eighteen-inch rough-split granite edgestone. Circular granite edgestones cost from 50% to 100% more than the straight stone, according to the radius used, and it is proposed to furnish the cement concrete for circles at the same price as for the straight stone. We will need considerable circular stone during the coming season, and I think it would be well to try the substitute.

Several pieces of artificial stone walk were laid very late in the season, and payment of the allowance for these has been deferred until spring.

Care of Sewers.

The usual work of caring for the sewers, catch-basins and drains was done at a cost of $2,740.34. As the dumping places grow fewer in number, the cost of this work must necessarily increase, and with the growth in population comes an increased need of regular inspection, so that everything connected with our drainage system shall at all times be in good order. The sewers in that part of Beacon street between St. Paul street and Carlton street have settled with the road, and should be relaid. That part of the narrow road just east of St. Paul street is in the worst condition, and we would have had trouble with this sewer long ago were it not for the scour which every rain storm furnishes from the catch-basins on the higher ground. Everyone familiar with the locality knows of the trouble with this part of Beacon street since its original construction in 1852.

The matter of providing proper and adequate surface drainage for many parts of the town is again presented to your board for early consideration. This cannot be longer deferred without causing serious annoyance to many citizens, particularly in the winter season.

Collecting Ashes.

The cost of collecting ashes and dry dirt throughout the town was $8,075.24, which sum includes horse hire. Most of the available places for dumping in the thickly settled parts of the town are closed, and the cost of this work is very likely to increase much more rapidly than the growth in population would seem to warrant. There are still very many places where a dump for clean ashes, which makes a good filling, would be gladly offered, but our waste is of such a nature that few care to have it, and where the owner does not object the neighboring residents are ready to remonstrate. I said last year in my report on this subject: "This work is necessarily offensive, but we try to make it as little objectionable as possible to our citizens. If householders would burn waste paper and other combustible matter on their own premises, one very

disagreeable feature would be eliminated, and less objection would be made to dumping in many places."

The presence of the barrels and other receptacles on the sidewalk for hours is very obnoxious, and much of the untidiness of our streets, to which I have previously alluded, is due to this cause. It has been suggested that the men employed by the town should carry out and return the barrels, thus avoiding the necessity of their remaining on the sidewalk for more than a brief period. If this is done, I trust the men will not be required to go into cellars, as there are many objections to their so doing. I believe the suggestions made by the committee on disposal of waste material two years ago, would, if adopted help to solve this problem. They recommended that three receptacles for waste material should be provided by each householder, into one of which swill and garbage should be put, the second being for ashes, and the third for all other waste, most of which is of a combustible nature. In this way the committee thought the ashes could be easily disposed of, while the combustible material could be brought in large wagons to remote places, and be burned. The plan contemplated the erection of three brick furnaces, with tall smoke flues made of boiler iron.

The subject is receiving attention in many other places, and out of the general discussion now going on, some plan will doubtless be evolved, which will render this service much more satisfactory than it is at present.

Sundries.

The grading around the new Bath House was finished early in the spring, and the expenditure was $130.83.

The grading of the avenue and grounds of the John D. Runkle School-house on Druce street was finished at a cost of $132.67. The lot should be put in better condition for use as a playground, but this matter comes within the province of the Park Commissioners.

The grading of lots between the Village brook and Boylston street was continued under the direction of the Town Engineer, and $570.11 was expended.

Sundry work in connection with building new sewers was done, and the cost, amounting to $91.09, was charged to the appropriation for sewers.

Sundry other work in connection with repairs of public buildings, setting stone bounds, care of Town Hall, hay scales, etc., was done, and the cost, amounting to $209.31, was charged to the proper appropriations.

The inventory of property belonging to the department will be filed with the Town Accountant.

Respectfully submitted,

MICHAEL DRISCOLL,

Superintendent of Streets.

REPORT OF THE TOWN ENGINEER.

OFFICE OF TOWN ENGINEER,
TOWN HALL, BROOKLINE, MASS., Feb. 1, 1898.

To the Honorable Board of Selectmen of Brookline: —

GENTLEMEN,— The following is my report, covering the operations and expenses of the Engineering department for the municipal year of 1897: —

The appropriation for the Engineering department	$7,000 00
The appropriation for salary of Town Engineer	3,000 00
The amount reimbursed the town by the city of Boston for its half of the work of this department on Longwood-avenue Bridge, to December 1st	578 61
	$10,578 61
Balance unexpended	2 63
Amount expended	$10,575 98

Classification of Expenditures.

For salaries of Town Engineer, assistants, draughtsmen and rodmen	$9,663 83
For repairs of instruments	17 00
For board of horse, provided by Town Engineer, shoeing, etc.	332 33
For supplies and drawing materials	243 27
For incidental expenses	319 55
Total, as above	$10,575 98

Division of Salaries of Engineer and Assistants.

For defining street lines and grades for the Highway department for purposes of construction and repairs, for giving lines and grades to abutters, setting street bounds, making plans for use of office and record, making surveys and estimates of cost of proposed street improvements, and doing all other work relating to highways	$1,450 00
For defining the lines and grades of curbstones, for measurement of work done by contractors and for all other work relating to sidewalks and crosswalks	207 00
For making surveys, maps, profiles, estimates, designs, reports, doing the engineering and clerical work connected with the levying of sewer assessments and betterments, the preparing of contracts and specifications, the superintendence of construction, and all other work relating to sewers, surface-water drains and covered brook channels	1,490 89
For services connected with the maintenance of the Parkway and the improvement of the Longwood Playground and other public grounds	196 00
For services on plans and on other information for the use of the Assessors' department	2,207 00
For services upon the topographical and linear survey of the town	948 00
Amount carried forward	$6,498 89

Amount brought forward	$6,498 89
For services in the preparation of testimony in suits to which the town was a party, and in attendance at various trials and hearings	355 00
For services in making various preliminary and the final plans for the new Longwood-avenue Bridge, including the contracts, specifications and superintendence	1,975 94
For services on miscellaneous matters not included in the above classification	834 00
	$9,663 83

Streets.

A list of the streets accepted during the year is given in the appended table.

It has been my purpose, since the establishment of the department, to have on file in this office, as soon as practicable, a set of plans showing the data relating to the lines and grades of all public streets. It is an extremely important part of public records, and its completion should not be deferred longer than is absolutely necessary. The new survey now in progress, together with the material already collected from other sources, will go a long way toward the desired result.

During the year, beside the record plans of the streets accepted, numerous detailed plans and estimates of cost of proposed street improvements have been made, the one requiring the greatest expenditure of time being the proposed improvement of Boylston street.

All the streets accepted have been monumented, and a considerable number of monuments set in other streets.

Sewers and Surface-Water Drains.

An appended table shows the sewers and drains either built or acquired during the year, with their location, cost and assessments levied. Inasmuch as this table, as heretofore published, has included the length and cost of some surface-water drains which should have been tabulated separately, and also included some surface-water drains and sewers which have been abandoned, it has been thought best to modify the tables as they are carried along from year to year, so that they should represent the lengths and costs of sewers and drains in operation separately. The work of separation required more time than could be well given to it, especially as some of the earlier records are not very clear. The results, however, are believed to be reasonably close.

	Feet.	Costing.
Total length of sewers Feb. 1, 1897, as reported last year	292,617 55	$886,354 47
Less deductions for reasons above given . .	58,729 55	172,560 17
	233,888 00	$713,794 30

The total length of surface-water drains in operation Feb. 1, 1897, was 48,303 feet, costing $193,377.78.

The practice followed for some years in sewer construction, of the town furnishing the materials and contracting for the labor, has been adhered to, excepting in the case of the repair of the Heath-street drain which had become broken, where it was originally laid in a trench opened through rock, by blasting adjoining trenches for sewer and water pipe, and in the case of a drain in Kent street, where the original foundation proved insufficient. In both of these instances the labor was done by day-work.

The sewer inspection of the year has been done by men detailed from this department, and the time, while thus employed, charged to sewer extensions.

By a recent act of the Legislature, the Metropolitan Sewer Commission is instructed to enter at once upon the study of a "High Level Sewer for the relief of the Charles and Neponset River Valleys." So far as yet considered, it is expected that the water line of such sewer in Brookline will be about 40 feet above low tide in Boston Harbor. The practical effect of such a sewer for Brookline would be to do away with the expense of pumping the sewage of the part of the town above that level, probably fully three-fourths of its area. As now arranged, the whole south Metropolitan district, much of which is from one hundred to three hundred feet above low tide, conducts all of its sewage to a point from fifteen to twenty feet below that level, and then lifts the sewage by the aid of pumps so that it can be discharged into the harbor at or near high tide. It is clear that it is neither good engineering, nor good business to continue this practice much beyond the time when the population of the high lands shall become large enough to warrant the diversion of the sewage from the high level directly to the harbor, at an elevation which will not require pumping. It is, of course, true that pumping will

have to be continued for all time for the disposal of the sewage of the part of the town which lies below elevation 40.

Your board awarded a contract Nov. 8, 1897, to Mr. T. J. Kelley for laying a sewer in Kent street between Aspinwall avenue and Francis street, and from Kent street to the main sewer in the Boston & Albany railroad location. There was more delay in securing a release than was expected, so that when it was finally obtained it was too late to undertake the work with the risk that this part of Kent street might have to be closed to travel for the winter.

The sewer plans, which were made some fifteen years ago, have become very much worn by long use, and a large part of them are on too small a scale to properly show the sewers. They should all be redrawn, and it is my purpose to make new plans, based upon the recent survey, and new profiles, as rapidly as the more urgent work of the department will allow. The work is already in progress.

Village Brook Channel.

This work was commenced in June, 1896, and was reported last year as being nearly finished. Since that time the private grounds through which the new channel was laid have been restored, buildings and fences repaired, several additional catch-basins built, the walls and bed of the culvert at Cypress street and the bed of the open channel above Cypress street, which form a part of the new channel, have been thoroughly repaired with Portland cement mortar.

The amount expended this year was $6,912.77, which, in addition to the sum of $45,180.57, spent in 1896, makes a total outlay of $52,093.34. The estimate of the cost was $58,000, leaving a balance unexpended of $5,906.66.

Town Survey.

The topographical and linear survey of the town, which has been in progress for three years past, has been continued as rapidly as my force of assistants would permit. The results of this work are being incorporated into the plans for the Assessors' department, street plans, sewer plans, and the various other uses for which public plans are required. The field work of the linear survey is practically completed, but a considerable amount of topography remains unfinished.

Assessors' Plans.

Since the organization of the department this work has been regarded as probably the most important upon which it was employed, and it has been constantly in progress either in the field or in the office, whenever any of the assistants could be spared from construction and other work which demanded immediate attention.

The numerous transfers of real estate make it necessary for two assistants to spend fully two months of each year at Dedham, copying deeds and plans. The extensive improvements in, and the very great number of transfers of Brookline real estate, make a large amount of work necessary each year in order to keep the plans up to date, and when once completed I expect that it will take the larger part of the time of one of the principal assistants with a field party to properly attend to it.

This work, when finished, will comprise about seventy-five sheets to cover the entire town; twenty-eight of these sheets were turned over to the Assessors June 1, 1897, and there are now fifty-eight sheets completed. Of the remaining sheets, a small part are in progress.

Parks and Public Grounds.

Mr. David H. Sheehan has been in immediate charge of the work of the department, a position which he has very creditably filled since the completion of the Parkway in 1894. The ordering of materials and supplies and the approval of bills and pay-rolls has devolved upon the Engineering department.

Park Drives. Since the opening of the drives in 1893, the only repairs have been an application, once or twice a year, of a light coat of half-inch broken stone, and, as a rule, with quite satisfactory results. It has recently become evident, however, that a more extensive repair, at intervals of a few years, is necessary in order to keep up the character of the drives; I think the work should be commenced the coming season on those parts of the drives most needing attention, and that $500 of the Park Maintenance appropriation should be set aside for this purpose.

Public Grounds. The usual work of maintenance has been kept up, including the removal of snow from the walks about the public buildings.

Linden Square. This plot of land containing about 9,500 square feet was presented to the town by Mr. Leonard Stone

and accepted at the town meeting of March 25, 1895. As it was depressed from one to six feet below the surrounding streets, the Park Commissioners last fall decided to fill it with ashes; all the perishable material in the ashes was separated from it and burned in order to prevent future settlement as far as possible. The loam on the land was saved and will probably prove sufficient for surfacing. In order that the public may have the use of the land I would suggest that the fence be removed this spring, curbstones set about the lot and the grading completed. My estimate of the cost of doing such work as seems to me necessary is $750.00.

The appropriation for the "Care of Parks and Public Grounds" for 1897, was	$7,200 00
Receipts	5 75
The amount available was	$7,205 75
Amount expended was	6,610 31
Balance unexpended was	$595 44

Longwood Playground. The appropriation of $4,000 made last year for continuing the work of improving this ground was expended in the purchase of loam, filling material, manure, planting and labor. When the work was suspended on account of the appropriation having become exhausted, the walks had again been filled up to the adopted grade with gravel and the central part of the ground, the playground proper, was seemingly completed, it having again been filled to subgrade, surfaced with from 12 to 15 inches of loam, manured and seeded. Considerable work remained to be done on the belt of land between the boundary line and the walk, which is located from 20 to 40 feet inside of it. In the nine months which have elapsed since the work was suspended some settlement has taken place in parts of the ground, but it is small compared with that which has taken place in other years. I think that these settlements, owing to the depth of underlying mud, are likely to continue in decreasing amount for several years and that provision should be made for making them up until they finally cease. The sum of $1,500 will be sufficient for this purpose for the coming year.

The appropriation for this work for 1897 was	$4,000 00
Balance from the previous year was	8 34
Amount available was	$4,008 34
Amount expended was	4,003 66
Balance unexpended is	$4 68

The following are suggestions for appropriations for 1898 :—

For the ordinary work of "Care of Parks and Public Grounds"	$7,200 00
For concrete and other work at the Heath-street School-house	500 00
Fencing, grading and planting at the J. E. Cabot School	250 00
Fencing, retaining wall, grading and concrete at the Boylston-street Primary School building	200 00
	$8,150 00
Construction.	
For Longwood Playground	$1,500 00
Linden square	750 00
The Marion Green, the lot on Park, Vernon and Marion streets, recently conveyed to the town	500 00
Total	$2,750 00

Longwood-Avenue Bridge.

This structure, which has been the subject of so much consideration for several years past, is now under contract and is progressing very satisfactorily. When completed its length will be about 220 feet, the width between the parapet walls over the main arch will be 54.66 feet, and 56.66 feet for the remainder of the structure. The principal arch over the Parkway will have a span of 100 feet, and the one for the Boston & Albany railroad, 31 feet.

The work was advertised July 16th, and the bids received on July 30th. The proposals were twenty in number and ranged from $115,000 to $171,000. The contract was awarded to the lowest bidder, Messrs. Woodbury and Leighton of Boston, at their proposal of $115,000. The contract was signed August 5th, and approved by Mayor Quincy August 12th.

The contractors began their preparatory work at once, and "broke ground" August 18th, on the excavation for the foundation of the Boston abutment.

The old bridge, which was closed to teams by the order of the Boston Street department, April 21, 1897, on account of the Boston end having become unsafe for heavy teams, was used for foot travel until September 22d, when it was taken down.

The work has been very creditably and energetically conducted by the Messrs. Woodbury and Leighton, so that on the 14th of December, when the laying of concrete was stopped by the cold weather, the foundation of the east abutment was completed, and of the middle pier up to grade 12. The excavation for the foundation of the west abutment was begun, but

is not far advanced. In the four months of working weather, 8500 cubic yards of earth were excavated and 5000 cubic yards of concrete (requiring nearly 7500 barrels of cement) were laid. The foundations thus far laid are entirely Portland cement concrete, mixed in the proportion of one part cement, two parts sand and five parts either broken stone or gravel screenings.

The cement used is the "Atlas," an American Portland which is regarded as one of the best of its class. It has been very carefully tested from day to day in order that there should be no question as to its fitness for the work.

In order to distribute the weight of the bridge so that the load per square foot upon the foundation soil should not be excessive, the part of the foundation below ground has been spread out, so that the middle pier, for instance, which at the surface of the ground will be 63 feet long by 28 feet wide, its base at a depth of 20 feet below the railroad tracks, will be 97 feet long by 59 feet wide, covering an area nearly three and a half times that of the superstructure over it. This construction made it necessary to place a considerable part of the foundation of the middle pier beneath the tracks of the Boston & Albany railroad. It was accomplished by means of a wooden trestle which supported the tracks and traffic, while the soil beneath the tracks was excavated and concrete masonry laid in its place.

Since the laying of masonry was suspended the contractors have been engaged in building the centering for the main arch after designs made by the writer. The work is about half completed.

At the town meeting of Dec. 15, 1897, the town voted to build a temporary foot-bridge over the Parkway and the Boston & Albany railroad, at Longwood avenue. Its construction was ordered forthwith, so that the work was commenced Jan. 1, 1898, and was completed on the 15th of the same month, at an expense of about $600.

Bridges.

The structural parts of all the bridges for which the town is responsible are in good condition, excepting the Washington-street bridge over the Boston & Albany railroad. Here, owing

to the method of construction, parts of the lower flanges of many of the I beams are exposed to corrosion, and it is more than likely that parts inclosed in the brick masonry are also undergoing corrosion. If the bridge floor was to be rebuilt, methods of construction could be used which would surely protect the iron work; but to repair the present structure is difficult and uncertain as to results. I think it is probably best to allow the present floor to remain so long as it appears safe, and then rebuild it in the best manner, including the parapet masonry, which was never very good in quality, and is now very much out of repair.

Office Accommodations.

I wish again to call attention to the great necessity of increased office room in order that the different classes of work of the department may be conveniently prosecuted, organized and systematized.

The following is a list of the assistants connected with the department at the date of this report: H. A. Varney, E. S. Phelps, F. A. Leavitt, D. W. Robbins, A. H. Pratt, J. F. Driscoll, E. G. Carey, G. B. Varney, and I. L. Shaw.

A schedule of the property of the department has been filed with the Accountant.

Very respectfully,

ALEXIS H. FRENCH,

Town Engineer.

REPORT OF THE INSPECTOR OF BUILDINGS.

Office of the Inspector of Buildings,
Town Hall, Brookline, Mass., February 1, 1898.

To the Selectmen:—

Gentlemen, — The Inspector of Buildings has the honor to submit his ninth annual report, comprising the work performed from February 1st, 1897, to February 1st, 1898.

The whole number of permits granted was 570. Of that number —

68 were for brick and stone buildings, costing	$1,857,000 00
156 were for wood and frame buildings, costing	1,125,300 00
31 were for repairs and additions, costing	49,175 00
315 were for plumbing, costing	147,025 00
	$3,178,500 00

There has been an increase of twenty-seven brick buildings over the previous year, with an increase in the average cost of ten thousand seven hundred and eleven dollars. Of wooden buildings there have been nine less built than in 1897, and the average cost has been less by $600.96. The total increase in the cost of buildings over last year is $1,044,228.

The average cost of brick buildings was	$27,308 82
The average cost of wood and frame buildings was	7,213 46
The average cost of repairing was	1,586 29
The average cost of plumbing was	466 74

The cost of buildings built in Brookline since the building laws have been in operation is as follows:—

From June 1st, 1889, to February 1st, 1890	$951,145 00
For the year ending February 1st, 1891	1,572,877 00
For the year ending February 1st, 1892	1,799,216 00
For the year ending February 1st, 1893	2,329,870 00
For the year ending February 1st, 1894	1,391,700 00
For the year ending February 1st, 1895	2,095,232 00
For the year ending February 1st, 1896	1,967,704 00
For the year ending February 1st, 1897	2,134,272 00
For the year ending February 1st, 1898	3,178,500 00
	$17,420,516 00

The Inspector of Buildings has received for plumbers' licenses, as authorized by Act of the Legislature, Chapter 455, Session of 1894, the sum of	$8 00
(See report of Examiners of Plumbers.)	
Cash paid Inspector of Plumbing for the purchase of book entitled, "American Plumbing Practice" (authorized by Chairman of Examiners of Plumbers)	3 00
Balance paid Treasurer	$5 00

For further information in regard to plumbing, see report of Inspector of Plumbing, which is appended.

Respectfully submitted,

W. K. Melcher,
Inspector of Buidings.

REPORT OF THE INSPECTOR OF PLUMBING.

Office of the Inspector of Buildings,
Town Hall, Brookline, Mass., January 31, 1898.

Mr. Wm. K. Melcher, Inspector of Buildings:—

Dear Sir, — I herewith submit the following report for the year ending January 31, 1898.

The whole number of permits granted to do plumbing was 315. Of this number —

Forty were for brick and stone buildings.

One hundred and fifty-one were for wood and frame buildings.

Sixty-three were for additions and repairs, and

Sixty-one were for improving the drainage.

The aggregate cost of the above plumbing was $147,025, an increase of $32,203 over last year.

Number of visits of inspection	1,120
Number of water tests	326

The past year has been an exceedingly busy one. The plumbing was greater in amount and more water-tests and more inspections were made than in any previous year. This

increase was due almost entirely to the large and substantial apartment houses erected along the line and in the vicinity of Beacon street, in nearly all of which plumbing of high cost and substantial character was installed. This increased activity has required much additional labor. Extra time has been freely given and every effort has been made to meet all requirements, and it is believed with a good degree of success.

During the year some important changes have been made in the plumbing regulations, among which was the following in relation to rain-water conductors, made at the special meeting held June 30, 1897. On recommendation of the Selectmen, it was voted that section seventy-one of the building laws be amended so as to read as follows:—

SECTION 71. No rain-water conductor shall be connected with the house drain or sewer except by permission of the Board of Health or its agents. No rain-water conductor shall be used as a soil, waste or vent pipe, nor be connected therewith, nor shall any soil, waste or vent pipe be used as a rain-water conductor. When connected with the house-drain, rain-water conductors shall be properly trapped.

The purpose of this amendment was to afford greater protection to the public sewers and to avoid the possibility of siphoning certain traps by requiring that roof water when taken into the drainage system should be carried into the house drain instead of into the vertical soil pipe.

The town at the special meeting held December 16th, 1896, appointed a committee to consider and report upon the advisability of exempting certain traps from ventilation; two members of this committee were unable to serve, and the other two members could not agree upon any change in the existing law which they could recommend to the town, and each submitted a separate report, which was printed and distributed through the town with the Selectmen's report on the articles in the warrant for the town meeting, held December 22d, 1897. After a very full discussion of the subject, it was voted that Section 75 of Article 26 of the building laws be amended so as to read as follows:—

SRCTION 75. Each and every trap shall be protected from siphonage or air pressure by special cast-iron or galvanized wrought-iron air pipes of a size not less than two inches internal diameter, to run from the crown of the trap, except that one and one-half inch galvanized wrought-iron pipe may be used for "back vents" for single fixtures for a distance

not greater than fifteen feet. Lead air pipes may be used only when they are exposed to view. Air pipes for water-closet traps shall be of two-inch bore if thirty feet or less in length, and of three-inch bore if more than thirty feet in length. Other air pipes shall be as large as the waste pipe from the trap. This section shall not apply to traps having waste pipes not more than three feet in length between them and a line of soil pipe extending full size through the roof to the open air, provided such traps have an independent connection with the soil pipe, and that no running water enters the stack from the stories above; it is further provided that a trap that is specially difficult to siphon and which shall be approved by the Inspector of Plumbing shall be used in such work.

The object of this amendment was to secure as much economy in construction as was consistent with safety, and to permit the use of certain wrought-iron pipes in back-venting which could be enclosed in studded partitions of particular widths without necessitating the furring of such partitions. The reports of the committee were accepted, and the committee was discharged December 29th, 1897.

After a careful review of the work of inspection for the past few years, I am persuaded that no other feature of the work has been of more benefit to all parties concerned than the method pursued by this department of visiting all new buildings wherein plumbing was being installed, on receipt of the application for the permit, or very soon after. A full knowledge of what may and may not be done is the result, and much annoyance and expense is saved. The wisdom of this plan is apparent when it is known that more than one-half of the plumbing work done in the town annually is performed by parties from places where the plumbing laws are much different from our own.

The Inspector has visited all new jobs of plumbing from time to time as the work progressed. Where changes were necessary they have been made. About the usual number of defective pipes and fittings have been detected by means of the water test; these have all been replaced with sound materials. A few intentional violations of the ordinance have occurred, all of which have been settled without resorting to the courts.

Respectfully submitted,

MICHAEL DUFFLEY,
Inspector of Plumbing.

REPORT OF EXAMINERS OF PLUMBERS.

The board organized Monday, May 10th, 1897, by choice of Horace James as chairman, and Michael Duffley as secretary. The board held three meetings for the examination of applicants for licenses, namely, June 28th, December 8th and December 16th. Norton & McMahon of Brookline, C. A. Lunney of Brookline and F. H. McMahon of Brookline were certified to the Inspector of Buildings to be licensed as master plumbers. The licenses of two master plumbers and one journeyman plumber have been renewed as required by statute.

Horace James,
Wm. K. Melcher,
Michael Duffley,
Examiners of Plumbers.

PROPOSED ACT

To Regulate Gas Fitting in Brookline.

[See Report of Selectmen, *ante* p. 100.]

AN ACT

Relative to the Licensing of Gas Fitters and Persons who Install or Repair Gas, Combination or Electric Fixtures, and to the Supervision of the Business of Gas Fitting and the Installation and Repair of Combination or Electric Fixtures.

Be it enacted, etc., as follows:—

Section 1. No person, firm or corporation shall engage in or work at the business of gas-fitting, or the installation or repair of gas, combination or electric fixtures in buildings in any city or town which accepts this act in the manner hereinafter provided, after ninety days after such acceptance, either as employer or as a journeyman, unless such person, firm or corporation holds a license therefor in accordance with the provisions of this act.

The word "journeyman," as used in this act, shall be deemed to mean anyone who personally does any gas-fitting or any work in the installation or repair of gas, combination or electric fixtures in buildings, or any work in connection therewith which would be subject to inspection under the provisions of this act.

Section 2. Every person, firm or corporation wishing to engage in the business of or to work at gas-fitting or the installation or repair of gas, combination or electric fixtures in buildings in any city or town which accepts this act, shall make application to the inspector of buildings in the city or town where he intends to establish his principal place of business; or, if such city or town has not accepted this act, then in any city or town which has accepted this act wherein he intends to do any work, the inspection of which is provided for by this act; or, if there is no inspector of buildings in such city or town, then to the board of health of such city or town, and shall at such time and place as may be designated by the board of examiners hereinafter provided for, to whom such examination shall be referred, be examined as to his qualifications for such business.

Section 3. The board of examiners shall consist of three persons, one of whom shall be a member of the board of health, to be designated by said board ; and the second member of said board of examiners shall be the inspector of wires of such city or town. The third member of said board shall be chosen by the board of health, and shall be a practical

gas-fitter of at least five years' continued practical experience during the years next preceding the date of his appointment. Said first and third members shall be chosen within thirty days after the acceptance of this act by any city or town, for a term ending on the first day of May following their appointment, and thereafter annually; and said third member shall be allowed a sum not exceeding five dollars for each day of actual service, to be paid from the treasury of the city or town. The other members of said board shall serve without compensation. In cities or towns which have no inspector of wires, the second member of said board shall be chosen by the board of health in like manner as is hereinbefore provided for the choice of said first member of said board, but need not be a member of the board of health. Said third member shall be entitled to receive a license under this act without any examination.

Section 4. Said board of examiners shall, as soon as may be after their appointment, meet and organize by the selection of a chairman and clerk, and shall then designate the times and places for the examination of all applicants wishing to engage in or work at the business of gas-fitting or the installation or repair of gas, combination or electric fixtures in buildings.

Said board shall examine each applicant as to his practical knowledge of gas-fitting or the business of installing or repairing combination or electric fixtures, according as the applicant shall apply for a license to engage in or work at any or all of said occupations; shall submit the applicant to some satisfactory form of practical test, and if satisfied of the competency of the applicant, shall so certify to the inspector of buildings of such city or town, or, if there is no inspector of buildings, then to the board of health, who shall thereupon issue a license to such applicant, authorizing him to engage in or work at the business of gas-fitting or the installation or repair of combination or electric fixtures in buildings, or all of said occupations as the case may be, and as specified in his license, which license shall be valid and have force throughout the Commonwealth; first requiring him to register in the office of said inspector of buildings or board of health of the city or town in which the examination is held, his name, place of business and residence, license number, date of examination, and in what capacity he is licensed.

In case of a firm or corporation, the examination and licensing of or the registration of and granting a certificate to any one member of the firm or the manager of the corporation, shall satisfy the requirements of this act, but this shall not be construed to exempt from examination any journeyman employed by such firm or corporation.

The fee for a license to any firm, corporation or employing gas or electric fitter, installer or repairer under this act, shall be two dollars, and for a journeyman fifty cents, and said license shall continue in force until revoked or cancelled, but shall not be transferable.

Section 5. The mayor of every city and the selectmen of every town which accepts this act shall appoint as many inspectors of gas-fitting and combination or electric installation in buildings as they may determine from time to time. If there is an inspector of wires in such city or

town, such inspector of wires and his assistants may be appointed inspectors under this act. All other inspectors shall be practical gas-fitters or electricians of at least five years' continued practical experience during the years next preceding the date of their appointment either as master gas-fitters or combination or electric installers or as journeymen. The compensation of inspectors shall be determined in cities by the mayor, subject to the approval of the city council, and in towns by the selectmen subject to the approval of the town, and such inspectors shall hold their offices until removed by the authority appointing them.

Said inspectors shall inspect all new work relating to gas piping and electric wiring and to gas, combination and electric fittings and fixtures in new and in old buildings within their city or town, and the construction and use of such work, and shall report to the inspector of buildings, or, if there is no inspector of buildings in such city or town, then to the board of health of such city or town, all violations of this act or of any act, by-law, ordinance or regulation relating thereto which now exists or may hereafter be enacted or made; and they shall also perform such other appropriate duties as may be required of them by the official or board from whom they receive their appointment. No inspector shall inspect or approve any work done by himself or by any person by whom he is employed or who is employed by him.

SECTION 6. In new work done after the acceptance of this act in any city or town which accepts the same, gas pipes or electric wires shall not be covered or concealed from view until approved by one of said inspectors who shall examine the same within two working days after notice that such pipes or wires are ready for inspection; and such new pipes or wires shall not be used until the same have been tested by the person doing the work in the presence of one or more of said inspectors by some reliable test approved by said inspector.

SECTION 7. Every person licensed under the provisions of this act shall display his license number conspicuously at his place of business.

SECTION 8. On and after the acceptance of this act in any city or town as hereinafter provided, no building in such city or town shall be piped or fitted for gas, and no installation of combination or electric fixtures shall be placed in any building, nor shall any repairs be made upon any such piping or fixtures unless a permit shall be granted therefor by the inspector of buildings or, if there be no inspector of buildings in the city or town, then by the board of health of such city or town, except in the case of leaks or breaks requiring immediate attention, in which case a report signed by the person making the repairs shall be filed in the office of the inspector of buildings or board of health within forty-eight hours after the repairs were made, stating the nature of the leak or break, and containing a complete statement of the extent of the repairs made and the manner of making the same.

Every person licensed under this act who wishes to perform any work which he is licensed to do under the provisions of this act, in any city or town which has accepted this act, except in the cases above mentioned, shall file an application therefor at the office of the inspector of buildings

or board of health of such city or town, giving the correct location of such building, the name and address of the owner, the intended use and material of the building, and a full and complete statement of the work proposed and the material to be used, and shall, if required by such inspector of buildings or said board of health, furnish a plan thereof which shall be subject to his or its approval.

All materials used and work performed under the provisions of this section shall be subject to such regulations as now exist or as may hereafter be made by the board of health.

Nothing in this section shall apply to the taking off or replacing of the ordinary gas burner or tip.

SECTION 9. In cities and towns which accept this act no gas pipe which may be introduced into any building shall be let into the timbers, beams or girders unless the same is placed within thirty-six inches of the end of said timber, beam or girder, and in no building shall the pipes be let into the timbers, beams or girders more than two inches in depth. No pipes from which fixtures are to be suspended shall be run on the under side of timbers, except in the case of the boarding running diagonally with said timbers, in which case they shall be thoroughly secured to the timbers. No person shall disconnect or remove any gas meter except the duly authorized representive of the gas company owning such meter.

SECTION 10. In cities and towns which accept this act all gas brackets shall be placed at least three feet below any ceiling or woodwork, unless the same is properly protected by a shield, in which case the distance shall not be less than eighteen inches. Nothing in this act shall be construed to affect the operation of any gas company upon its own premises, or upon its mains or service pipes.

SECTION 11. The board of health of any city or town which accepts this act may, by said inspectors, from time to time as it deems proper, inspect the gas and electric fixtures and their appliances in any building, and shall make such requirements relating thereto as it deems the public health and safety requires, and the owner of such building shall comply with such requirements.

SECTION 12. Any person violating any provision of this act or any ordinance, by-law, rule or regulation made thereunder, shall be deemed guilty of a misdemeanor, and be subject to a fine not exceeding one hundred dollars for each and every violation thereof, and if such person has received a license under this act, his license may be revoked by the board issuing the same; and if such violation was committed in a city or town other than that where he received his license, the inspector of buildings, or if there is no inspector of buildings, the board of health, of such city or town in which such violation was committed, may forbid him to engage in or work at the business of gas-fitting or installation or repair of gas, combination or electric fixtures, whichever is covered by his license, for a period not exceeding one year in the city or town where the violation was committed. If any person to whom a license has been issued under this act violates any provision thereof, or any

ordinance, by-law, rule or regulation made thereunder, the inspector of buildings or board of health having jurisdiction where such violation was committed, may forbid him to engage in or work at the business of gas-fitting or the installation or repair of gas, combination or electric fixtures in such city or town for a period not exceeding one year. Any person engaging in or working at the business of gas-fitting or the installation or repair of gas, combination or electric fixtures in any city or town where he has been forbidden so to do under this section, shall be guilty of a misdemeanor, and be subject to a fine not exceeding one hundred dollars for every such offence.

SECTION 13. Any person now holding an appointment as inspector of gas-fitting or of the installation or repair of gas, combination or electric fixtures, may retain his position subject to the provisions of this act, and shall, without further examination, be deemed to have been appointed under this act.

SECTION 14. The inspector of buildings, or, in cities and towns where there is no inspector of buildings, the board of health may expend such portion of all fees collected by them under this act as shall become necessary to enable them properly to perform all duties imposed by this act. The said inspector of buildings or board of health, as the case may be, shall annually make a full report in detail to their respective cities and towns of all their proceedings during the year under this act, and shall include therein a report of the board of examiners appointed under this act, giving their proceedings during the year.

SECTION 15. Nothing in this act shall apply to the city of Boston.

SECTION 16. This act shall take effect upon its passage so far as to allow cities or towns to accept the same, but shall not take full effect in any city or town until it shall have been accepted in cities by a vote of the city council, and in towns by a vote of two-thirds of the legal voters present and voting thereon at a meeting duly called for the purpose.

BOARD OF HEALTH.

THE BOARD OF HEALTH.

ORGANIZATION, 1897–98.

HORACE JAMES, *Chairman.*

NATHANIEL CONANT.

JAMES M. CODMAN, JR.

LUTHER M. MERRILL.

WILLIAM F. HUMPHREY.

GEORGE F. JOYCE, *Clerk.*

H. LINCOLN CHASE, M. D., *Agent.*

MICHAEL DUFFLEY, *Sanitary Agent.*

FREDERICK H. OSGOOD, M. R. C. V. S.,
Veterinary Inspector and Inspector of Milk,
Inspector of Animals and Provisions.

HAROLD C. ERNST, M. D., *Acting Bacteriologist.*

WILLARD E. WARD, *Disinfector.*

REPORT OF THE BOARD OF HEALTH.

Office of the Board of Health,
Brookline, Mass., January 31, 1898.

The following report, prepared by the Agent of the Board, is respectfully submitted.

The Board organized with Horace James as chairman. George F. Joyce was appointed clerk; H. Lincoln Chase, M. D., agent; Michael Duffley, sanitary agent; Frederick H. Osgood, M. R. C. V. S., veterinary inspector and inspector of milk, also inspector of animals and provisions; Willard E. Ward, disinfector.

The arrangement with Prof. Harold C. Ernst for bacteriological examinations was continued.

Licenses were granted to H. S. Hatch, J. C. Barthelmes, E. Smyth, C. A. Bryant, W. H. McManus, J. J. O'Day and J. D. Fahey, as funeral undertakers.

The license of P. McCarthy to collect grease and bones was renewed, and in November similar licenses were granted to J. Lynch and M. Hughes.

The usual orders relating to dangerous infectious diseases and other matters connected with the public health were passed and are appended to this report.

During the year ending December 31, 1897, there were reported to the board 51 cases of scarlet fever, 30 cases of diphtheria, 4 cases of typhoid fever and 49 cases of measles, occurring as follows: —

	Scarlet Fever.	Diphtheria.	Typhoid Fever.	Measles.
January	5	1	0	11
February	3	0	0	17
March	12	1	0	2

The following table shows the number of cases of scarlet fever and diphtheria reported during the last twenty-one years, and the number of cases of typhoid fever during the last sixteen years: —

	Scarlet Fever.	Diphtheria.	Typhoid Fever.
1877	46	29	
1878	15	19	
1879	16	12	
1880	17	25	
1881	5	26	
1882	12	7	*4
1883	24	7	23
1884	38	19	12
1885	40	3	9
1886	79	9	13
1887	27	1	9
1888	21	7	2
1889	3	11	4
1890	8	15	5
1891	39	7	9
1892	74	8	13
1893	44	18	10
1894	49	29	11
1895	24	97	9
1896	27	53	17
1897	51	30	4

There were no deaths during the year from scarlet fever; six deaths from diphtheria, two from typhoid fever, and twenty-one from tuberculosis.

The number of deaths from all causes between January 1st, 1897, and January 31st, 1897, inclusive, was 220, as against 239 in 1896, and 254 in 1895. Deducting the still births, 17 in number, leaves 203 deaths during the year. With a population of 18,147, as estimated by Dr. S. W. Abbott, Secretary of the State Board of Health, who based his estimate upon the increase from 1890 to 1895, census year, 206 deaths gives a mortality of only 11.18 per one thousand inhabitants for 1897.

When it is remembered that this number of deaths includes, as is usual in the reports of this board, those of some residents who died away from home, and also of nine non-residents, who died while temporarily sojourning in Brookline, the very small mortality the past year is most encouraging, and especially so to those most directly concerned in the care of the health of the town.

The number of births during the year was 426, as against 389 in 1896.

*No record kept of Typhoid Fever cases until 1882.

The decrease in the number of cases of typhoid fever from 17, in 1896, to 4, in 1898, the smallest number since 1889, is worthy of mention.

As an important aid to a correct diagnosis in cases of fever suspected by the physician to be typhoid, the board has arranged with Richard C. Cabot, M. D., for free bacteriological examinations, which compare favorably in point of accuracy with those provided by the board for the diagnosis of tuberculosis and diphtheria.

It is believed this test, the "Widal Reaction," will be most useful in the detection of light or "walking cases" of typhoid, the class of cases that are most dangerous in spreading the disease, because undetected and at large, and perhaps engaged in the milk business.

Intermittent fever (malaria) has been less prevalent the past year than during the previous few years. Circulars of inquiry sent to all practicing physicians in the town and to those living just beyond the limits brought out the fact that during the year about fifty typical cases had been met with. Apparently the lower part of the village and the so-called Holyhood district adjacent to Newton, had the largest proportion of cases, but these were neither as many nor as severe as in previous years.

Complaints were received of stagnant water in marsh lands, and drainage by ditching was ordered by the board.

Scarlet fever and diphtheria were at no time epidemic during the past year. When either disease appeared in such a manner as to make it seem desirable, daily medical inspection of certain of the schools was made for a short time. The board's hospitals for diphtheria and scarlet fever were in use a considerable part of the year for the prompt isolation and care of the very first cases appearing in tenements or other crowded buildings, thus doing much to prevent the spread of these dangerous but more or less preventable diseases, and at the same time enabling many children to continue in school who otherwise, though well, must have remained out for many weeks. The free bacteriological examinations provided by the board for the early and accurate diagnosis of diphtheria have been very extensively availed of, and with great benefit to the patients and their families.

In April formaldehyde disinfection of rooms after scarlet fever and diphtheria, was adopted, and since that time has

been in successful use. During the year the board has disinfected the infected rooms and clothing after 41 cases of scarlet fever, 25 cases of diphtheria, and 2 cases of both scarlet fever and diphtheria, and (by special request) after two cases of consumption.

The importance as a health measure of an intelligent and rigid milk inspection has been realized, and the Inspector of Milk, after conference with the board and the Town Attorney, has been obliged in certain cases to prosecute milk dealers who had violated the laws made to protect the public from the dangers of impure milk.*

The subject of the prevention of tuberculosis, the disease which destroys more lives than all other communicable diseases combined, has recently received serious attention. As a result the board printed a revised and abridged circular of the Massachusetts State Board of Health on the nature and prevention of that disease, and ordered a copy to be sent to every family in town. At the same time the board passed an order † directed against the spitting nuisance, and adopted measures for its proper enforcement. Greater cleanliness of sidewalks, gutters, streets and yards is urgently needed, and this matter is now being considered by the board. In its efforts in this direction it asks for the assistance of all the citizens, and especially of the younger portion.

The need of improved public bathing facilities, often urged in previous reports of this board, has been fully met by the new Public Bath House, over 45,000 baths having been taken there the past year.‡

During the summer the agent of the board inspected a number of garbage crematories, disinfection stations and board of health hospitals in England and Germany, and gathered valuable information on these subjects. In his absence, Henry M. Cutts, M. D., was appointed acting agent of the board, and satisfactorily performed the duties of the position.

Before closing this report the agent of the board wishes to thank the physicians of the town, and especially Dr. George K. Sabine (former agent of the Board), Dr. Henry M. Cutts, Dr. Benjamin S. Blanchard, and Dr. Everett M. Bowker, for their kind assistance in his work, during his absence and recent illness; his thanks are also due Chief of Police Alonzo Bowman, for assistance in enforcing the orders of the board.

---

Attention is respectfully called to the following extracts and orders of the Board of Health relating to infectious diseases, also to the appended reports.

[Acts of 1884, Chapter 98.]

AN ACT CONCERNING CONTAGIOUS DISEASES.

SECTION 1. [As amended by Act of 1890, Chapter 102.] When a householder knows that a person within his family or house is sick with small-pox, diphtheria, scarlet fever, or any other infectious or contagious disease dangerous to the public health, he shall immediately give notice thereof to the Board of Health of the city or town in which he dwells, and upon the death, recovery or removal of such person, such of the rooms of said house and such of the articles therein as, in the opinion of the Board of Health, have been subjected to infection or contagion shall be disinfected by such householder to the satisfaction of said Board of Health.* Any person neglecting or refusing to comply with either of the above provisions shall be punished by a fine not exceeding one hundred dollars.

SECT. 2. When a physician knows that a person whom he is called to visit, is infected with small-pox, diphtheria, scarlet fever, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Selectmen or Board of Health of the town; and if he refuses or neglects to give such notice, he shall forfeit for each offence not less than fifty nor more than two hundred dollars.

SECT. 3. The Boards of Health in the several cities and towns shall cause a record to be kept of all reports received in pursuance of the preceding sections, and such record shall contain the names of all persons who are sick, the localities in which they live, the diseases with which they are affected, together with the date and names of the persons reporting any such cases. The Board of Health shall give the School Committee immediate information of all cases of contagious diseases reported to them according to the provisions of this act.

SECT. 4. The Secretary of the Commonwealth shall furnish the Boards of Health with blank books for the record of cases of contagious diseases as above provided.

[The Board of Health considers small-pox, scarlet fever, measles, diphtheria, membranous croup, cholera, typhus fever and typhoid fever to come within the meaning of sections one and two of the above, but disinfection after measles and typhoid is not insisted upon.]

EXTRACTS FROM THE PUBLIC STATUTES CONCERNING VACCINATION.

CHAP. 80, SECT. 51. Parents and guardians shall cause their children and wards to be vaccinated before they attain the age of two years, and revaccinated when the Selectmen or Mayor and Aldermen shall, after five years from the last vaccination, require it. For every year's neglect the party offending shall forfeit five dollars.

CHAP. 80, SECT. 53. Towns shall furnish the means of vaccination to such of their inhabitants as are unable to pay for the same.

CHAP. 47, SECT. 9. The School Committee shall not allow a child who has not been duly vaccinated to be admitted to or connected with the public schools.

[Application for vaccination, by persons who are unable to pay for it, may be made to any member of the board or to its clerk or agent.]

*In Brookline disinfection after scarlet fever and diphtheria is in all cases done by the Board of Health, and is done free of expense where the householder is unable to pay for it.

ORDERS OF THE BOARD OF HEALTH.

1. *Ordered*, That no child be allowed to attend school from any house where there is or has been a case of diphtheria, scarlet fever or measles, until the expiration of at least four weeks from the commencement of the last case in the house if diphtheria, six weeks if scarlet fever, and if measles, two weeks after the disappearance of the eruption, and till a certificate of the attending physician is furnished to the Board of Health that all danger of infection has passed; said certificate in cases of diphtheria to be based on the results of a bacteriological examination.

2. *Ordered*, That no child who has visited a house in which there was at the time a case of scarlet fever shall attend school till the expiration of two weeks following exposure.

3. *Ordered*, That every house infected with diphtheria, scarlet fever or small-pox, shall have affixed on or near the front door a card, furnished by the Board of Health, stating the disease to be avoided, and any unauthorized person removing such card shall be liable to a fine not exceeding $100.

4. *Ordered*, That no child from any house where there is a case of scarlet fever or diphtheria, shall be allowed to mingle with those from any other house, until after the recovery or death of the patient and the disinfection of the premises and the removal of the card.

5. *Ordered*, That the Clerk of the Board of Health be directed to notify the Trustees of the Public Library of the existence of any case of contagious disease as soon as reported.

6. *Ordered*, That such rooms and such articles in any house, as in the opinion of the Board of Health have been subjected to infection of contagion from scarlet fever, diphtheria, or any other infectious or contagious disease dangerous to the public health, shall be disinfected by the board. The attending physician or the agent of the board shall decide in each case as to the proper time for disinfecting, and shall notify the board without delay; but in no case of scarlet fever or diphtheria shall disinfection be done in less than four weeks from the commencement of the last case in the house (except by special permit of the agent of the board); and in all cases a certificate of the attending physician shall be required, stating that all danger of infection has passed; said certificate in case of diphtheria to be based on the result of a bacteriological examination.

7. *Ordered*, That no public funeral shall be held over the remains of any person having died of small-pox, scarlet fever or diphtheria without the written permit of the Board of Health, and under such regulations as may prevent the spread of either of said diseases. Ordered, further, that the remains of persons dying of either of said diseases shall at once be placed in a tight or sealed coffin, and shall not thereafter be exposed to view, or disturbed except for burial.

8. *Ordered*, That the undertakers of the town be notified to warn families, in the case of the death of a member from contagious disease, against a public funeral.

9. *Ordered*, That circulars suggesting means for preventing the spread of scarlet fever and diphtheria be sent to every house in which a case of said fever or diphtheria shall be reported.

10. *Ordered*, That no child ill with whooping-cough be allowed to attend school.

11. *Ordered*, That no person infected with diphtheria, membranous croup or scarlet fever, shall leave the Board of Health Hospitals until the Board of Health or its agent shall find and certify that all danger of communicating such disease has passed.

12. *Ordered*, That no persons other than patients, physicians and nurses, shall enter the Board of Health Hospitals, except with the special permission of the board, or of its agent.

13. *Ordered*, That no person or corporation shall keep, or allow to be kept upon any premises in his or its possession, within the limits of this town, more than one cow, without securing a permit from the Board of

Health to do so. Such permit shall expire on the first day of May, annually.

14. *Ordered*, That no person or corporation shall use any building as a stable for cows, unless such building is properly lighted and ventilated; has a tight floor and roof; good drainage, connecting wherever practicable with the public sewer; a supply of pure water, and not less than 1,000 cubic feet of air space for each animal.

15. *Ordered*, That manure shall not be allowed to accumulate in the neighborhood of barns. Yards surrounding buildings where cows are kept must be well drained and free from standing water and filth. The barns shall be kept as clean as possible, and the floor shall be sprinkled before being swept.

16. *Ordered*, That neither hogs nor manure shall be kept in cellars of cow stables, except by special permit of the Board of Health.

17. *Ordered*, That animals kept for the production of milk shall not be fed upon swill.

18. *Ordered*, That any person having any infectious disease (the board consideres consumption to come within the meaning of the Statues in regard to infectious diseases), or having recently been in contact with any such person, shall not be allowed to milk cows or handle cans, measures or other vessels used for milk intended for sale, or in any way take part or assist in the sale of the same, until the Board of Health is satisfied that all danger of communicating such disease is past.

19. *Ordered*, That premises where cattle are kept shall be open at all times to inspection by the Board of Health, or its appointed officer.

20. *Ordered*, That upon satisfactory evidence being furnished to the Board of Health of violation of any of the above regulations, the permit will be revoked.

21. *Ordered*, That in case of death, where the diseased had not been attended by a practicing physician, the certificate of death shall be issued by the Medical Examiner.

22. *Ordered*, That no dead body of any person shall be carried to any cemetery, or from one place to another within the town, in any public vehicle other than a hearse or undertaker's wagon provided for that purpose.

23. *Ordered*, That from May 1st to November 1st, no vault or cesspool shall be emptied by any other than the odorless process, nor by carts not of the Odorless Excavating Company, except permission be first obtained of the Chief of Police.

24. *Ordered*, That the manure from livery stables shall not be removed between the hours of sunrise and sunset.

25. *Ordered*, That no manure heap shall be allowed within one hundred feet of any dwelling, unless so covered as not to prove offensive.

26. *Ordered*, That no person shall spit upon the floor of any public conveyance, shop, store, hall. church, school-house, railroad station, or other public building in said town, or upon the steps of any of said conveyances or buildings, or upon the sidewalk (spitting into the gutter or street is not forbidden) of any public way in said town.

EXTRACT FROM THE PUBLIC STATUTES.

Chap. 80, Sect. 18. The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth and causes or sickness, within its town. . . . Whoever violates any such regulation shall forfeit a sum not exceeding one hundred dollars.

REPORT OF THE SANITARY AGENT.

Office of the Board of Health,
Brookline, Mass., January 31, 1898.

To the Board of Health:—

Gentlemen,—I have the honor to submit the following report for the year ending January 31st, 1898:—

The number of visits of inspection was 218. All complaints alleging nuisances have been fully investigated, and all actual nuisances have been abated under direction of the board; these latter most frequently consisted of filthy yards and cellars, piggeries and henneries, smoke nuisances, defective house drainage and offensive stables. Of the latter, ten were complained of, two of which had to be almost entirely rebuilt and provided with drainage of the most improved kind. The board caused certain necessary changes to be made in four of the others.

During the year a large number of inspections in dwellings have been made on complaint, in consequence of alleged bad drainage. In four houses the drainage complained of was found to be seriously defective; the house owners were notified to remove it and substitute other and more sanitary drainage for the same service, which they did under direction of the Sanitary Agent. By requests of the owners or occupants, peppermint tests have been made in seven houses; inspections without tests were required and made in ten others; defective drainage was detected in three of the former and in four of the latter, and the defects were corrected by the owners under direction in each case.

During the year, sixty-one permits have been granted for improving the drainage. One public hearing has been given by the board relative to a stable nuisance, and such action taken in the matter as seemed appropriate.

In July, on earnest complaint, inspections were made of certain premises situated in the western part of the town, and as a result of these inspections the board, through the Sanitary

Agent, notified three parties to abate their nuisances by disposing of their hogs; after some delay, all complied with the orders given.

Between February 1st, 1897, and January 31st, 1898, the infected rooms after forty-one cases of scarlet fever, twenty-six cases of diphtheria, two cases of both scarlet fever and diphtheria, and two cases of consumption (the latter by request of the attending physicians) were disinfected by the board. During the absence from town of the disinfector of the board, Mr. W. E. Ward, from July 24th to October 9th, his duties were acceptably performed by Messrs. Young & Brown.

Respectfully submitted,

MICHAEL DUFFLEY,

Sanitary Agent.

REPORT OF THE INSPECTOR OF MILK AND VETERINARY INSPECTOR.

Brookline, Jan. 31, 1898.

To the Board of Health:—

Gentlemen,—I beg to submit the following: 195 cattle and their stables were inspected as per detailed report of June 18th. Five animals were quarantined during the year, three of which were destroyed and found tuberculous; the others were released by the Cattle Commission.

Improvements as to light and sanitary conditions were recommended and carried out in several instances.

Grave reflection was thrown on the inspection service by Mr. M. J. Hickey, who, contrary to the statute, kept cows without a license. The premises in the woods behind the Reservoir Pumping Station, were not suspected until their filthy condition was published in Boston. The offender was summoned to court, reprimanded, and placed on probation, after which he built a new stable and made other necessary changes in management.

Laboratory Report.

During the past year the number of examinations made in the laboratory have been nearly double that for the year preceding, and the scope of the work has been increased to include analysis of butter as well as milk and vinegar.

Butter analysis was not undertaken till well into the fall and but few examinations have thus far been made. To do this work it was necessary to increase somewhat the amount of chemical apparatus and make one or two changes in the laboratory fixtures, and with the approval of the Board of Health about $12 was expended in this way.

The adulteration of butter, cheese and vinegar, is regarded by law as of much less importance than the adulteration of milk and much less attention has been given to these substances, as shown by the number of analyses of each.

During the year there have been examined 348 samples of milk, 30 samples of vinegar, 5 samples of butter, and 24 samples of milk for number of bacteria, making a total of 407

examinations. This is exclusive of a considerable number of samples of various sorts that have been tested free of expense at the request of milk dealers and residents of Brookline, of which no regular account has been kept.

Of the 348 samples of milk tested for standard purity, 46 fell below the legal requirements, 9 were sour when received; 138 were passed on inspection without a complete analysis. This inspection consists of taking the specific gravity and estimating the fat by lactoscope. By this method it is possible to pass a considerable number of samples that are undoubtedly up to standard and as a consequence time is gained and a much larger amount of work can be accomplished.

Of the 30 samples of vinegar, 4 were spurious (taken from two dealers), 5 were evidently watered and 21 were of standard quality.

The purity of vinegar, although perhaps of secondary importance, is a subject deserving of more attention than it usually receives and while its consumption is not large a manufactured vinegar is often more injurious to health than watered milk.

The sale of spurious vinegar directly antagonizes the interest of farmers and fruit growers. In this connection the following is quoted from the report of the Dairy and Food Commission for the State of Ohio, given a few years since: —

"The vile and hurtful compound manufactured from drugs and acids should be forbidden a place in the trade, whether made within the state or without. And the low wine vinegars should be branded with their true name, and the coloring of such vinegar to simulate cider vinegar should be positively prohibited. Such an amended law would add $100,000 per year to the value of the Ohio apple crop and greatly promote the public health."

Massachusetts has the law and it should be enforced.

Of the five samples of butter examined, four were genuine. The fifth one was of doubtful purity, but the sample was too small for complete analysis and at the time of this writing investigation of the case is in progress.

The milk for bacteriological investigation was taken in two lots of twelve samples each, — the first lot from stores, taken in the afternoon, the second lot from wagons, taken in the morning. In each case the examination was made as soon as possible after collection. The samples of store milk ran from

about two million to six and a half million bacteria per cubic centimeter. These figures are very much the same as those obtained by similar experiments in Boston, Prof. Sedgwick of the Institute of Technology having found an average of over four and a half million in samples taken from stores in the city.

The highest number of bacteria in any one sample of the Brookline milk was 6,558,000 per c. c. Upon inquiry it was found that the same was supplied by a dealer who also had a record for low milk. It of course does not follow that milk of poor quality is necessarily dirty milk, but it seemed to be so in this case, and the things are apt to go together, as both conditions mean carelessness, if nothing worse.

The increased number of germs in milk is due to dirt from stables, cows, milk cans and careless handling, or in case the milk has been properly cared for, it means that it is not fresh, and therefore ample opportunity has been given for the multiplication of bacteria.

The samples of milk from the wagons were much better, running from a few hundred thousand to about two million per c. c.

During the year warnings have been sent to fifteen different dealers that their milk was below the standard and must be brought up. The form of this notice has been changed from that used heretofore and is now a printed card which reads as follows: —

TOWN OF BROOKLINE — BUREAU OF MILK INSPECTION.

You are hereby informed that the last sample of milk taken from you proved to be of poor quality, and that further violation of the Statutes relating to the sale of milk will be followed by prosecution.

. . . . . INSPECTOR.

To Mr. . . . . . .

These notices had the desired effect in most cases, and the milk was brought up to proper quality. One dealer went out of business just in time to save prosecution, and one case was prosecuted against P. McDonough of Boston. The defendant was found guilty, and a fine of $50 was imposed and paid.

The average of Brookline milk as shown by the report is above the average of Boston and many other cities. This may

be due to the fact that in Boston the dealers that make a practice of selling poor milk are more closely followed up, and a large proportion of the entire number of samples taken are from such dealers, while in Brookline the collector has taken samples for the most part indiscriminately from all the dealers. The Boston method, while resulting in a much larger proportion of prosecution, and of fines paid into the municipal treasury, is hardly practicable in Brookline, as it would necessitate paying a collector for a considerable part of his entire time.

Following are the milk analyses in detail for the year: —

I beg to express my appreciation of the efficient services of Clarence E. Fuller, collector, and H. Carleton Smith, chemist, who have so ably assisted me.

Respectfully submitted,

FREDERICK H. OSGOOD, M. R. C. V. S.,

Inspector of Animals, Provisions and Milk.

REPORT ON THE VITAL STATISTICS.

To the Selectmen of the Town of Brookline:—

The undersigned herewith presents the report of the vital statistics of the town for the year ending December 31, 1897.

Marriages by Months.

Months.	Whole Number.	First.	Second M.	Second F.	Third M.	Third F.
January	15	30				
February	14	27	1			
March	6	11	1			
April	25	46	1	2	1	
May	13	25		1		
June	44	83	2	3		
July	12	21	2	1		
August	14	27	1			
September	16	31	1			
October	26	51	1			
November	28	52	3	1		
December	9	17	1			
	222	421	14	8	1	

Of the above marriages, five were first of the groom and second of the bride; eleven were second of the groom and first of the bride; three were second of the groom and second of the bride; one was third of the groom and first of the bride, and two hundred and two were first of the groom and first of the bride.

Births by Months.

Months.	Whole No.	Males.	Females.
January	34	20	14
February	28	15	13
March	33	14	19
April	48	30	18
May	33	19	14
June	25	16	19
July	38	23	15
August	41	25	16
September	36	20	16
October	38	21	17
November	38	20	18
December	39	18	21
	431	241	190
1896.			
December	1	1	
	432	242	190

Of the above births five were twins, viz:—

Months.	Whole No.	Males.	Females.
April	2	1	1
May	2	1	1
June	2	1	1
July	2	2	
November	2		2
	10	5	5

Deaths, Sex, Condition and Age, by Months.

1897.	Disease.	Sex.	Condition.	Age. Years.	Mos.	Days.	Occupation.

Sick Poor, Miss Edgerly and Mr. James.

REPORT OF THE OVERSEERS OF THE POOR.

There is little new to report in this department. The number of the insane, the most expensive of our dependents, is one less than last year, twenty. In addition to these we have three persons in the School for Feeble Minded at Waltham. The net cost of these twenty-three persons has been $2,556.16, a very considerable decrease from last year. This decrease is owing in part to the reduced rate of board of persons supported at the Asylum at Medfield, but chiefly to the fact that $764.26, the property of a woman long supported at the Worcester Hospital at public expense, has been recovered by the town, and used towards paying her bills.

During the year three men have been at the Hospital for Dipsomaniacs, and, for some months, one man, requiring constant medical treatment, has been boarded at the State Almshouse at Tewksbury, at a cost of $2.00 per week.

At the Almshouse the number of regular inmates continues the same, eight, and during the year four persons have been admitted for periods varying from twenty-four hours to six weeks. The Almshouse continues under the same matron, Mrs. Campbell, and is in its usual excellent and satisfactory condition. The expenses have been $1,570.35, showing a slight increase over last year, owing in part to the increased price of certain staple articles of food, and in part to the necessity of employing some hired help for carrying on the work of the house, the inmates being generally old and feeble; partly also, to the necessity of providing a wooden leg for a man long a resident there.

The number of those regularly relieved outside the Almshouse is nineteen, and of these, fourteen are widows, nine of them with children; one woman has an insane, and one an invalid husband; one woman is crippled; and of the two men, one is a helpless cripple boarded with relatives in another town, and one is nearly blind. In each case the amount allowed is small and is given only in groceries. The list of those receiving partial or occasional relief contains

the names of three widows, who, having for several years received constant aid from the town, have, during the past year, become self-supporting. It also contains the names of two women deserted by their husbands and with young children, who will probably be a permanent charge for some time to come. Several persons living in other towns but having a settlement in Brookline have also received relief from time to time.

A considerable and increasing number of persons who have recently come to the town find themselves unable to obtain work and soon apply for relief. When this is furnished, notice is at once sent to the town of settlement, or if there seems to be no settlement, to the State authorities, and relief is continued or refused according to instructions received.

There are now five children under our care. One boy is temporarily at the House of the Angel Guardian; two, who for several years have been cared for through the Children's Aid Society, have recently been transferred to the care of the State, which also has charge of the other two. These four are boarded in homes in the country and are attending school and doing well. Two of them will become self-supporting in the spring.

A large amount is paid each year for medical attendance, either for the poor in their own homes, or for hospital treatment sometimes extending over a considerable period. The net amount paid for this has been $640.08, an increase of nearly $100.

Our appropriation for the year was $8,500. We have expended, after deducting refunds, $7,877.87, leaving a balance of $622.13. It does not seem probable that we shall require a larger amount for the coming year.

The usual tables are here presented.

Insane.

Bonacini Ferdinand	Medfield Asylum	$146 00
Burke Julia	Worcester Hospital	169 46
Collins Catherine	Worcester Asylum	169 46

In some cases persons receiving aid have either repaid the town before the close of the year or have given satisfactory promise to do so, and their names are therefore omitted from the list. This will account for the variation in the

figures given in different parts of the report. Hereafter it will be the duty of the Accountant to keep a record of such cases and to ascertain that they exactly account for the difference between the amount reported as spent and the amount accounted for in detail under each head.

ZEPH. R. FORBES, *Registrar and Clerk.*
FAYETTE F. FORBES, *Superintendent of Works.*
RICHARD J. FLINN, *Engineer at Low-Service Station.*
WILLIAM B. WEBBER, *Engineer at High-Service Station.*

REPORT OF THE WATER BOARD.

The Brookline Water Board herewith submits its twenty-second annual report, it being for the fiscal year ending January 31, 1898. As in former years the report of the Superintendent of the works and the engineers at the pumping stations, with pumping statistics, are appended.

At the annual town meeting held March 31, 1897, Oscar B. Mowry was re-elected a member of the board for three years. The board organized by the choice of William K. Melcher as chairman, and Zeph. R. Forbes was appointed as registrar and clerk. The work of the past year has been mainly of the routine order, — the laying of short street-mains and service-pipe constituting the year's extensions, and the usual care of the works the maintenance. A substantial gain has been made in the amount received for water-rates, and exceeds that of the previous year by $3,134. The works are in a very prosperous condition and are well equipped with modern appliances, so arranged that the best of economic results are obtained. The work of the past year is briefly summarized as follows :—

Street-Mains and Service-Pipe.

The ordinary extensions of street-mains for domestic purposes have been made in compliance with petitions received, and about 1,035 feet of two-inch pipe, which was found to furnish an insufficient supply, has been replaced by a six-inch main.

The Metropolitan Water Board have laid several of their large mains through different parts of the town during the past season, and by so doing have necessitated many changes in our distributing system. These changes were made by this department at the expense of the Metropolitan Water Board. In all we received for this special work the sum of $4,958.73.

A contract for cast-iron pipe and special castings has, in accordance with authority granted by the town, been closed, and the material will be delivered for early spring uses.

Our service-pipes have been increased by 193, making a total of 3,141 laid to date.

The cost of maintenance of both street-mains and service-pipe has been small, and no leaks have occurred in the force-mains. For a detailed report of the street-mains laid the past year, attention is called to the report of the Superintendent, hereto appended.

Meters.

The demand for meters has steadily increased, and at the time the annual bills were rendered,— January 1st,— an unusual number of water takers decided to change from the fixture to the meter method of paying water-rates. More than one-half of our water-rates are now paid by this method, and it seems evident that the old-time prejudice against water meters is dying out. The total number of gallons consumed the past year was 508,174,048, which, as nearly as can be estimated, gives a daily consumption of 78 gallons per capita. We find from the books of this department that about one-half of the water takers use meters, and the consumption as recorded by these meters amounts to 144,698,355 gallons; this gives but 44 gallons daily to each person taking water through a meter. It will be seen from the above comparison that meters reduce the consumption,— in reality the waste,— and consequently the cost of operating the plant. From a financial standpoint it is obvious that all supplies should be metered.

The number of supplies now metered is 1,454; of this number 49 are temporarily shut off, leaving the actual number of meters now in use in town 1405. The following table shows the make, number and size of all meters now in service:—

Name of Meter.	⅝-in.	¾-in.	1-in.	1½-in.	2-in.	3-in.	4-in.	Total.

Elevator Counters 14

Quality of Water.

The State Board of Health has made regular analyses of samples of water taken at the source of supply and from the reservoir, and have sent reports of the same to this board. These reports show that the water supplied to the town is of excellent and uniform quality, and that it is equalled by few and not surpassed by any public water supply in the state.

Buildings and Grounds.

No expenditures other than those occasioned by ordinary repairs have been made on the buildings connected with this department the past year, and all are in good condition.

The grounds at the low-service pumping station, West Roxbury, have received their usual attention and have been improved by shrubs and trees planted along the walks and river front. At the high-service station the grounds have received their usual good care by the engineer in charge.

Land taken for additional Water Supply.

It was stated in our last annual report that but one case, viz., that of Mary W. Gardner, remained to be settled. The commissioners appointed by the court made an award of $15,563.23 for the plaintiff, and as the balance of the appropriation for this purpose was less than this sum, the Selectmen authorized the payment of the same.

No case is now pending on account of damage resulting from takings of land. The mill owners, however, situated on Charles River below our works, have brought suit to be compensated for the additional million and one-half gallons of water which the Legislature authorized the town to take from Charles River. For further information in regard to these cases attention is called to the report of the town counsel.

Financial Statement.

George H. Johnson,
Oscar B. Mowry,
Water Board.

*Payment of $15,563.23, the award in the Mary W. Gardner case, authorized by the Board of Selectmen.

SUPERINTENDENT'S REPORT.

BROOKLINE, January 31, 1898.

To the Brookline Water Board:—

GENTLEMEN, — I have the honor to present herewith the annual report of the Superintendent for the year ending January 31, 1898.

Extensions of Water Mains.

(1) Extensions to Low Service —

St. Paul street from end of pipe as before laid to Freeman street	193.2 feet 10-inch pipe.
Harvard street, on north side from Thorndike street to Naples road	650.9 " " "
Kent street from end of pipe near Station street to Brook street	606.0 " " "
Linden street from Brook street to former end of pipe	329.0 feet 8-inch pipe.
Villa lane from Morss avenue	252.0 feet 6-inch pipe.
Kenwood street from Harvard street	492.0 " " "
Linden place to replace 2-inch pipe	522.7 " " "
Perry street from Brook street	597.0 " " "
Toxteth street from end of pipe as before laid	179.8 " " "
Stearns road from end of pipe as before laid to St. Paul street	242.4 " " "
St. Paul street from Stearns road to Longwood avenue	410.0 " " "
Gibbs street from end of pipe as before laid to Naples road	355.0 " " "
New street off Chestnut street	347.5 " " "
Chestnut place to take place of old 2-inch pipe	511.2 " " "
Bowker street	708.7 " " "
Howard street from Walnut street	399.5 " " "
South street from end of pipe as before laid	956.0 " " "
Park terrace from Park street	234.2 feet 2-inch pipe.
Total	7,987.1

(2) Extensions to High Service—

Glendale road from Heath street	398.9 feet 2-inch pipe.
Total extensions to High and Low Services	8,386.0

Service Pipes.

Number laid as per last report	2,948
Laid the past season	193
Total to date	3,141

The similarity of the text which is sure to characterize the annual reports is rather disheartening to those called upon to

write them each year; but there seems to be no other way to tell the story briefly.

The extensions to the street-mains are slightly less in length than the extensions of the previous year. This work includes relaying all of the 2-inch pipe in Linden place and vicinity with 6-inch, joining the dead ends, and setting four fire hydrants. The fire service of this neighborhood has been very much improved by this extension, and also by the extension of the 10-inch main on Kent street from Brook street to Station street.

The many changes in line and grade of the main and service-pipes, made necessary by the laying of the large Metropolitan water mains through the streets of the town, required all the time of one gang of men with foreman from June 24 to October 5, and consequently added quite largely to the work of this department.

The number of service-pipes laid exceeds by twenty the number of the previous year. Many of these supply large buildings, and will add sensibly to the water receipts of the present year.

The high-service standpipe was painted inside and out in July, during which time all the water for the high-service system was pumped directly into the mains.

No leaks have occurred in any of the main pipes, with one exception. In this case a 6-inch pipe was broken in two by the settling of the street. The six leaks in the service-pipes were all at the lead connections, and were caused either by excavations of trenches near them, or by the bursting of the old tin-lined lead pipes. No service-pipe was stopped up by rust or any other cause.

The hydrants have received the usual attention, and none have failed to work at a fire.

The grass of the lawns around the pumping station was cut at regular intervals during the summer months, and several shrubs and other plants set out around the low-service pumping station. The lawn in front of the last named station was extended to the river's edge, very much improving the general appearance.

The fence mentioned in the last annual report was completed in April, and all of the land owned by the town in Dedham is now properly protected from cows and horses which used to stray over these meadows.

No outlay has been required on the driven wells or filtering galleries, and the quantity of water was as abundant and the quality as good as during the previous year.

The consumption of water is larger by nearly the same amount as that indicated by the meters set in the Bath House. The usual use of water, therefore, has increased but slightly the past year.

The buildings have needed few repairs only. The high-duty engine still continues to give remarkable economic results, as the table following will show. The coal purchased in October, however, was of a cheaper grade, and this will probably lower the record for each pound of coal somewhat.

As recommended in the last annual report, and approved by the town at the March meeting, an assistant engineer has been employed at the high-service station since May. Pumping is necessary at this station now every day in the week, and one man could not do the work.

It will be wise to have a gong connected with the fire alarm in each of the pumping stations, to give the engineer instant notice of a larger demand for water. It is hoped that this can be accomplished in some way the coming year.

I subjoin the following tables, the record of consumption, etc., all of which is respectfully submitted.

F. F. Forbes,

Supt. Water Works.

Year Ending February 1.	Gallons consumed.	Coal consumed in lbs.	Revenue.
1883	180,041,804	760,910	$15,167 92

LOW-SERVICE ENGINEER'S REPORT.

Low-Service Pumping Station,
West Roxbury, Mass., February 1, 1898.

To the Brookline Water Board:—

Gentlemen,— I have the honor to present the report of the Engineer for the year ending January 31, 1898.

The total amount of water pumped by engines No. 1 and 3 is 508,297,023 gallons, an increase of 14,263,720 gallons over last year. The coal consumption shows an increase of 17,042 lbs., and the pumping time an increase of 152 hours.

Boilers.

The boilers are in good condition. They have needed no repairs during the year. They give as good an evaporation as formerly, although the coal used was not quite so clean as last year. The moisture in the coal was from 5 to 9 per cent, part of the cargo having been delivered during a heavy rain storm. A new check valve was placed in the feed pipe of boiler No. 1, the old one being worn out. The brick arches on top of boilers are now being covered with magnesia. This will — by preventing radiation — increase the efficiency of the boilers.

Pumping Engines.

Engines No. 1 and 3 are in good condition. The rubber packing in the high-pressure cylinder head of engine No. 3 blew out in July, and again in August. This was owing to the surface of the joint being faced off too smoothly. The joint was finally made tight with a wire cloth insertion packing, and has given no further trouble. The duty of the engine per 100 lbs. of total coal is somewhat better than last year, although the moisture in the coal was excessive. This duty is higher than that of any other pumping engine on record. With the exception of the joint in the cylinder head and a few new rubber valves in one of the suction-valve chambers, the engine has needed no repairs during the year, and is now in first class condition.

I subjoin the record of pumping engines, all of which is respectfully submitted.

Richard J. Flinn,
Engineer.

Coal for Heating Buildings, 65,121 lbs.

HIGH-SERVICE ENGINEER'S REPORT.

High-Service Pumping Station,
Brookline, February 1, 1898.

To the Brookline Water Board:—

Gentlemen,—I have the honor to present herewith the report of the Engineer of the high-service pumping station for the year ending January 31, 1898.

The boilers are in as good condition as should be expected after twelve years of constant use. The engines with all their connections are in excellent repair and no accident has happened to them the past year.

The consumption has increased to such an extent that it is now necessary to pump every day in the week, Sundays included.

An assistant engineer has been employed at this station since May last. Either the assistant or myself is ready to start the engine at any hour of the night or day in case of a fire, or for any other large demand for water.

As bituminous coal is now so much cheaper than anthracite it was thought best to use the former, and the year's supply is of this kind. The results per pound of coal are nearly if not quite as good, and consequently the saving in dollars and cents is considerable.

The usual care has been taken of the buildings and grounds. The following table will show the work done at this station the past year.

Respectfully submitted,

William B. Webber,
Engineer.

FORTY-FIRST ANNUAL REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

The report of the Librarian, herewith submitted, describes the work of the year.

The Trustees have a more serious matter than usual to lay before the town. In 1894, in view of the enlargement of the building and the development of the work of the library, an appropriation of $12,000 was asked for, received, and expended. In 1895, 1896 and 1897, this board discussed the propriety of asking a larger appropriation, but each year concluded that it was the duty of every public board, in such a time of business depression, to reduce its demands to the lowest amount consistent with efficient service. In each of these years, nothing was spent during the first ten months except for absolute necessities. In the last two months, if money appeared to have been saved by watchfulness and economy in current expenses, the board has devoted the surplus so saved to some of the extra needs which activity and progress always develop. In 1897 the board again asked for the same sum. They knew that a larger amount could be advantageously used, but they agreed that it would be possible to defer for another year the increase of expenditure which must finally come with increased work.

When our appropriation came before the committee appointed at the town meeting, it was cut down from the $12,000 asked for to $10,500, without consulting either the Librarian or the Trustees, without hearing or notice to the board, and without opportunity to get them together for protest or action in town meeting. Indeed, most of the members of our board learned for the first time of the reduction when they saw it announced in the newspapers. Though chagrined at this abrupt action, in which the Library was singled out among all the institutions of the town, the Trustees accepted the reduction as an instruction to contract expenditures, and have faithfully tried to keep within the amount appropriated.

The result of the experiment shows that while the library can be kept open for $10,500,—or indeed, for less money,—it cannot make any progress, nor can it keep its present position. After gradually losing headway, it must steadily retrograde, as books and equipment wear out, unless it is adequately supported.

In order to present the matter fully and clearly to the citizens who must decide this question, the board has asked one of its members, who has had exceptional opportunities for seeing and studying other libraries, to make a report on the condition and needs of the Brookline Public Library,—not in technical statistics, but in a way to be easily understood by the public. His report is appended hereto, and is fully endorsed by the board.

We ask for an appropriation of $15,000 for the coming year. Reference to Mr. Soule's figures will show that this is not in proportion to the increase of our work, as shown by circulation, but is only in proportion to the general increase in the town expenditures. We believe it to be the smallest sum with which our present headway can be maintained. If it is granted we promise our best efforts to make the library gradually more useful to all our people. It is our wish, and we believe it to be the wish of the town, to make the Brookline Public Library the best public library of its size not only in this commonwealth, but in the whole country.

CONDITION AND NEEDS OF THE LIBRARY.

To the Trustees of the Brookline Public Library:—

Gentlemen, — In making such a report upon the condition and needs of the Library as will aid the town in deciding upon the amount to be appropriated for its use during the coming year, there seems to be no necessity for going into details of management; these may properly be left to the Trustees to discuss at their meetings, and to the Librarian and his staff to work out in their daily duties. The questions which citizens are apt to ask, and which we must answer, are these: What kind of work is the Library doing? How does it compare with other libraries? Are its affairs managed efficiently and economically? What need is there for a larger appropriation?

First, then, as to the work the Library is doing. The idea of library functions prevalent a generation ago was like that of the town fountain or town pump, to which every one brought his own bucket to be filled. The modern idea is like that of the aqueduct and pipes which carry water into every household. The old notion was mainly to keep the books clean; the aim today is to get them used, — a change that carries with it constant care, work, and expense.

The Trustees of the Brookline Public Library have tried to keep abreast with this progress of ideas. They have been conservative in hesitating to accept every change suggested, but have adopted from time to time such improvements shown elsewhere to be practical, as seemed to be suited to the town. Those who use the library have noted how its accommodations and privileges have gradually broadened. By successive steps the new books have been brought out where they could be examined and handled; enclyclopædias, dictionaries, and other aids to study have been placed on the shelves of the reference room for free use by all visitors; atlases, works on art, and sets of magazines have been set out in the reading room; the children's room has been doubled in size; the reading room has been enlarged and improved, occupying the whole of the new wing; a card catalogue, with very full cross references and analyses of contents, has been opened to the public; literary notes, guides to discussions of topics of the day, and portraits

of authors have been posted up near the delivery desk; a bulletin of additions and information has been printed and distributed to every household five times a year; the librarian's desk has been placed in the reference room so that he could be accessible to all who wished help; the teachers and pupils of the public schools have been encouraged to use the library; the "two-book system" has been devised; an excellent musical library has been selected and set apart in a room by itself; a "Brookline alcove" has been devoted to books and pictures relating to the town and its inhabitants; a collection of photographs of master-pieces of art is being purchased and prepared for use; and now a large part of the interior of the library is to be thrown open to the public at all hours as freely as the counters of a bookstore. The Librarian is allowed time to attend meetings of the State and National library clubs, and to visit other libraries, and through him the Trustees keep close watch upon the tendencies and developments of library management throughout the world.

All this work has been done in addition to the daily routine, which though noiseless and mainly out of sight, keeps the library staff constantly busy, and ensures a prompt and thorough service of the public wants.

Secondly, — How does our library compare with other libraries?

To answer this question by statistics would require lengthy examination of reports and tabulation of returns, verified and corrected by personal inspection of the peculiar circumstances of the libraries compared; and after compilation the statistics would mean very little to the general public. It is not necessary, however, to take time for such an investigation, as there is a shorter and surer way of reaching the facts.

For thirty years the librarians of the United States have had a national organization, with annual "Conferences," monthly issues of technical magazines, frequent interchange of visits, and such thorough acquaintance that each library in the country is graded to a recognized position. If the opinion of members of this organization can be ascertained, it is the best possible expert testimony as to the merits or demerits of a library.

In order to test the reputation of the Brookline Public Library, I have written to the president and secretary of the

American Library Association, asking how they should rank us as to progressiveness, condition, efficiency and influence. Mr. Putnam, the president, was formerly librarian of the Minneapolis Public Library, and is now librarian of the Boston Public Library, with close knowledge of library affairs in the West as well as in the East. Mr. Dewey, the secretary, is the founder of the Library Journal, the Library Bureau, and the Library School, and is now Secretary of the Regents of the University, and *ex-officio* State Librarian of New York. They answer as follows: —

"I have no hesitation in responding that in general repute the Brookline Public Library stands in the front rank of libraries of its type in the United States. It is, I believe, agreed to be admirably administered in the departments of work which it has in common with other libraries of its type, and it has secured a prestige for special activities, many of which have been entered upon by other libraries only upon its example. I know of no library of its type so commonly visited by librarians in search of improvement of method and a more varied range of service.

"HERBERT PUTNAM."

"You ask my unprejudiced opinion of the comparative standing of your library. There are few institutions of the country concerning which I should be willing to speak more frankly to one of their officials. The Brookline Public Library is commonly looked on by those familiar with library work of its type all through the country, as among the foremost in efficiency and influence. It has won a place where it is often quoted and referred to as the type of the best American public library.

"MELVIL DEWEY."

These opinions, from men especially qualified to judge, should sufficiently answer the second question.

Thirdly,— Are the affairs of the library administered efficiently and economically?

Comparison of statistics with other libraries would mean something to experts, but very little to the public. A more convincing comparison may be made between the library and the other departments of the town government.

The citizens of Brookline are probably satisfied, on the whole, with our scale of expenditure. While there may be occasional uneasiness as to outlay in one direction or another, our voters apparently consider the business management of the town to be wise, honest, and as economical as a progressive public administration can be expected to be. Assuming this to be the case, it will be instructive to compare the expenditure of the library with that of other institutions of the town.

In 1893 the library building was enlarged, and the expenses of operating it were proportionately increased. In 1894 the Trustees asked for and received an appropriation of $12,000. Taking this year as marking the beginning of the present phase of library management, and comparing expenses for the four subsequent years, — 1894 to 1897 inclusive, — we may note that the population of Brookline increased during these years 16 per cent; the total expenditure increased 25 per cent; salaries increased 30 per cent; the School appropriation increased 22 per cent; the Police appropriation increased 19 per cent; the Fire Department appropriation increased 21 per cent. Appropriations for other departments increased, as might be expected, with the population. The only department which did not increase its expenditures during this period, was the Public Library.

In 1894, 1895 and 1896, the Trustees asked for and received the same sum, $12,000. In 1897 they asked again for only $12,000 and were cut down to $10,500, a reduction of 12½ per cent.

This comparison would seem to show that the management of the library has been comparatively economical. As to its efficiency, the rough but fair measure of usefulness in a library is its circulation. As it costs more, generally speaking, to educate ten children than five, so it should cost more to circulate ten books than five. If the circulation grows more slowly than expenses, explanation is necessary to vindicate the management. If the circulation increases in greater ratio than the cost, the presumption is that the management is efficient.

How does our library stand this test?

In 1894 the home circulation was 67,904 volumes; the library use, 17,790; total, 85,694. In 1897 the home circulation was 92,963; the library use was not counted because so many books had been put outside for free consultation, and they were so constantly consulted that their use got beyond counting. Estimating, however, that it increased as much from 1896 as before, the library use in 1897 was at least 26,318, and the total use 119,281 volumes. Thus in these four years the output of the library increased from 85,694 volumes to 119,281, — nearly forty per cent. Such an increase in results without increased expense does not seem like inefficiency.

Fourthly, — Why is a larger appropriation needed?

The Trustees have tried, during the year, to administer the library satisfactorily with the $10,500 granted to them. The experiment shows that the sum is barely sufficient for the fixed charges, — care of building, heating, lighting, necessary repairs, salaries, and the purchase of magazines and a minimum quantity of current literature. Nothing is left of the year's income for the many needs of growth and development. To show what these needs are, a few of the most pressing may be enumerated : —

1. *Replacing Soiled Books.* — Popular books become gradually so grimy as to be repulsive to the sight and dangerous to health. Covers can be replaced, but when the inside of a book gets filthy it should be withdrawn from circulation and replaced by a clean copy.

The Librarian estimates that there are over a thousand volumes now in circulation which have reached the stage of offensiveness. The Trustees intended to withdraw these, last year, but $1,000 required to replace them, had been cut off by the town, and this requisite of neatness and health had to be deferred.

2. *Changes in the Card Catalogue.* — With the growth of the library, the trays in which the public catalogue is arranged have become over-crowded. Rearrangement is required, and as the room now used for the catalogue is greatly needed for other purposes, the Trustees are considering a plan for condensing the catalogue into cabinets and moving it to another part of the library. This change will require another $500.

3. "*Open Shelves.*" — The opening of the shelves of the main part of the library to the public, if it proves to be a permanent success, will necessitate several changes in interior arrangement and some new furniture. How much these changes will cost cannot as yet be estimated.

4. *Filling Gaps.* — The increased use of the library by teachers, school children, and members of literary clubs is constantly disclosing deficiencies in various lines of literature. Two years ago a considerable sum, saved from the annual appropriation by economies in lighting, was devoted to making good such defects as were then most apparent ; but each year's use brings to light new needs. While our present minimum expenditure allows for a limited purchase of books of the day, extra amounts are wanted, from time to time, for standard

works to strengthen the parts of the library most constantly used. To take one instance: more books are needed now in the enlarged children's room.

5. *Enlargement of the Reference Room.* — The small room at the right of the entrance, in which the books of reference are shelved, is often uncomfortably crowded. Already many books which belong in this room have been removed to the reading room. Some radical changes must be made soon to provide proper facilities for this important branch of our service; and even the simplest changes will require outlay for shelving, carpentry and furniture.

6. *Better Approaches to the Delivery Desk.* — Two roomy additions have been made to our building, but the solid walls and partitions of the original structure prevented such changes in the interior as were desirable, and the space in front of the delivery desk, which has to serve both for a passageway and a waiting-room, is cramped and inconvenient. If funds were available, some of the partitions might be removed, and the approaches opened out to great advantage.

7. *School Work.* — The library already co-operates with the schools by lending extra books to teachers, and by encouraging pupils to use the reference books. Much more work is, however, possible in this line. A committee of the Education Society is now maturing plans for more active relations between the library and the schools. If these plans prove to be practicable, and are deemed by the Trustees to be a proper function of the library, money will be required for equipment, duplication of books, and superintendence.

8. *Delivery Stations.* — Many libraries provide a daily service for the delivery and collection of books in outlying districts. Very little has been done in this direction in Brookline, partly because there has been no pressing demand for such facilities, partly because no money has been available for the purpose.

9. *Salaries.*—The rapid development of the American library system is beginning to require librarians of special training, tact, intelligence, and administrative ability. Several Library Schools have been established, and through the demand for able librarians on the one hand, and this professional education on the other, the salaries paid throughout the country have increased so rapidly that your Trustees have already

been confronted with the problem — How much can the library of a town like Brookline afford to pay in salaries? The wealth and intelligence of the town both justify and demand the best service, but the maximum salary for a chief librarian is already $6,000. How far toward this sum can we afford to go, in order to get and keep a first-class librarian and competent assistants?

As the public library is often called the People's University, we can perhaps best get a proper sense of proportion and standard of expense by comparing the library with our schools. Why should not the library, in its manifold intellectual activities, coming into contact with our whole population, be ranked as an institution with the High School? At present our salaries are not much more than half those paid the teachers of the High School. Just where the limit must be set is the problem the Trustees are considering. But in any event increased circulation and enlarged activities are sure to require more assistants, and a higher grade of work is bound to require a higher grade of service, which will tend to larger salary charges.

Here are nine fields for extraordinary expenditure, and others open year by year. In no one of these nine directions can the library advance unless the town deals more liberally with it than in 1897.

The importance of library work in an enlightened community, and the necessity of giving it a cordial support, are clearly stated in the letters of Mr. Putnam and Mr. Dewey, already quoted above. Mr. Putnam continues: —

"A school acts directly along specific lines within definite limits, upon a limited number of ascertained individuals for a limited object. Its work can, therefore, be equated; the results attained compared with the effort expended. The public library acts also indirectly along varied lines, upon an indefinite number of individuals, of different ages, character, intelligence, and occupation. It helps to the direct education of those who are now students, it offers material for those whose systematic mental training is complete, and it offers perhaps the only opportunity for education to many adults who have never received systematic mental training. In addition, it exercises au educational *influence* which is pervasive. These varied types of service can never adequately be put into figures which will do the library justice as compared with the school. If they could be estimated they would, I think, show that no expenditures for any other branch of education exhibits such varied returns or returns more important to the community. I therefore consider what I have

been able to say above in tribute to the Brookline Public Library as simply a recognition of the efficiency of the educational system of Brookline, in a department which is of incalculable value in itself, as well as indispensable as an adjunct."

Mr. Dewey concludes thus: —

"But the Brookline Public Library has a place so high that its recent reputation can be maintained only by constant progress. There never was a time in the history of the world when so many communities were realizing that the library was just as essential a part of their public educational system as are the schools in which instruction is given by direct teaching instead of by reading the best books. With the library as with the schools, as soon as a community rests complacently on its laurels, it is outstripped by those who realize that satisfactory education costs not only persistent enthusiastic effort, but large sums of money. It is not in human possibility to maintain a good library in a large community without liberal appropriations as well as earnest effort on the part of the staff and the trustees. The fact that Brookline has also the reputation of being the wealthiest suburban community in the country lays upon it the duty of maintaining and advancing the high reputation of the past in regard to its admirable library."

These letters may properly conclude my report.

Respectfully submitted,

CHARLES C. SOULE.

E. & O. E.,

R. G. F. CANDAGE *Treasurer.*

This certifies that the undersigned examined the foregoing accounts with vouchers, find same properly vouched and correct, with balances as follows: Town appropriation, due treasurer $4.02; Gardner Fund balance on hand, $203.80, and evidences of investments as above stated.

DESMOND FITZGERALD.
EDWARD B. HILL, *Town Accountant.*

REPORT OF THE LIBRARIAN.

Brookline, February 1, 1898.

To the Trustees of the Brookline Public Library: —

Gentlemen, — My fifth annual report for the year ending January 31, 1898, is herewith respectfully submitted. With the growth of the town new problems are constantly arising, and the demands upon us are more varied. It has been our aim to meet these changing conditions thoughtfully; and while keeping in mind the main purposes of our work to add here and there something that shall be fresh and attractive to those not familiar with the library.

Accessions.

The catalogue of accessions for the year records 2,766 volumes and 287 pamphlets.

Books added by purchase	1,926
" " " gift	566
" " " binding periodicals	274
Total	2,766

Of the books purchased (1,926) there were 271 to replace books withdrawn, leaving a gain in new books of 1,655.

New books added	1,655
Gifts added	566
Bound periodicals added	274
Total	2,495
Books withdrawn	165
Net gain	2,330
Number of volumes in the library (1897)	45,250
Number of volumes in the library (1898)	47,580

Circulation.

The statistics for the library year of 305 days show the following figures: —

Home use (desk account)*		93,852
Home use (trustees' account)		1,184
Special privilege slips	137	
Over-night slips	60	
Union Reading room		985
Chestnut Hill station		892
Total home use		96,913

* The circulation of music was 2,547, a gain of 846 over last year.

The total circulation for home use exceeds that for last year by 3,950, a gain over last year's increase. The average daily circulation for home use was 318. The largest circulation in one day, January 22, was 646. The circulation for January was 9,956. There were 1,143 persons to whom borrowers' cards were granted during the year. This implies that we give a card to about every new citizen of the town and also to every child who reaches the age of twelve during the year; or, to assume a more probable condition, that we reach a fair proportion of these two classes, and also attract to the library some citizens who have not heretofore used the library. The registration slips, which bear the signatures and addresses of all card holders, have not been revised since 1885. While they form an unusually accurate register for a population growing rapidly and subject more or less to change, it is time for a careful revision. With this end in view, borrowers' cards of a different color have been printed, and beginning February 1st we hope to use them in preparing a new register without inconvenience to the public.

The library has sent 1,183 notices for books overdue. The sum of $466.98 has been collected in fines. The record of books bound and rebound is 801. During the year 8,225 volumes of fiction were covered. The number of children who used the children's room was 16,905.

The Work of the Year.

Much of the work done from day to day may be of lasting value, and yet may be entirely unknown to the public. We have, for example, made available much material on widely varying subjects by cataloguing fully the Essex Institute Collections, the Old South leaflets, and the Reader's Bible. Tables of contents of books noticed in the Supplement to the printed catalogue of 1881 have all been cut out and added to the cards in the card catalogue, thus making sets of collected works much more useful.

In many cases rearrangement of books has increased the usefulness of the library by bringing more closely together the works on each subject. Probably as many as twenty thousand volumes have been moved or renumbered during the year with this object in view.

Newspapers.

The newspapers, our best source of contemporary history, are possibly as complete as can be expected for a town like Brookline. We have at least one volume for each year from 1793 to date, except 1827–37, and a year here and there. I hope some citizen may be interested to make good these defects in the collection. The volumes now lie flat on the shelves and will be better preserved in the future. They have already proved of value.

Lists.

The library has printed a new music list, a list of historical fiction, and in the bulletin a series of lists of best books.

New Books.

Among the works imperatively needed and purchased to meet frequent calls were: A set of guide books, works for study in connection with the C. F. Sprague lecture course at the High School, illustrated works in the departments of art, architecture and costume, plays for amateurs, and the collections of the historical societies of the New England states outside of Massachusetts.

To learn more fully what the public want, blanks have been printed for "books never in." These have been of use in determining the popularity of various works.

A Field for Growth.

Among our visitors have been the custodians of branches of the Boston Public Library, and the supervisor, Mr. H. C. Wellman, formerly of Brookline. Two teachers in the schools, Miss Lewis and Miss Rogers, have brought their classes to the library for study. This experiment has, I believe, proved very successful, and suggests a field of unusual attractiveness for the future. If it seems to tax the resources of the library it at the same time points out a line along which we may find expansion desirable.

Exhibitions.

Our exhibition of rare relics of the frigate Constitution, belonging to Dr. Shurtleff, of photographs, and of colored pictures of birds, were attractive and at the same time in harmony with the educational purposes of a library.

Gifts.

Among the many generous gifts during the year were: A legacy of $500 from the late Rev. Caleb Davis Bradlee; a collection of valuable music from Mrs. Mary A. Bishop of Cambridge, in memory of her daughter; rare books from Frederick L. Gay, Esq., continuing his interest in the historical department of the library; the Army and Navy Journal, from Mrs. Theodore Lyman; Records of the Armies and Navies of the Civil War, from Mrs. Joseph F. Green; valued mementos of a citizen of Brookline, from his widow; government maps, etc., from Hon. C. F. Sprague and E. W. Baker, Esq.; large photographs, framed, from James M. Codman, Esq.; and contributions in November toward a fund for the purchase of photographs of famous works of art, from Hon. Charles F. Sprague, Mrs. Arthur W. Blake, Miss Julia Goddard, William Whitman, Joseph H. White, J. Randolph Coolidge, Charles S. Sargent, C. U. Cotting, William E. Cox, and Alfred Winsor. The money given by these citizens will make possible a movement, not unknown in other libraries, for a higher conception of beauty among our people.

Other Matters.

Our local history collection is more and more used, and much has been done during leisure moments to perfect this part of the library. Miss Smith has returned to the Cambridge Public Library, and Miss Hooper has taken her place. Miss Phebe Candage has become a member of the library staff. Although any changes affect for a time the efficiency of the force, our work has gone on steadily and smoothly.

CHARLES KNOWLES BOLTON,
Librarian.

APPENDIX A.

GENERAL CLASSIFICATION OF THE CIRCULATION FOR 1897–98.

CLASSES.	Feb.	March.	April.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Jan.	Total.
Fiction	5,784	5,918	4,975	4,715	4,619	4,126	3,698	4,316	5,037	5,668	5,364	6,289	60,509

THE PUBLIC SCHOOLS.

THE SCHOOL COMMITTEE.

ORGANIZATION, 1897-98.

	Term Expires.	First Elected.
Mrs. Elizabeth Cabot	1898	1889
Michael Driscoll	1898	1874
William H. Lincoln	1898	1873
Mrs. Annie E. Crane	1899	1889
Prentiss Cummings	1899	1896
Frederick B. Percy	1899	1892
James R. Dunbar	1900	1895
J. Emory Hoar	1900	1897
Joseph Walker	1900	1897

William Henry Lincoln, *Chairman.*
Joseph Walker, *Secretary.*
Samuel T. Dutton, *Superintendent.*

ANNUAL REPORT OF THE SCHOOL COMMITTEE.

The School Committee of the town of Brookline herewith submit their annual report for the year closing January 31, 1898. The members of the board, as now constituted, with the dates when their terms of service expire, are shown on the opposite page.

At its first meeting held on April 12, 1897, the committee organized by the election of Mr. William H. Lincoln as chairman and Mr. Joseph Walker as secretary. At this meeting it was suggested to the committee that it would be productive of good results in securing unity and continuity in the work of the lower and higher schools, if sub-committees were appointed to consider various branches of school work rather than to have charge of certain schools, as at present. The rules of the committee were subsequently changed so as to carry out this suggestion, and the following sub-committees appointed: —

Teachers — William H. Lincoln, Mrs. Elizabeth Cabot, J. Emory Hoar.

Finance — J. Emory Hoar, Joseph Walker, Michael Driscoll.

Course of Study — James R. Dunbar, Mrs. Elizabeth Cabot, Prentiss Cummings.

Buildings — Michael Driscoll, Frederick B. Percy, Mrs. Annie E. Crane.

Evening Schools — Joseph Walker, J. Emory Hoar, Mrs. Annie E. Crane.

The various schools were assigned for visitation and inspection as follows: —

High School, Prentiss Cummings; Heath and Newton, Mrs. Elizabeth Cabot; Lincoln, Michael Driscoll; Parsons and Winthrop, Mrs. Annie E. Crane; Pierce Grammar and Sewall, J. Emory Hoar; Pierce Primary and Boylston, Joseph Walker; Lawrence and Longwood, William H. Lincoln; Cabot, Frederick B. Percy; Devotion and Runkle, James R. Dunbar.

Resignations.

The following teachers have resigned their positions during the year: —

Miss Annie B. Tomlinson, Miss Frances C. Goodwin, Mr. Charles E. Sawtelle, of the High School; Miss Gertrude M. Gleason, Miss Elizabeth Gleason, Miss Verna Cobb, Miss Stella W. Carroll, of the Lincoln School; Miss Hortense M. Wiggin, Miss Dora T. Maine, Miss Harriet M. Blake, of the Lawrence School; Miss Harriet E. Richmond, Miss Isabel W. Robinson, Miss Anna M. Wakefield, of the Edward Devotion School; Miss Helen A. Harris, Miss Mabel Blaikie, Miss Elizabeth C. Allen, of the Sewall School; Miss Helen N. Bryant, as substitute.

New Teachers.

The following persons have been appointed during the past year and assigned to positions as indicated in the list of teachers published herewith: —

In the High School, Mr. Clarence R. Hodgdon. Owing to ill health Mr. Hodgdon was compelled to resign at the close of the fall term and his place has been filled by Mr. Perley O. Place. Miss Bertha C. Marshall took the place on February 1st, made vacant by Miss Annie B. Tomlinson. Miss Abbie L. Paige was appointed as secretary to the Principal.

In the Pierce Primary School, Miss Mabel L. Bement.

In the Lawrence School, Miss Cora W. Reed, Miss Mabel L. Fall and Miss Kate W. Nelson.

In the Lincoln School, Miss Mary A. Connor, Miss Celia P. Battles, Miss Mary E. Greene and Miss Cordelia J. Stanwood.

In the Devotion School, Miss Elizabeth M. Stebbins, Miss Florence A. Oliver, Miss Helen B. Kendall.

In the Longwood School, Miss Mabel Blakeslee as assistant.

In the Sewall School, Miss Florence C. Bliss and Miss Grace E. Pendleton.

In the Heath School, Miss Lilian A. Smith, Miss Ellen B. Marsh.

In the Runkle School, Miss Louise E. Rand, Miss Mary H. Lewis.

In the Old High School, Miss Ada E. Chevalier, Miss Ethel A. Tillinghast.

As Assistant in Drawing, Miss Marion L. Peabody.

As Assistant in Physical Training, Miss Sarah H. Jacobus.

As Substitute, Miss Agnes Andrews.

Transfers.

At the opening of the term Miss Mary E. Raymond was transferred from the Pierce Primary to the Edward Devotion School. Miss Grace E. Robarts, from the Heath to the William H. Lincoln School. Miss Helen Newell, from the Longwood Kindergarten to the Runkle Kindergarten.

Miss Elizabeth Gambell acted as substitute during the fall term at the William H. Lincoln School.

With the completion of the new Bath House the question of making swimming a feature of the instruction in physical training was seriously considered by the committee and it was decided to ask the town to make a special appropriation of $500 for the instructors of this branch. The town passed the necessary vote and Mr. Lionel A. B. Street and Miss Beatrice K. A. Street were appointed as teachers. For further particulars regarding the success of this department, reference is made to the sub-report of Mr. Street.

School Accommodation.

The constant growth of the town and the consequent demand for increased school accommodation has engaged the attention of the School Committee during the past year. To provide for all the demands that will be made will require a considerable addition to our number of school buildings, and is a most important subject. The School Committee have given much thought to this matter, and it is a problem not so easy of solution and beset with difficulties. We have found at times considerable obstacles in the way of obtaining suitable and convenient sites for school buildings, — the cost of land in some sections of the town would be great and frequently the owners decline to sell or ask unreasonable prices fearing that their land remaining and in close proximity to a school building would be seriously depreciated. Thus far, no serious inconvenience has been experienced on the part of our citizens in any section of the town, and we have been able to accommodate all the children applying for admission. This gratifying result has been due to the prompt action on the part of the town in carrying out the plans submitted by the School Committee. The committee have already applied to the town for a new Grammar school building containing six class rooms on the Edward Devotion lot and the town has

authorized contracts for the same; also, a new Grammar school of twelve rooms to take the place of the Pierce Grammar school building, thus supplying a long needed want. The town has directed the purchase of about 30,000 feet of land adjoining the Lawrence School lot upon which a Primary school building of six rooms is to be erected. It is intended by this to relieve the present Longwood School and to provide for the growth of the town in the immediate neighborhood. These buildings should take care of the sections in their vicinity, but the densely populated section in the vicinity of the Lincoln School calls for immediate consideration. It should be borne in mind that there are four Primary schools that send their graduates to this one school, namely, the Winthrop, Parsons, Boylston and Sewall; whereas, in respect to our other Grammar schools, but one or two Primary schools are connected with the Grammar school in the respective district. The Cabot School divides its pupils between the Lawrence and the Pierce Grammar schools, and in addition the Lawrence receives graduates from the Longwood, and the Pierce Grammar from the Pierce Primary School. It will thus be seen that the situation in the Lincoln School is quite exceptional. Fortunately we had as annex to the Lincoln School the large Manual Training School building, and we have been able to utilize these class rooms for the large increase in the number of pupils. The Lincoln School building contains eight class rooms and there are six more class rooms now in use in the annex, making fourteen rooms and five hundred and thirty-seven pupils. These are only for the grammar grades, six in all, so it will be seen that a number of rooms are required for each grade. The fifth and sixth grades each require three class rooms, so large have these classes become, and the upper or graduating class is obliged to occupy two class rooms. The room that was only intended to be used as a drawing room, in the upper story, has been converted into two class rooms. It was not designed for such a purpose and is not well adapted to this use, either in respect to size, heating or ventilation. What is imperatively required is a new Grammar school building of six or eight rooms in the vicinity of the Sewall School, on Cypress street, and we recommend to the town the purchase of a suitable lot of land and the erection of a Grammar school building thereon the coming summer.

With the buildings already authorized and the new one suggested, the town should be sufficiently provided with school accommodations for several years.

The most prominent and distinguishing feature in our system of education, more particularly in relation to our Grammar schools, is the manual training. It has fully accomplished all that was claimed for it. It commands the interest of the pupils and exerts a most beneficial influence upon the various branches not immediately connected with it. It has been found that the time devoted to it has not detracted from the interest or impaired in any way the progress in other studies, but on the contrary has served as a stimulus all along the line of a general and complete education. The training of the faculties, strengthening of the powers of application, cultivating habits of industry, of attention, of perseverance, of correct performance, all have a most important influence in developing character. The pupils are not only deeply interested, but realize its importance as a most valuable factor in their instruction and progress. The result has been that they remain in school a much longer period than ever before, and in many cases the parents make unusual sacrifices in order that their children may secure all the benefits possible to be derived from it. It is eminently practical both in its workings and in its results. The girls in the sewing and cooking schools, and the boys in the mechanical drawing and carpentry and woodworking departments acquire most practical and beneficial knowledge. We cannot speak too highly of the success that has been accomplished, — the excellent character of the work testifying to the superior instruction the pupils have received, and the enthusiasm and faithfulness manifested by them. It has passed beyond the stage of experiment, and is now an acknowledged power in all systems of early education. It is firmly established in our Grammar schools, but the facilities are lacking in the Heath School, so that the boys in that school do not have equal advantages. It is desirable to furnish accommodation for the work in carpentry, and to this end a small room should be provided. It is estimated that one thousand dollars will be sufficient to accomplish this and also equip the room with the tools, benches, etc., and we request the town to appropriate this sum, believing that the benefits to be derived will fully justify the outlay.

Lectures, Concerts, Gifts, Etc.

It is proper to mention some features of the work of the Brookline Education Society which contributed directly to the welfare of the schools.

In addition to discussions and lectures intended to create a broader understanding of educational questions and to secure a more thorough coöperation in the community, the Music Committee provided an excellent series of four concerts for the young people, which were given in Shailer Hall during the months of April and May. These concerts interpreted some works of the great masters and were much appreciated and enjoyed.

The loan collection of paintings in the lower Town Hall, arranged by the Art Committee, was a distinct educational work and made a deep impression, not only upon teachers and pupils in the schools, but upon large numbers of citizens who were able to visit it.

The preparation of a small text book on local history by the History Committee, the holding of Mothers' Meetings for the consideration of matters connected with the training and care of children, and the interest taken in physical education by the sub-committee having charge of that branch, are particularly to be commended.

The schools have been the recipients of several valuable gifts from citizens during the past year. The rooms of the Edward Devotion School have been embellished with unusually choice and carefully selected pictures and casts, through the generosity and endeavors of the patrons of that school.

The High School has received from Miss Ellen Chase, a beautiful statue of St. George by Donatello. A beautiful collection of nearly two hundred and fifty mounted birds and several hundred bird skins collected by the late Gordon Plummer, has been purchased and presented to the school by Mr. John P. Webber. The committee has made prompt recognition of the value of this gift and of their appreciation of the same by having constructed for it a fine case in the upper corridor of the school.

Through the generosity of Mr. Desmond FitzGerald and Mr. George W. Armstrong, Miss Weir, the Instructor in Art, was enabled to purchase some seven hundred photographs for the use of the schools. These photographs are to be properly

labelled, classified and placed in portfolios and kept at the High School to be loaned out to the other schools as desired.

Finances.

The new Accounting department of the town has made it practicable for the School Committee to put in operation a plan for analyzing the school expenditure in such a way as to show not only the total cost of the schools for the year, but the cost separately; 1st, of the High School; 2d, of the Grammar and Primary Schools; 3rd, of the Kindergartens; 4th, of the Manual Training and Domestic Arts; 5th, of the General School Expenses; 6th, of the Evening Schools.

The amount of each of the principal items of expense under these headings will also be shown separately, as for instance, salaries of teachers, text books, supplies, interior repairs, etc., etc. This plan goes into operation from February 1, 1898.

An analytical table showing these expenses will be inserted in future school reports. The table will also show the amount of each of the principal items of expense per pupil. This table will enable the town readily to ascertain for what the money appropriated for schools has been spent. A comparison of these tables from year to year will reveal which items of expense are responsible for any increase in the total expenditure, and for any increase in the expenditure per pupil.

Appropriations.

For several years past five separate appropriations have been made for school purposes, viz.: 1st, for the Schools generally; 2d, for Text-books and supplies; 3d, for Evening Schools; 4th, for Interior repairs; 5th, for Truants.

The committee feel that this division of the total school appropriation is neither natural nor logical, and they find that in practice it does not work well. It is difficult, if not impossible, to draw the line between what has been considered "supplies" and other school expenses. The committee, therefore, recommend that for the ensuing financial year the special appropriations for "Text books and supplies," for "Interior repairs," and for "Truants" be dropped, and that these items of expense be provided for in the general school appropriation. In future, after the proposed plan for analyzing the school expenditure has been in operation for a year, if the town thinks best so to do, it may make a more logical and satisfactory

division of the general school appropriation. Also, in order to bring all the expenses properly chargeable to the schools into the school accounts, the committee recommend that the exterior repairs of school buildings be made by them.

Estimate of Expenses for 1898.

			Expended, 1897.
1.	For the High School	$26,000 00	$25,062 63
2.	Grammar and Primary schools	72,500 00	70,100 56
3.	Kindergartens	13,000 00	12,542 53
4.	Manual training and domestic arts	11,500 00	11,369 43
5.	General school expenses	10,500 00	10,460 33
6.	Evening schools	1,500 00	978 29
	Total	$135,000 00	$130,513 77

For 1897.

Appropriation for day schools	$126,200 00
Appropriation for evening schools	1,000 00
Total	$127,200 00
Receipts	3,385 00
	$130,585 00

The committee estimates its receipts for the ensuing year at $3,000, and this, in addition to the apppropriation of $135,000, making in all $138,000, it is estimated will be sufficient for all expenses.

For further details of the work of the year, reference is made to the report of the Superintendent, the special department reports, etc. Certain statistics are also appended at the close of the report.

All of which is respectfully submitted.

William H. Lincoln,
Joseph Walker,
Frederick B. Percy
Michael Driscoll,
J. Emory Hoar,
Mrs. J. Elliot Cabot,
Mrs. Joshua Crane,
Prentiss Cummings,
James R. Dunbar,

School Committee.

SUMMARY OF STATISTICS, 1897–98.

Assessed valuation of real and personal estates of Brookline, May 1st, 1897		$64,169,200.00
Value of school buildings and grounds, May 1st, 1897		$935,500.00
Value of other school property as shown by inventory of town property taken February 1, 1898		$50,864.74
Salaries of teachers	$85,498.39	
Other salaries	5,632.00

" " under five years of age		262

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee of Brookline:—

Another year has passed and it becomes my duty to report upon the work accomplished in the schools. While little of unusual interest has transpired, the year has not been wanting in those events which add to the sum of what has been achieved in the past. One new school-house has been opened. About twenty new teachers have entered the service of the town, several of whom have brought to the force much new life and strength.

Perceptible progress has been made in developing the social aspects of the school, in establishing self-government and in calling forth the best impulses and energies of every pupil. Good order, cheerful coöperation and a good degree of studiousness are quite universal and, in many instances, these qualities are manifested to such a degree as to impress visitors with the idea that the schools are above the average standard. It may be said in this connection that it is due to no solicitation on the part of those connected with the schools that many people flock hither from all parts of the country to see what is being done. The presence of so many visitors is, in a certain way, embarrassing, not to say dangerous, but I am sure the head of no one has been turned, and teachers and pupils work on quietly and faithfully, experiencing only a just and pardonable pride in the thought that their labors are appreciated. Under such conditions there is no lack of stimulus, for all feel a desire to make good the expectations of any who may choose to inspect their work.

What is being done in the cause of popular education in Brookline is only a fragment of that larger work which is going on throughout the country. Never was progress so rapid as at present. The new education, wisely conceived and broadly administered, is now, and is to be, a mighty social force carrying its blessings of intelligence, thrift and happiness into the homes of the people and safeguarding the Republic against those dangers that beset any attempt at government by the people.

The Social Aspects of the School.

During the current year an earnest effort is being made in all our schools to foster a better social life, to make every phase of conduct and activity consistent with the highest ideals of social service. The teachers' meetings have been largely occupied in discussing this subject and all have seemed to feel its importance. The conclusions reached thus far point to the idea that the feelings, motives, sentiments and ambitions that determine the conduct of the pupil are as of great, if not greater, consequence than the lessons he learns and the knowledge he acquires and that all school exercises find their highest usefulness in the moral tone which they arouse and in the habits of application for the performance of any service which they establish. The best school government is self-government and the best recitation is that which puts the pupil in the unselfish attitude of helping his classmates to understand, appreciate and enjoy the lesson. Working under this principle coöperation is seen to be a healthier and better thing than competition, better not only for the school but for the home and for the common life of the people. Much that is unsubstantial and valueless has been written upon the subject of moral instruction in the school, as though morals could be taught like spelling or geography, and were not rather to be lived and practiced. The newer, and as I believe, better conception is that the individual, however circumspect he may be when considered apart from his fellows only proves his real moral worth when he shows his abilty to combine with others and to do well his part in any community whether it be the home, the school or the social order of which he is a part. This is the spirit of the Kindergarten and is equally desirable in every grade. No teacher is likely to be rated as strong in the future who is not able to see the bearing of this principle and to shape his course accordingly.

Child Study.

Probably nothing has happened more conducive to the humane and considerate treatment of children than the movement now almost world-wide in favor of child study. Many investigations undertaken by the specialist seem to the average person irrelevant and unpractical, but the awakened insight into and sympathy with child life which leads parents and

teachers to look beneath the surface and to suspend judgment while trying to solve the problems presented by the child, can only result in untold good to mankind. The tendency now prevalent of searching for some physical defect as the cause of moral obtuseness or mental dullness is destined to change the attitude of teachers toward all delinquents. A recent book by Dr. Francis Warner cites numerous cases where children who were classed as stupid and incorrigible after being cured of some physical infirmity became successful students.

In accordance with action taken by the School Committee last year, an examination of the eyes of children in the schools was undertaken by the teachers according to plans prepared by Dr. F. F. Whittier. The examination was pursued in nearly all of the schools to such an extent as to ascertain those who were palpably defective and in need of special treatment. A few cases of this kind were found which fully warranted the trouble and time expended in making the examination. It is hard to believe that some parents, even after the information was furnished them, neglected to give attention to this important matter, but such was the case. The question arises whether it would not be well to employ a competent oculist to give a little time to this subject each year for the sake of securing thoroughness and efficiency.

Another line of investigation was undertaken to ascertain the cause of the unusual inability to perform the simplest mental tasks which was exhibited by several pupils in a certain school. After considerable observation and examination by a very intelligent and painstaking person, in which labor she was assisted by the teachers, it was decided that all these pupils were distinctly feeble-minded. This decision was afterward confirmed by the medical member of your committee as well as by Dr. Fernald of the State Institution for Feeble Minded at Waltham. It was apparent that these children were receiving little benefit from the school and their teachers, having large classes, could not give them the personal attention required. It became impossible to give them the advantages of the State School at Waltham, first, because the parents could not be persuaded to consent to their removal, and second, there were no vacancies at that time. The investigation was carried far enough to warrant the conclusion that several other children in our schools, if not technically feeble-minded, were able to

make but little progress in their studies and really needed close and individual attention. This subject of defective children has already claimed the attention of school boards in several other communities.

In the City of Providence two schools for the feeble-minded have been opened by the Board of Education. One has a membership of sixteen, and the other of thirteen children ranging in age from nine to fifteen years. The teachers of these schools are selected with care, and receive a salary of $800 each. It is stated in the report of the Board of Education, on this subject, that "the children thus provided for are not the slow and the dull who need time for development and help from their teacher by way of encouragement and explanation, but rather children with so little mental power that they are capable of making but little progress under ordinary conditions." This subject is introduced here in the hope that in the near future provision may be made for this most unfortunate class of children.

Accommodations.

The opening of the Runkle School with a kindergarten and two rooms has provided for pupils up to the fourth grade inclusive. The attendance is now about one hundred pupils. It will be necessary to open another room next autumn, to which the fourth grade pupils may be promoted. This school already ranks as one of the best in the town.

Two additional rooms have been opened in the old High School Building, one for the second and third grades, and one for the sixth and seventh grades. This arrangement relieves the Pierce School, and insures better service than it has been possible to give before for several years.

The necessity arose in the autumn for fitting up two rooms on the third floor of the annex to the W. H. Lincoln School, on Boylston street, for grammar pupils. It is apparent that more school accommodations will soon be required in that portion of the town, although it is not likely that this exigency will arise for a year to come.

The steps already taken to provide new buildings for the Pierce, Devotion and Longwood districts will greatly strengthen our facilities.

A pressing need at present is a small building for manual training in connection with the Heath Street School. This is

not a new subject, and I trust that action will be taken in the near future to supply this want.

Equipment.

The appropriation for school expenses the past year has been drawn upon heavily to provide appliances of a permanent nature. A stereopticon of the most approved pattern has been purchased for the High School, as well as lockers and considerable apparatus for the girls' gymnasium. The manual training department of the High School has also been supplied with lathes and machines for the fourth-year work.

The William H. Lincoln School has been equipped with several conveniences for instruction in various departments in housekeeping, and it is now desired to add the articles needed to give instruction in laundry work. An excellent stereopticon has just been purchased for the Lincoln School, the expense for which will be partly provided for from the lecture-fund of the Education Society. The Pierce School also has a stereopticon, and, as presumably the other grammar schools will ultimately be provided for in the same way, it becomes desirable to furnish a number of lantern slides so that the truths of geography and history may be presented to the mind in the most graphic and interesting way.

Many books of reference are needed, although something has already been done to meet this requirement. The opening of the Public Library to adults, whereby teachers will be able to know what is available and to consult many authorities, is a commendable arrangement. A still farther extension of the usefulness of the library in the direction of the school will probably be undertaken should the town provide the necessary funds.

The Teaching Force.

The opportunity of going out into neighboring communities and selecting teachers of merit, so long in vogue here, has resulted in a very strong corps of workers. As much emphasis has been placed upon character as upon scholarship and method, and this is in harmony with the truth so well understood that tuition is largely unconscious and derives its value from those more subtle qualities of mind and heart that are the essence of true culture. It has been the aim of the Superintendent to secure common agreement on the part of all

teachers concerning those high ideals toward which modern education is bound to advance. To this end the freest discussion has been encouraged, and the broadest freedom has been permitted in the working out of plans. I do not know of a single teacher who does not deserve to be credited with faithfulness and loyalty. The opportunities for personal growth in the way of lectures, discussions, and current literature on education are very great. Some are zealous in taking advantage of these means of improvement, while others are less so. Those who are not studious and who do not think along fresh lines cannot hope to rank high or to find the highest joy in their vocation.

Manual Training.

Very little change has taken place in this department as far as the grammar schools are concerned. Each succeeding year sees education through the hand becoming more fully recognized as a proper part of the curriculum, and through increased experience teachers are able to accomplish better results. A full and interesting report from Mr. Hutchinson on the work in the High School shows that sixty-three boys chose manual training courses in September. Five of these have left the school, and two have made changes in their work, so that the present number is fifty-six, divided as follows, — fourth class, sixteen; third class, twenty, in two divisions of twelve and eight respectively; first and second classes, twenty. Each class has devoted one hour and twenty minutes to mechanical drawing. The fourth class has pursued pattern-making and foundry work, and the third class forging.

During the summer and autumn a room was fitted up for chipping and filing in connection with work in metals. Four new machines have been purchased, consisting of a Fitchburg speed lathe for drilling, polishing and hand-turning, a Fitchburg engine lathe, a Prentiss upright drill and a Henley shaper. A few small tools for machine work have also been provided. Twelve boys from the first and second classes are now taking this work.

The instructor reports that both in mechanical drawing and shop work the classes are showing an increased interest, and are making excellent efforts to perform accurate work.

It is apparent that in the near future a building especially for manual training should be erected near the High School so

that as the school grows all who desire may have the opportunity of electing one or more of these courses. It is evident also that an additional teacher will be required in the near future.

The Domestic Arts.

Early in the autumn a new course in Cookery, prepared by Mrs. Norton, was put in operation. Two features of the new plan are noticeable, first the housekeeping receives increased attention, and second, the boys are to have at least one-half year's experience in the kitchen, while the girls will spend the same length of time working with tools. Whether judged on purely practical or educational grounds, I believe this latter change is justifiable. It must be recognized, however, as experimental and as one that the Committee on Courses of Study has not formally approved. An additional statement from the director of this work will be found with other special reports.

Drawing and Music.

The excellent brief reports of the supervisors of these subjects present the salient facts. The singing in every grade is more finished than ever before and is in accord with that cheerful and refined atmosphere which is desired in every school-room. The results in drawing are surprising and present many fresh and interesting features. They show the abounding capacity of children for expressing themselves when naturalness and spontaneity are encouraged.

Nature Study.

Miss Helen P. Howell reports that the work during the past year has been strengthened by the increased interest of teachers and by the assistance faithfully rendered during half of the year by Miss Dolbear.

"Progress has been made along several lines. More out-of-door work has been done by the children of the lower grades. In this way their interest has been stimulated and our aim to give the children many experiences and close contact with nature has been more nearly satisfied. The study of bird skins in the second grade has given a rich return in the interest which has been aroused in living birds. It seems advisable that the subject of birds should be again formally studied in the grammar grades and this is made feasible by our new collection of bird skins.

"In the upper grades the relation of nature study to other subjects has been strengthened. It is the aim, through a study of type forms to present the great laws which control life and to define the principles which underlie diversity of form. The plant as a living, working force becomes vitally interesting. The conditions which influence it and the results of its activity and growth are as great and comprehensive realities as the plant itself."

Physical Training.

The appointment of an assistant in this branch for the purpose of giving more attention to games and gymnastics in the primary and grammar grades has been the most important event of the year. During the autumn, when the weather permitted, the lower grades, from one to five inclusive, were taken out of doors for a short time each day, to play games. During the winter these games, especially in the lower classes, are continued in the school-rooms. The exhibition of physical exercises at the recent meeting of the Education Society showed that real progress has been made in developing a broad scheme for promoting healthful and interesting exercise, both in-door and without. For further information concerning this branch, reference is made to the report of the instructor.

Other Studies.

It is not necessary to speak of every branch, but the question is sometimes raised concerning the progress in reading, spelling and writing. These are now regarded as the tools of a student rather than education itself. Progress in their acquisition is made gradually and perfection is seldom reached; but that our pupils gain working efficiency as they approach the end of the grammar school course may readily be seen by observation in the schools. The reading is on broad lines and greater in quantity than before. Spelling is taught largely by dictation and the lessons now used are correlated with other studies, which helps to fix important data in the mind. Vertical writing, if a trifle slower than the old script, is more legible and hence more easily read by the teachers. It will be still better after several years of practice.

The High School.

There is little that is specifically new to be said. The work has been steady and progressive. A real gain has been made

in self-government. Several departments are becoming more clearly defined and better fitted to serve the purposes of a large school in a growing community whose standards are high. The course of instruction requires modification from year to year to meet new demands of the higher institutions. The enrichment and broadening of the curriculum of the lower schools make it possible to do a higher quality of work in Science, History and Language.

It is to be regretted that a large number of those who enter the High School do not complete the course. Presumably the hard times have influenced some, others lose courage in trying to face the requirements of advanced studies. Those who remain in the school but one year or two get glimpses of liberal knowledge that must give an uplift to their whole lives.

The school is fortunate in having recently received a munificent gift from Mr. John P. Webber of Brookline, consisting of two hundred and thirty-five mounted birds and several hundred bird skins. This collection will soon be installed in a fine case provided by the School Committee, carefully classified and labeled under the direction of Mr. Reginald Heber Howe, Jr.. This generous act of a citizen will doubtless stimulate others to be thoughtful of the needs of the schools.

There are other elements in a school system, which, were they treated at length, would make the report too long. The kindergartens are an invaluable factor, the influence of whose quiet work is felt throughout the grades. The work of the Truant Officer in looking up cases of irregularity and in consultation with the parents does much to secure good attendance.

The coöperation of the Public Library enables the schools to shape the reading of the boys and girls and to illumine their studies by collateral literature. It is proper also to mention the activities of the sub-committees of the Education Society, as Mothers' meetings held for the purpose of improving conditions in the homes and the schools, the magnificent collection of paintings made free to teachers and pupils, choice music rendered in the schools, concerts for young people, and other movements suited to make education pervasive in the community.

The Training Class for college graduates has been continued upon much the same plan as formerly. A large part of the

work of conducting the theoretical studies of the class has been performed by Miss Mary McSkimmon, Principal of the Pierce School. It is believed that the experience of these young ladies in the schools is of reciprocal advantage to them and to the classes they teach.

It is quite unsatisfactory to report separately on so many phases of school work when our chief aim in teaching is to secure a sense of the unity of all knowledge. More and more the several studies must be regarded as parts of one reality which binds together the realm of things and the realm of people. From whatever point of view this reality is approached the whole mind is to be employed. The fact that mind is one and that truth is one should be a guiding star in all processes of education. In full recognition of the considerateness and courtesy of the committee this report is respectfully submitted.

SAMUEL T. DUTTON,
Superintendent of Schools.

From the various reports presented, the following have been selected for publication:—

Report from the High School.

Whole number enrolled for school year ending July, 1897		306
" " " for present year to January 31, 1898		335
Average attendance for the year ending July 1, 1896		250
" " " " " July 1, 1897		272
Number of boys belonging to the school January 31, 1897	142	
" girls " " " January 31, 1897	141—	283
" boys " " " January 31, 1898	148	
" girls " " " January 31, 1898	148—	296

Gain, 5 per cent.

Number of non-resident pupils	14
Proportion of scholars preparing for higher institutions	53 per cent
Number in each class	I., 49; II., 63; III., 67; IV., 112
Number of special students	5

The graduating exercises took place in the Town Hall, June 21st. Diplomas were given to twenty girls and twenty-three boys. Mr. Prentiss Cummings delivered the address; subject, "Being and Doing."

Of the Senior class, nine were admitted to Harvard College, four to the Lawrence Scientific School, one to Yale, one to Princeton, five to the Massachusetts Institute of Technology, two to Radcliffe College, and eight to Smith College. One member of the Junior class was admitted to Hamilton College, and another, with additional summer study, was admitted to the Lawrence Scientific School.

PRIZES.

The J. Murray Kay prizes were awarded as follows: —

For excellence in elocution: Girl's prize, May W. Boody; boy's prize, Harold W. Bynner.

For historical essays: On "Three Glimes of Brookline, in 1700, 1800 and 1900," Marion L. Sharp; on "The Brookline Town Meeting," Charles W. Kellogg, Jr.

The William H. Lincoln medals were awarded as follows: —

For excellence in English, a gold medal to Walter A. Parker.

For excellence in German, a silver medal to Mollie J. Seely.

For excellence in Greek, a silver medal to Sumner Crosby.

For excellence in Physics, a silver medal to Francis Bradley.

For excellence in Mathematics, a silver medal to Maude B. Dutton.

Report of the Director of Drawing and Art.

Proof of vitality lies in power for growth. It is not sufficient for a thing to exist, but it must exist vigorously, actively, powerfully, to show that it is worthy of life. Apply this test to the art training now given to the young people of Brookline, and it will, I think, stand the challenge. Like a sturdy young plant, it has grown and developed, until now its roots, leaves, buds and flowers give evidence of healthy activity.

Four years ago the first attempts were made to put color and the brush in the hands of the children. The results were thought quite marvellous. Now the child who cannot express himself with comparative ease in various media, is the exception. This facility in the use of pencil, brush or crayon, closely connects drawing with science, geography, literature and history. It reveals a new world of beauty to the child. Close observation is the key to good drawing, and fortunately the day is past when the ability to draw was considered the gift of only the favored few. But apart from facility in art expression, a new and most important step has been gained the past year.

In the middle ages art was not a luxury. Every man, woman and child was more or less an artisan, because art was of the people, by the people and for the people. Pictures were not shut up in palaces or private dwellings; they were in the churches, in public halls and civic buildings, and every noble building was the product of the generous self-denying public spirit of the times. Probably those days can never return, but we are certainly showing a wise democratic spirit in the present, when we make it possible for every child to know something of that great artistic past.

Through the kindness of two generous men, Brookline is to stand as pioneer in a work which will soon be imitated, no doubt, all over the country. At the Brookline High School are now six hundred and fifty photographs, purchased in Italy last summer, of cathedrals, details of carving, mosaic, Greek vases and mediæval ornament; famous paintings, frescoes and easel pictures, which form a collection to be loaned in the various schools of the town, in the same way that books are loaned

from the library. These photographs have been catalogued and carefully labelled. Each teacher has the privilege of withdrawing a dozen or more at a time for use with her class, to be returned later to the High School, which is the central station. No greater stimulus to the child's artistic impulse can be given than by enabling him to see and examine for himself a beautiful painting, drawing or bit of carving.

"A nation's highest permanent expression is through its arts. Public opinion, public taste and public need regulate the quality of the supply and demand." The child of today will be the citizen of tomorrow. He will demand only the thing with which he is familiar. A poor little scrub woman on entering a large sculptured hall was heard to remark, "What a sight of work it will be to keep it clean." She did not even see the beautiful carvings.

To establish a point of connection the child must know something of this other world of beauty. For his own best good, for the highest development of his finer nature; for the nation's public good and for the highest expression of its activities, the best art influences should surround the child from the beginning.

The finely equipped lantern in the new High School has made possible this year a series of illustrated lectures on Egyptian and Greek art in connection with the regular history courses. This has been a valuable addition, and its frequent use with various classes will be a common feature when the school can own its own slides. The slides used thus far have been generously loaned by Prof. Moore of Harvard.

In closing I would add that my visits to the grammar schools have been of unusual interest this year. The child who does not like to draw is the exception, and the child who is not fascinated to see another draw does not exist. To stimulate a class to its best effort can be done very simply; a pencil and paper or brush and color in the hands of a skillful teacher, a few strokes, and lo, the sketch is made and the children are impatient to try. To teach drawing one must not talk, one must draw and inspire the child with a desire to do the same. After a recent lesson from a model, one little girl, breathlessly, said: "And may we try it at home?" Her sum of happiness was complete, and the success of that lesson was assured.

The Brookline children now draw so readily and well that one cannot doubt the future for them, provided our facilities are increased. It would be a wise thing if each school could have a drawing-room. The saving of time to teacher and pupil would be well worth the cost. One serious difficulty in using the ordinary school-room is that it is almost impossible for all the children to see; the light, too, is often badly arranged for drawing, and the carrying of models and materials from room to room is a waste of time and strength. If the study of drawing has an assured place on the school programme, surely a fitting home should be provided where books and pictures, casts and photographs could at least suggest an artistic atmosphere and provide a stimulus more in keeping with the dignity of the subject.

Respectfully submitted,

FEBRUARY 14th, 1898. IRENE WEIR.

Report of the Director or Music.

The story of the music instruction in the public schools, since the last report, is one of progress. During this period of time many children have been taught to pleasurably participate in the musical exercises, and thus a new source of happiness and development has been brought into their lives, the sum of which cannot be correctly estimated. In all the grades of the primary and grammar schools there is evidence of an increasing interest and love for music.

The music period is pleasantly anticipated and the coming of the music teacher is hailed with unmistakable signs of pleasure. It is easy to recall a time when it was difficult to get the boys to sing, and when the music lesson was considered a task by all except those who were specially musical. Today no difference in conduct toward music between boys and girls is manifested, and the voices of the boys are so managed that, though they change from treble to bass, it is rarely necessary to excuse any boy from the music lessons during the changing period. This difference in attitude toward music is due more to the influence of the music itself than to any other cause, thus furnishing indisputable proof that good music has the power to soften, civilize and humanize far beyond that which is commonly attributed to it.

In the High School the experiment has been tried of studying a lighter class of music than had been formerly selected, with the result of proving, to the music teacher at least, that the highest grade of music possible to the school is more educational, wears longer, and gives more lasting satisfaction to the pupils, even though it requires more of an effort to master it than the lighter selections. The study and public presentation of "The Rose Maiden," in 1894, is frequently referred to by those who participated in it as an occasion of surpassing interest and pleasure.

The late concert given by the High School Orchestra, from the proceeds of which a goodly sum was realized for the athletic interests of the school, tells, better than any words, of the interest and pleasure that exist in connection with that organization. Since the beginning of the present school year the orchestra has become self-controlling in that it has adopted a constitution and by-laws, and elected officers from the members of the school. The musical outlook over the entire field is encouraging, while to those who watch for them, the signs are not wanting to prove that the educational world is slowly but surely coming to see that music is to be the channel for that moral training in the public schools without which it may be gravely questioned whether popular education is a menace or a blessing.

Respectfully submitted,

FEBRUARY 1st, 1898. SAMUEL W. COLE.

Report of the Director of Domestic Science.

In no department of manual training is there so great danger of substituting the industrial for the educational ideal as in that of domestic science. The practical benefits of the study are so great that there is

temptation to lay stress upon these, rather than upon the training to be derived from the work. For the sake of making the work more educational, some changes have this year been introduced into the course in the grammar schools. The work in cooking has been shortened from four years to two years, from a conviction that in so long a course much time is either wasted or spent in acquiring industrial skill. The time thus saved is to be spent largely upon wood-work and mechanical drawing. In order to secure the time of the teacher for the wood-work, the boys are given a half-year's course in "camp-cookery," — an arrangement which has been very popular with them.

The group-system of work has been abandoned as far as practicable, and individual work substituted for it. It is no longer true that one girl measures the flour, another the salt, and a third the sugar, while the fourth combines the materials. Each girl, or at least each group of two, completes the whole dish. In order to separate the housework from the cooking, as far as possible, and to give additional training in neatness and orderliness, the work in cooking is preceded by a short course in the care of the house and its belongings.

In the High School the work in domestic science is more properly classified with the science work than with the manual training. It is largely an application of chemistry, physics and biology to the affairs of ordinary household life. But a small portion of the time is devoted to cooking, as such. A general study of the food question, — the composition, cost and digestibility of different foods, is made in the first year, with a special study of different food-stuffs. Four periods a week are given to cooking in this year. The second year's course is in general chemistry with its special applications to cooking and cleaning. A thorough study of house sanitation is made in the third year. The first part of the fourth year is given to household biology, including the study of yeasts, molds and bacteria; the latter part deals with some of the economic problems of the household, such as domestic service, the financial management of the home, etc.

The whole work is so new that there are many problems not worked out; yet we feel that we are making progress, that the interest of the students is aroused, and that the work is of increasing value both from an educational standpoint and from a practical point of view.

ALICE P. NORTON.

Report of the Instructor in Physical Training.

The work throughout the schools has been greatly strengthened by the able assistance of Miss Jacobus, who has visited the various schools regularly for the purpose of directing the work and teaching classes.

In the primary grades the game work has received special attention. During pleasant weather the games were played out of doors at the gymnastic period, and combined with a few formal exercises consisting chiefly of breathing movements. The formal work in Swedish gymnastics begun in the third year has been supplemented in many grades by games and wherever it has been practicable by occasional work with

music. The gift of two basket-ball outfits from the Physical Training Committee of the Education Society has been greatly enjoyed.

At the High School the work has been broadened by the introduction of some new apparatus and by the formation of afternoon classes which have worked for an hour twice a week. These afternoon classes have markedly increased the benefit and pleasure derived from the gymnasium work. The solution of the problem of making the physical training of the whole school more effective has not been realized in them, however, since there will always be a large proportion of pupils who find it impracticable or impossible to return for work in the afternoon.

The work with the fourth-class boys in regular Swedish gymnastics in the girls' gymnasium promises much; but results can not yet be measured.

Respectfully submitted,

HELEN P. HOWELL.

FEBRUARY 1, 1898.

Report of the Instructor in Swimming.

I respectfully submit my first annual report of the swimming department, since assuming its charge, January 18th, 1897. The progress made last season was gratifying, as in five months instruction was given to 80 girls and 59 boys; 39 of the former and 47 of the latter acquiring a practical knowledge of the art.

Classes were held with view to instruction in life-saving and resuscitation of the apparently drowned; and at the end of the school year 12 young men passed the requirements which entitled them to the certificate awarded for proficiency.

Profiting by the experience gained, we began the present term by securing the names of all non-swimmers in the schools in the sixth grades and above, and have issued tickets to those entitled to instruction.

Instruction is given in classes numbering ten to fifteen scholars, in periods of half an hour for each class, and so it is possible to give instruction to as many as fifty in an afternoon. Each class has a preliminary "land drill," which consists of several groups of movements illustrating the proper strokes, after which (having taken the preliminary shower-bath) all are allowed to enter the water, and under the teacher's instruction endeavor to imitatate the motions which they have just been through. Each pupil obtains a course of twelve lessons, and usually learns to swim well by the time his or her course is finished.

In addition to the actual teaching of swimming, I have adopted a plan of visiting the different schools and of giving the "land drill" there, and have also formed a teachers' class, to which I give one hour each week. Later I expect to give practical demonstrations of how to resuscitate the apparently drowned, and in this way reach those in the schools who have not as yet come under my care. I have formed a class of boys from the High School who will begin to qualify for their certificates on the first Friday of February, and thereafter on the first Friday of each month for the balance of the year.

Swimming is becoming as popular with the girls as it is with the boys, and it only requires a slight incentive to gain them over to a healthy enthusiasm. The practical side of this branch of physical training is

essentially humanitarian, and equally as important to both sexes; therefore I urge all parents of girls to fulfill their moral responsibility in this direction.

Number of tickets issued: boys, 182; girls, 110; teachers, 27; total, 319.

Lessons given: boys, 677; girls, 530; total, 1207.

Average attendance: boys, 42; girls, 33; total, 75.

Number who have learned: boys, 48; girls, 31; total, 79.

The teachers' class has only recently been started, and it is a little premature to report results. Relative to the boys who come over from the High School for practice on Fridays there has been an average attendance of about fifty.

Certificates for proficiency in swimming have been awarded to the following: A. M. Osborn, H. E. Osborn, G. C. Osborn, Olin D. Talbot, Geo. S. Stillman, Russell Stearns, Chas. W. Kellogg, Jr., Chas. W. Lewis, Henry T. Hall, Jr., Frank R. Hutchins, Geo. R. Ainsworth, Henderson Kellogg.

LIONEL A. B. STREET,
Instructor.

Report of Penny Savings.

From February 1, 1897, to February 1, 1898.

Report of Principal of Evening School for Young Men.

I submit the following report of the Evening School for Males during the season of 1897–'98.

It commenced October 18th. The whole number registered (including the drawing class) is 77. The membership for October was 65; November, 50; December, 35; January, 34; February, 38. The average attendance has been about three-fifths of the membership.

Special interest is attached to the evening school this year on account of the separation of the sexes, and the assigning of rooms at the Lincoln School building to the young men. The additional facilities thus afforded us have been a great benefit. The attendance has been larger than it was last year. In common with all evening schools, our attendance falls off rapidly at the beginning, but the minimum number is soon reached, and last year's experience of a larger attendance in February than in December has been repeated.

The work in the drawing class has been most encouraging. There has been a greater number of pupils in prompt and regular attendance. Machine drawing, building construction and furniture designing have been the chief subjects taught.

A large part of the time in the common school has been spent, from necessity, on the elementary studies. A number of the pupils have taken the commercial branches, and some attention has been given to both local and general history. Talks have been given on subjects of general interest.

While individual instruction has been a very important part of the work, efforts have been made to avoid the doing of the pupils' work for them, and they have in most cases manifested both the desire and the ability to work for themselves. The deportment of the scholars has been excellent, their spirit zealous, and they have accomplished all that could be reasonably expected of them. The opportunity afforded them of attending the lectures of the Brookline Education Society has given them both pleasure and profit.

There are several encouraging features of the work this year. A number of the pupils attending in former years have returned, and some of the scholars in the drawing class have attended the common school on Monday and Friday evenings. There has also been a demand for the secondary studies. The most successful evening schools, both as regards numbers and work performed, are those where the scholars are offered special inducements to continue attendance for a period of years. It would seem that we could derive some benefit for ourselves in imitating their example. Within reasonable limits we should be prepared to teach any desired subject.

GEORGE F. SPRING,
Principal of Evening School for Males.

BROOKLINE, MASS., February 14, 1898.

Report of the Principal of Evening School for Girls.

The whole number of pupils enrolled in the Girls' Evening School is sixty-five. The best average attendance was for the month of November, forty-six.

Among the pupils were eighteen young women, graduates of the town grammar schools. They were desirous of studying stenography, typewriting, book-keeping, business arithmetic and English. Classes were formed in the latter and good work was done; but the stenography and typewriting, for several reasons, were not introduced; as a result the pupils did not return after the holiday recess. Why not make provisions for the young people, who from necessity or choice leave regular study with the grammar school course?

The evening school furnishes a grand opportunity to extend the work of the day schools. Let the sewing become dressmaking and millinery; the cooking become more extensive, and include work in the laboratory.

Why not provide for the evening schools such study as will tend to adapt the young men and women to the conditions within which they live, and probably are to live?

ELEANOR J. MCKENZIE.

REPORT OF THE PARK COMMISSIONERS.

The Board of Park Commissioners submit herewith their seventeenth annual report for the year ending January 31st, 1898.

The appropriations for the work under charge of the Commissioners were as follows: —

For maintenance of parks and public grounds	$7,200 00
For Longwood Playground, including balance from last year	4,008 34
For Longwood-avenue Bridge	87,000 00

The following expenditures have been made: —

For maintenance of parks and public grounds	$6,604 56
For Longwood Playground	4,003 66
For Longwood-avenue Bridge	18,126 99

The most important matters that have engaged the attention of the board during the past year have been the construction of the large stone-arch bridge across the Boston & Albany railroad, the Riverdale Park and Muddy River at Longwood avenue, the regrading of Longwood Playground, and the acquisition of sites for playgrounds under the $100,000 appropriation made by the town to be used in the discretion of the joint boards of Park Commissioners and Selectmen.

After the preliminary work was done, and authority had been obtained from the Railroad Commissioners and from the Art Committee of Brookline, the board on June 21st, 1897, laid out Longwood-avenue bridge and the approaches thereto, including parts of Longwood avenue and Chapel street. This action was ratified and approved by the town on June 30th, and an appropriation of $87,000 was made for the construction of Brookline's portion of the bridge. As this bridge is the most important structure of its kind that Brookline has ever undertaken to erect, the following brief historical account and description may not be out of place.

Longwood avenue was laid out by the Norfolk County Commissioners in the year 1857, from Brookline avenue in Roxbury to Harvard street in Brookline. Roxbury at that time was a

part of Norfolk County. A bridge substantially like the structure recently taken down was built during that year, Brookline's proportion of the cost being $3,621.94. Twenty years later, in 1877, the bridge was rebuilt under the direction of the late Edward S. Philbrick for $2,992.02, Brookline's proportional part of the expense. The new structure was built substantially on the general plan of the first bridge; in fact, some of the original piles were used in the new bridge. With the exception of repairs the bridge remained until August, 1897, as built by Mr. Philbrick. Now at the end of another period of twenty years the old trestle bridge has been taken down, and it is proposed to replace it with a fine stone-arch bridge suitable to the park, which now extends on each side of Longwood avenue, and more in harmony with the resources and standing of the city and town which are to share the expense. The old bridge was in such poor condition in many of its parts that its immediate rebuilding in some form was necessary.

In order to settle questions of jurisdiction, special legislation was obtained in Chapter 162 of the Acts of 1897, authorizing the city of Boston and the town of Brookline to rebuild Longwood-avenue bridge. The work has been undertaken under the provisions of this chapter.

The structure, designed by Messrs. Shepley, Rutan and Coolidge, consists of a large arch of one hundred feet span, crossing Muddy River and a portion of the park, and a smaller arch of thirty-one feet span, crossing the Boston & Albany railroad. A substantial flight of masonry steps leads from the level of the bridge to the park below.

The estimated cost of the bridge proper is $170,000, which is to be borne equally by Boston and Brookline. By an arrangement with the Park Commissioners of the city of Boston, the construction has been placed in the hands of the Park Commissioners of Brookline.

Much time and thought has been given to the question of the security of the structure, and a careful inquiry has been made by the Town Engineer, Mr. Alexis H. French, into the weights and distribution of the loads upon the soil. The City Engineer of Boston has also passed upon the question of the foundations, and in addition to the opinions thus secured, the

Park Commissioners have employed Mr. Howard A. Carson, Chief Engineer of the Boston Subway, to make an independent investigation of the whole matter of construction.

Immediately after the appropriation was made, the plans were perfected as expeditiously as possible, the specifications prepared and proposals invited. On July 30th twenty bids were received, ranging from $115,000 to $171,769. On August 2d the Park Commissioners of Boston and Brookline awarded the contract to Messrs. Woodbury & Leighton, the lowest bidders, for the sum of $115,000, with bonds in the penal sum of $25,000. The contractors began work without delay, and by the close of the season the foundations for the abutment of the large arch on each side of Muddy River were placed in position. The total amount expended upon the bridge to date has been $18,126.99.

The Park Commissioners have devoted much thought and time to the question of the purchase of playground sites. Many pieces of land have been examined in different parts of the town, and negotiations are now in progress for several parcels. The only piece actually acquired thus far has been a lot of land on Heath street, near Oak street, and adjoining other land owned by the town. This lot contains 12,125 square feet, and it was purchased for the sum of $4,700. It was secured in order that the town may be able in the future to utilize the land, which it already owns at this point, for a school-house and playground. This purchase has been ratified by the board of Selectmen in writing, as required by vote of the town.

There are several small tracts of land in Brookline already partially devoted to the uses of the public. Owing to the fact that the town does not have the charge of these small parks, they have been very much neglected. During the past year the board have endeavored to secure the transfer of these semi-public parks to the town. In one case, success has followed these efforts. The triangular lot bounded by Park, Marion and Vernon streets was conveyed to the town by the heirs of Marshall Stearns, and at a town meeting held on December 29th, 1897, the Park Commissioners were authorized, in behalf of the town, to accept this conveyance, and hereafter this lot will come under the care of the board, as do all the public grounds.

At an adjournment of the annual town meeting held April 14th, 1897, it was "*Voted*, That until further action of the town, the care of all public grounds and all appropriations made therefor shall be in charge of the Park Commissioners."

For a detailed statement of the work done on the Longwood Playground, reference is made to the report of the Town Engineer. Owing to the continued settlement of portions of the playground, we are obliged to ask the town for an appropriation of $1,000, to bring the surface to grade.

The following appropriations will be required for the ensuing year: —

Maintenance.

For parks and public grounds	$7,200 00
For Heath-street school grounds	500 00
For J. E. Cabot school	250 00
For Boylston-street Primary school	200 00
Total	$8,150 00

Construction.

For Longwood Playground	$1,000 00

Respectfully submitted,

DESMOND FITZGERALD,
CHARLES S. SARGENT,
WILLIAM H. LINCOLN,
Park Commissioners.

REPORT OF THE COMMITTEE ON PLANTING TREES.

The following trees were planted in 1897: "Winthrop road, 16; Winchester street, 72; Browne street, 12; Clark road, 22; Thorndike street, 3; Harvard street, 4; Salisbury road, 4. About a dozen trees were replaced in different parts of the town. On Naples road holes have been carefully prepared for seventy-eight new trees to be set next spring.

The committee desire to call special attention to the fact that two fine rock-maple trees, standing in front of the new bath house on Tappan street, were lost to the town the past year. The builders persistently neglected to provide suitable protection for these trees, though repeatedly asked to do so. Subsequently the Selectmen refused to grant them further road or sidewalk privileges for building material on another contract until the tree matter should be satisfactorily arranged.

The Committee on Planting Trees claimed a damage of $50 in behalf the town, and this sum was deposited in the town treasury with the approval of the builders' counsel, to await the final outcome of injury to the trees. Later on the builders were allowed to withdraw the money from the treasury.

One tree was badly torn by a horse; the other had a brisk fire built under it that ruined it. The former came in the way of the new entrance, but was considered worthless for shifting, and a small new tree substituted for it. The other tree sent out but a few leaves on one or two branches, and was finally taken up, and has never been replaced. The committee make no comment, except to call attention to the fact that the town loses *two large, fine* trees, and the delinquents are allowed to go free entirely.

The committee desire to say, in this connection, that all other builders have uniformly shown every disposition to protect roadside trees promptly and effectively. They also take pleasure in calling attention to the fact that Mayor Quincy of Boston, through the suggestion and effort of the Roxburghe Club, has lately secured through the Board of Aldermen the passage of an appropriation of $5,000 by the city

of Boston for the wiring and care of trees, as is done in Brookline. This is a most encouraging move on the part of our big neighbor, that is duly appreciated.

The amount expended the past year was $1,801.43, leaving an unexpended balance of $198.57 in the treasury.

It is recommended that the usual sum of $2,000 be appropriated for the ensuing year.

James H. Bowditch,
William Stearns,
Edward W. E. Tompson,
Committee on Planting Trees.

REPORT OF THE SUPERINTENDENT OF WALNUT HILLS CEMETERY.

Office of the Superintendent,
Grove Street, Brookline, Mass., Jan. 31, 1898.

To the Trustees of Walnut Hills Cemetery: —

Gentlemen, — I herewith submit the annual report of the work done for the year ending Jan. 31, 1898.

The statement of the Treasurer covers the amounts received for lots, interments, foundations, etc.

Lots.

On Walnut Hills avenue four lots of 400 square feet in each were trenched and graded. The unimproved surface of these four lots was two feet, on an average, below the grade of the avenue. This deficiency was met by throwing up such material as was fit for lot filling from below the depth required for graves and replacing its equivalent in stone, the greater part of which was blasted out of a ledge in the grave-lot section.

Three 300-foot lots were trenched, graded, and seeded on Rock avenue, as were also two 200-foot lots in the rear of them, which completes that range. The opening where the trenching ended was filled with material taken out of an opening made in Walnut Hills avenue near by. Sixty cubic yards were removed from beside where a similar excavation was made for a like purpose the previous year, and the hole was then nearly filled with stone taken from the section where grave lots were in progress of being trenched. Ashes drawn from the pumping-station were then put on and the avenue made passable, when in the spring it may be surfaced with gravel.

The strip between the double row of grave lots now sold and Trinity path is trenched for grave lots, twenty in number. The three-foot wall between the rows was continued, thus utilizing some large stones which would otherwise require breaking up; lot filling, too, was gained thereby.

Six lots and nineteen grave lots were sold. The estimated value of lots, of the various sizes now prepared, is $6,247.

Interments.

The number of bodies received during the year was thirty-eight. Ten of this number were placed in the receiving tomb. No removals were made from the cemetery. Three bodies were disinterred and reinterred in lots recently purchased.

Monuments and Headstones.

Seven monuments, seven headstones, and three markers were erected.

Improvements.

Trochilus path was extended to Walnut Hills avenue at a point nearly opposite Rock avenue. In preparing for this path the earth was taken out, to include the margins on either side, a width of eleven feet and to a depth of eight feet. Into this excavation was rolled all the surface bowlders which were on the unimproved side. The additional stone necessary, as also the gravel for surfacing, was taken from the grave-lot section.

A walk of stone foundation surfaced with ashes and gravel was made from the side door of the Lodge to the street. The loam removed was wheeled onto a barren spot beside the highway, and adjoining the lawn in front of the house, and graded, seeded and rolled.

For the new path, eight feet wide, from Mount Walley aveune to Bow avenue, the earth was taken out and made use of for a distance of 100 feet.

Mount Walley avenue received a dressing of screened gravel for a distance of one hundred feet and Pierce avenue received the same for a like distance.

The amount of trimming of trees was more than usual. The cutting out of the dead limbs was principally the work of one man continually for eight weeks, and additional help as required in handling the extension ladder in the tall trees. All of the trees in the improved grounds were gone through, and about one-half of those in the other sections. The undergrowth in the wood lands have received the usual care, and young trees touching or about to injure the permanent trees, were removed.

Respectfully submitted,

MYRON D. FISHER.

REPORT OF COMMITTEE ON CARE AND MANAGEMENT OF THE PUBLIC BATH.

Brookline, Mass., February 26, 1898.

To the Board of Selectmen:—

The undersigned beg leave to present the following report:

The total number of baths taken from the opening of the bath, January 1st, 1897, to February 1st, 1898, was 47,793, and these are classified as follows in

TABLE I.

Showing the Number and Kinds of Baths taken, from January 1, 1897, to February 1, 1898.

TABLE II.

BATH HOUSE RECEIPTS FROM JANUARY 1ST, 1897, TO FEBRUARY 1ST, 1898.

1897.	
January	$74 00
February	271 00
March	341 50
April	646 00
May	380 00
June	360 00
July	620 00
August	318 00
September	335 00
October	265 00
November	145 05
December	191 70
1898.	
January	162 15
Total	$4,109 40

The appropriation for maintenance for the fiscal year beginning February 1st, 1897, and ending January 31st, 1898, was $7,600, and the expenditure for the same period, $7,345.16. Deducting from the latter sum $4,035, which represents the receipts for the fiscal year, we find that the actual cost to the town for maintenance of the public bath for the twelve months was $3,310.16.

This showing the committee think is a favorable one, considering the fact that various repairs and improvements are included, as well as a considerable sum for the bathing-suit outfit, which will be comparatively small the coming year.

Repairs and Improvements.

Among these was the repainting of the dressing rooms both inside and out, the entrance hall, private baths, and part of the gallery railing. The seats of the dressing rooms were also taken out, scraped and replaced. Spar varnish has been used in the second time, and it will be some years before the work has to be done again. The doors of all the dressing rooms and much of the standing wood-work, have been given a coat of spar varnish. The radiators and other iron work have also been bronzed. All of the latter work has been done by the employees. Other repairs and improvements include a water chute; half the cost of a wire fence between

the town land and the Blake lot; lockers for the engineers; covering of some of the steam-pipe; a marble base in the vestibule; electric bells; wire guards on the showers; a partition to the boiler room entrance, and extra carpenter work.

Special Appropriation.

There was one special appropriation of $3,000 for grading and furnishing, and there remained of the appropriation February 1st, 1897, $1,122.96. The purposes for which this sum was used is shown in

TABLE III.

EXPENDITURES UNDER SPECIAL APPROPRIATION FOR GRADING AND FURNISHING.

Bulk-heads at end of tank	$31 07
Mr. Untersee (architect)	84 00
Gargoyle	90 00
Work on same	32 60
Covering steam-pipes	30 58
Grading and planting	11 73
Carpenter work on windows	8 40
Driveway	126 41
General carpenter work	89 15
Drip-pipes on shower bath	29 78
Grading	4 42
Spring boards	7 71
Coal-bin	19 58
Safe and desks	60 00
Lockers	140 00
Mouth-pieces on boilers	200 00
Total	$965 43

An unexpended balance remains of $157.53.

Heating.

At the beginning of the year the committee was solicitous about the amount of coal it would be necessary to use, not only to keep the building warm, but to properly heat the water to be used in the natatorium and rain and tub baths, and to dry the bathing suits. The heating plant was necessarily large in proportion to the size of the building. Messrs. Forbes and Mowry were appointed a sub-committee on heating, and they proceeded to make some necessary changes. First, all long stretches of exposed steam pipe were covered. Then the passageways under the dressing rooms and the boiler room were partitioned off, thus diminishing the amount of area to

be heated. The coal bin was changed at a small expense, so that coal could be delivered without extra charge for unloading, and finally bituminous coal was substituted for anthracite, as it answered the purpose equally well and cost less. The amount of coal now consumed is only about seven tons a week against ten tons at the beginning of the year. By these and other improvements, the cost of heating has been reduced to what must be regarded as a very moderate sum, considering the fact that the water in the natatorium must be kept at a uniform temperature of about 76° through the entire year; the rain baths require hot water at all times, and the parts of the building used by bathers must not fall much below 80°.

The heating apparatus itself has worked easily and well, even in the coldest weather very little extra strain being put upon it. Some repairs have been found desirable. The most important one was the replacing of the brick work and cast-iron cheeks around the fire doors with Lamprey boiler furnace mouth protectors.

One of the two boilers is amply sufficient to do all the required work, therefore, the two can be used in alternation. There is in this way a saving in wear and tear of the heating plant itself, as well as in labor and fuel.

Amount of Water used at the Bath-House.

The large tank in the bath holds 70,000 gallons of water. While the exact amount used in this part of the establishment cannot be given, it is interesting to know how much water has been consumed for every purpose. For the thirteen months from the opening to February 1, 1898, this is found to be 16,681,873 gallons, and for the twelve months of the fiscal year, that is, from February 1, 1897 to February 1, 1898, 14,895,500, or nearly one and a quarter million gallons a month.

Non-Residents.

Pending legislative action (already under way) clearly defining the town's right in regard to non-resident bathers, the committee have allowed them to make use of the bath, and 2407 persons, or about 5 per cent of the total number, have availed themselves of the privilege, 1575 of them being men, 386 boys, 422 women and 24 girls. They have in no way interfered with resident bathers, and as they have paid a

uniform rate of twenty-five cents or taken private lessons, they have materially contributed to the receipts.

Students from Wellesley College are now receiving private instruction in small classes, and later there will be classes from the Boston Normal School of Gymnastics. As many of these students are soon to be teachers, there can be no doubt that the public will receive direct benefit from the knowledge they gain of swimming and bathing.

Fee System.

This system has so far been an unqualified success. The charge on many days is so small that even a very poor person is not debarred the privilege of the Bath House. For those however, presumably unable to pay anything, rain and tub baths are entirely free on two days of the week. During the thirteen months to February 1, 1898, 6691 rain or tub baths were taken, and only 288 of these were paid for. If we add the 7570 free baths taken by pupils of the public schools, we find that 14,173 free baths were taken. The total number of resident bathers was 45,386, so that for nearly a third of all baths taken the town received no fee.

The school children, of course, took their baths as part of their regular instruction, but there is no doubt that a large proportion of those persons who took free rain and tub baths could have paid a five-cent fee, and it is a question whether it would not have been right for them to have done so.

The rain and tub baths are more expensive to furnish, as far as heating is concerned, than baths in the natatorium, but apart from the matter of expense, the committee have found that the fee system promotes self-respect, as well as decorum and good order. This was illustrated by the occasional rude and boisterous behavior of the free bathers, who did not always seem to appreciate the value of what they were getting without charge. Though the boys, bathing in the natatorium, are sometimes careless in the use of the dressing rooms, the committee can bear testimony to the general good behavior of nearly all persons who pay, even on the busiest days. As the public bath should have an educative influence on the life of the community, it seems desirable to enhance this influence, if possible, and the fee system is one means of so doing.

Employees.

There have been many lessons for the committee to learn in regard to the management of the Bath House as time has gone on. The number of employees necessary, and what duties should be expected of them, for instance, required extended consideration. The heating plant is expensive, as already stated, in proportion to the size of the building, and large numbers of persons must be taken care of, in varying numbers, not to be very definitely gauged in advance. Prompt and efficient service is therefore of the first importance. It was hoped that the laundress could serve also as matron to look after the women and girls, but this arrangement was found inadequate, and accordingly a woman of intelligence, who was also a teacher of swimming, was engaged, to be present at all hours for women. This plan has so far been entirely satisfactory.

The staff as at present organized is composed of a superintendent, general assistant, a matron, laundress, scrub-woman and two engineers. Careful rules have been drawn up, specifying the duties of each one.

It will be readily seen that the salaries of such a large number of employees must be considerable, but there can be no reduction without impairing the efficiency of the establishment.

Bathing Suits.

Much thought has been given to bathing costumes, which are furnished, with towels, to all persons using the natatorium. At first they were a large item in the expenditures, but strong, durable and inexpensive materials have been secured, and this expense materially lessened.

School Instruction.

During the thirteen months 7,570 school children received free instruction in swimming. A large number of these were taught to swim, and there is no reason why eventually most of our Brookline school children should not learn to swim. They entered into this branch of their education with considerable enthusiasm, and at the end of the school year gave a very creditable school exhibition in plain and fancy swimming under the direction of their teachers, Mr. Lionel A. B. Street and Miss Beatrice K. A. Street. Certificates of proficiency

have been issued to a considerable number. Lessons are given to classes of High School pupils and those in the upper grades of the grammar schools, and there is no fee charged. Though swimming is not made compulsory, it is regarded as part of the regular school work.

Private Instruction.

The total number of private lessons amounted to 1,372. Of these 312 were given to men, 315 to boys, 467 to women, and 278 to girls. Mr. John P. Fletcher and Mr. Street and his sister furnished the instruction, paying over to the town a third of all money received. These lessons have furnished a considerable revenue, and have been the means of teaching hundreds of persons to swim, and it is to be hoped that in the future there will be large numbers to take advantage of the opportunities offered by the public bath. The price for a single lesson was fixed at one dollar, with a reduction for several lessons.

The Swimming Club.

This club was organized shortly after the opening of the Bath House, and is now composed of several hundred members, representative of our citizens as a whole. It has one regular club night a week, when its members meet for practice in swimming, diving, water polo, and so on. During the year it gave an interesting exhibition. This year it starts with every propect of success, having enlarged its scope by giving increased privileges and admitting non-resident members. The committee hope that the club may still further widen its field of usefulness in the direction of active co-operation in the development of the athletic interests of the town. Water sports and land sports are so nearly allied that the man who excels in the one may also excel in the other.

General Remarks.

The committee think that the town has reason to be satisfied with the first year's operation of the public bath, as far as its general influence on the community is concerned. Not only its forty-eight thousand bathers, but large numbers of persons from many parts of the country who have visited it have come away enthusiastic and delighted. The natatorium is made peculiarly attractive by the exceptionally clean town water,

and it is said by experts to be one of the finest in the world. The combination of the clear pure water, the glazed white brick and the mosaic pavement bottom give the water a most delicate and beautiful emerald green color, and the temptation to instantly jump into it is almost irresistible.

Every one emerges from the bath in fine spirits, almost as if some tonic had been taken within, — which to some extent is true, for the mind has been wholly diverted from its ordinary cares, and the body, through stimulated action of the skin, is working with renewed activity.

It is not only the action of the water and friction of the skin that produces this result, but the actual amount of exercise taken. It is probably true that a person swimming and diving, as all active bathers are in the habit of doing, does nearly if not quite as much work with the muscles, and uses as many, as if going through exercises in a gymnasium. Taking into account the hyper-activity of every nerve-ending in the skin after a bath, we are led to the conclusion that half an hour's stay in the bath will be more apt to remove effete material from the body, and react beneficially on all the organs, than ordinary gymnastic work for a similar period.

The moral effect of a public bath on a community should be considerable, holding up all the time as it does, a standard of cleanliness and vigor. Such an effect we think must be produced on our own community, though a difficult thing to recognize. Certainly our bathers appreciate the immediate benefits they obtain, and some of the poorer ones must carry some of their high spirits and obvious cleanness into their homes, and there stimulate an interest in bathing as one of the things worth having.

It is in this direction that we may confidently look to the public bath as an educative force, the parent getting his lesson through his child; and one of the pleasant things about this particular kind of education is, that it comes in an attractive, almost joyful form, and not in a gloomy and repellant one.

The town has been fortunate in securing the services of Mr. George S. Rich as Superintendent of the Bath. He has shown great patience and tact under trying circumstances, and has been faithful and efficient in the performance of his duties. The other members of the staff have ably seconded

him in his efforts to untiringly meet every demand made on the bath by the large number of visitors.

Estimate of Appropriations for 1898.

Wages	$4,500 00
Fuel	1,500 00
Lighting	300 00
General Repairs	500 00
Miscellaneous Supplies	400 00
Contingencies	400 00
	$7,600 00

REPORTS

OF THE

TREASURER AND COLLECTOR

For the Year Ending February 15, 1898.

SYNOPSIS.

Treasury Receipts from all sources	*$2,015,545.14*
Total Payments	*1,957,671.98*
Cash on hand	*$57,873.16*
Entire Debt (including $304,791 for water)	*$1,394,951.00*
Sinking Fund Securities (at par) and Cash	*$38,977.43*
Assessed value of Real Estate	*$47,519,000.00*
Assessed value of Personal Estate	*16,650,200.00*
Total valuation	*$64,169,200.00*
Tax-rate	*$12.20 per $1,000*
Population, estimated	*17,500*
Polls assessed	*4,774*

There was a reduction of $684,261 in the debt. There was an increase of $3,172,400 in the tax valuation.

The debt is $834,916 below the statutory limit.

General Summary of the Operations of the Town Treasury for the year ending February 15, 1898.

RECEIPTS.

	Balance from previous year		$43,667 44
1.	**Borrowed**		389,000 00

18.	**Miscellaneous**		1,849 16
	Highways, Sidewalks, Health Department, Services of Engineering Department, Fire and Police Alarm Telegraph, Longwood-avenue Bridge, Disabled Soldiers, and Refund of Legal Costs.		
	Total receipts		$2,015,545 14

Balance on hand: —

Deposited in National Banks	$49,236 97	
Cash in Office	8,636 19	
		$57,873 16

The Balance is made up as follows: —

Special appropriations	$6,873 01
General Fund	51,000 15
	$57,873 16

PAYMENTS.

1.	**Highways**	$150,379 41
	Cost of construction and maintenance of roads, bridges and sidewalks, watering streets, removing snow, and lighting.	
2.	**Schools**	130,513 77
	Salaries of superintendent, teachers, and janitors, cost of text-books and supplies, fuel, lighting and interior repairs of buildings, support of truants.	
3.	**Sewers**	55,427 31
	Extensions, repairs and cleaning.	
4.	**Police**	49,491 56
	Pay of officers, maintenance of station and equipment.	
5.	**Fire Department**	40,144 32
	Pay of members, maintenance of houses and equipment and additions.	
6.	**Water Works**	54,162 91
	Maintenance and extension.	
7.	**New Town Buildings (Bath House)**	7,813 36
8.	**Poor**	9,771 03
	Maintenance of Almshouse, and aid to outside poor.	
9.	**Care of Town Buildings and Grounds**	21,599 68
10.	**Public Library**	10,500 00
	Its support.	
11.	**State Tax**	41,632 50
12.	**County Tax**	58,354 17
13.	**Interest**	95,133 44
	On funded debt, and money borrowed in anticipation of taxes.	
14.	**Salaries for General Administration**	35,372 66
	Town Clerk, Selectmen, Overseers of the Poor, Treasurer and Collector and clerks, Assessors and clerk. Treasurer of the Sinking Fund, Water Board, Superintendent and Registrar, Superintendent of Streets and Sewers, Inspector of Buildings, Inspector of Plumbing, Town Engineer, Superintendent of Wires and Lights, Clerk of the Selectmen and Overseers of the Poor, Clerk of Trustees of Walnut Hills Cemetery, Registrars of Voters, Accountant, Stenographer, and Auditors.	
15.	**Sinking Fund**	76,250 00
16.	**Notes and Bonds Payable**	1,073,261 00
	Amounts borrowed in anticipation of tax receipts $350,000 Funded debt matured 723,261	
17.	**Public Parks**	4,003 66
	Construction and maintenance.	
18.	**Health Department**	17,537 76
	Clerk, Inspectors, nurses and scavenger.	
19.	**Contingencies and Miscellaneous**	17,718 75
	Office appliances, stationery, postage, legal expenses, registering and returning vital statistics, taxes to municipalities, Decoration Day, printing and advertising, Assessors' office and fuel, Beacon-street building-line damages, insurance, national bank tax, ringing bell, election expenses.	
20.	**State Aid and Aid to Soldiers Disabled and Families of Deceased Soldiers**	1,028 71
21.	**Engineering Department**	7,575 98
	Pay rolls and apparatus.	
	Total payments	$1,957,671 98

			$627,000 00

There was borrowed $389,000, as follows: —

Anticipation of Taxes $350,000 00

At the annual meeting, March 31st, 1897, it was —

Voted, That for the purpose of procuring a temporary loan to, and for the use of, the town of Brookline, in anticipation of the taxes of the present municipal year, the Town Treasurer is hereby authorized and directed to borrow from time to time, with the approval of the board of Selectmen, a sum or sums in the aggregate amounting to three hundred and fifty thousand dollars, and to execute and deliver the note or notes of the town therefor, payable within one year from the time the loan is made, with interest thereon at a rate not exceeding six per cent per annum. Any debt or debts incurred by a loan or loans to the town under this vote shall be paid from the taxes of the present municipal year.

Availed of as follows: —

April 5, 1897. Blake Bros. & Co., on four notes of $50,000 each, and one note of $25,000, all dated April 5, 1897, bearing interest at 3 $\frac{5}{100}$% per annum, and payable Nov. 5th, 1897	$225,000 00
April 7, 1897. Commissioners of Brookline Sinking Fund, on one note of $38,000 and one of $82,000, each dated April 5, 1897, bearing 3½% per annum interest, and payable Jan. 1st, 1898	120,000 00
Oct. 11, 1897. Same. On demand note for $5,000, bearing 4 % per annum interest, paid Jan. 1, 1898	5,000 00
	$350,000 00

The total cost of these loans was —

Nov. 5, 1897, $225,000, to Blake Bros. & Co. . .	$4,003 12
Jan. 1, 1898, $120,000, to Commissioners of Sinking Fund	3,091 67
Jan. 1, 1898, $5,000, to Commissioners of Sinking Fund	45 00
	$7,139 79

Anticipation of Taxes $50,000 00

December 29, 1897, it was —

Voted, That for the purpose of procuring a temporary loan to and for the use of the town of Brookline, in anticipation of the taxes of the present municipal year remaining due and unpaid at the time said loan is incurred, the Town Treasurer is hereby authorized to borrow from time to time, with the approval of the Selectmen, a sum not exceeding fifty thousand dollars and not exceeding the amount of the taxes for the present municipal year outstanding, not abated and due the town at the time and times when said debts shall be incurred. And said Treasurer is further authorized to execute and deliver the note or notes of the town therefor, payable within one year from the time when said debt or debts are incurred, with interest thereon at a rate not exceeding six per centum per annum. Any debts incurred by a loan or loans to the town under this vote are hereby expressly made payable from the taxes of the present municipal year.

Nothing has yet been borrowed under this vote.

Land for Public Playgrounds $100,000 00

At the adjourned annual meeting, April 14, 1897, it was —

Voted, That the sum of one hundred thousand dollars ($100,000) appropriated at the adjourned annual town meeting, April 14, 1896, for the purchase of land for public playgrounds, be re-appropriated.

Voted, That the Town Treasurer be authorized when so directed by the Selectmen, to borrow from time to time the sum of one hundred thousand dollars ($100,000) re-appropriated at this meeting for the purchase of land for public playgrounds, giving therefor the note or notes of the town, bearing interest at a rate not exceeding four per centum per annum, payable semi-annually, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such note or notes shall be made payable within thirty years from the date thereof.

Voted, That no purchase of land or expenditure of money under the authority of the foregoing vote shall be made by the Park Commissioners except with the previously obtained written approval of the board of Selectmen.

Nothing has been borrowed under this vote.

Longwood-avenue Bridge $87,000 00

June 30, 1897, it was —

Voted, That the Town Treasurer be authorized to borrow from time to time, when so directed by the Selectmen, a sum not exceeding eighty-seven thousand ($87,000) dollars in the aggregate, giving therefor the note or notes of the town bearing interest at a rate not exceeding four per centum per annum, payable semi-annually, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such note or notes shall be made payable in such annual proportionate payments as will extinguish the same in or within twenty years from their date, and are to be issued for the purpose of defraying expenses incurred by the town under Chapter 162 of the Acts of 1897, and the Park Commissioners are authorized to expend said sum, as appropriated at this meeting for the above purpose.

October 1st, 1897, $25,000 of the above was borrowed of the Provident Institution for Savings, Boston, on 20 notes numbered L1 to L20, each for $1,250, bearing interest at $3\frac{9}{16}$ per cent per annum, payable semi-annually, and due one each year during the succeeding 20 years, beginning October 1st, 1898.

Land for Additional Water Supply $14,000 00

December 22, 1897, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of fourteen thousand dollars ($14,000), appropriated at this meeting, to pay for land taken under the provisions of Chapter 343 of the Acts of 1872, and Chapter 131 of the Acts of 1888, for securing an additional water supply for the town, paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town, to be denominated on their face "Brookline Water Scrip," signed by the

Treasurer, and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportionate payments as will extinguish the same within twenty years from the date of the delivery of said note or notes.

January 31, 1898, the above $14,000 was borrowed of Blake Bros. & Co., Boston, on one note, number 834, for $7,000, and ten notes for $700 each, numbered 835 to 844 inclusive, all dated January 1, 1898, bearing $3\frac{35}{100}$ per cent per annum interest, payable semi-annually, the principal payable in twenty successive annual payments of $700 each, beginning January 1, 1899.

New Engine-house Site $8,000 00

December 22, 1897, it was —

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow the sum of eight thousand dollars ($8,000), appropriated at this meeting, for the purchase of a site for a new Engine-house, paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years from the date of delivery of said note or notes.

Nothing has been borrowed under this vote.

Primary School-house Lot, Stearns Road $18,000 00

December 29, 1897, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of $18,000, appropriated at this meeting, for the purchase of land on Stearns road, adjoining the Longwood Playground, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in or within one year, or in such annual proportionate payments as will extinguish the same in or within not exceeding five years from the date of delivery of said note or notes.

Nothing has been borrowed under this vote,

THE LIMIT OF INDEBTEDNESS.

Under the existing statutes governing municipal indebtedness, the amount which the town can borrow, in addition to its present debt, is as follows: —

Valuation for the assessment of taxes for 1897		$64,169,200 00
Gross Capacity (Pub. Stat., chap. 29, sec. 3) 3 per cent is		$1,925,076 00
Present Debt	$1,394,951 00	
Deduction allowed:		
Water Debt	$304,791 00	
Net Debt for the purpose of this calculation		1,090,160 00
Available Margin between the present net debt and the 3 per cent statutory limit		$834,916 00

TOWN DEBT.

The Total Debt at the beginning of the year was . . .		$2,079,212 00
There was Borrowed during the year:		
In anticipation of taxes	$350,000 00	
Longwood-avenue Bridge	25,000 00	
Land for additional Water Supply	14,000 00	
		389,000 00
		$2,468,212 00

The Payments were the amounts borrowed

in anticipation of taxes		$350,000 00

BROOKLINE, February 15, 1898.

GEORGE H. WORTHLEY,

Treasurer and Collector.

REPORT OF THE COMMISSIONERS OF THE SINKING FUND.

The Commissioners of the Sinking Fund of the Town of Brookline herewith submit their annual report: —

Since the establishment of the fund there have been paid town notes amounting to	$1,687,958 00
The par value of investments now constituting the fund is	38,977 43
	$1,726,935 43
The amount of appropriations for the Sinking Fund from the commencement to date is	$1,476,057 25
Showing an increase of	$250,878 18

The present investments of the fund are as follows: —

Bonds and Notes.

Brookline	5s,	due Jan. 1, 1900, J. & J.	$4,000 00
"	4s,	" Apr. 1, 1898, A. & O.	5,600 00
"	4s,	" May 1, 1898, M. & N.	10,000 00
"	4s,	" June 1, 1898, Je. & D.	4,000 00
"	4s,	" Feb. 1, 1899, F. & A.	1,250 00

REPORT OF THE AUDITORS.

The Auditors have examined the accounts of George H. Worthley, Treasurer of the Town of Brookline, Treasurer of the Warren Tree Fund, and Treasurer of the Walnut Hills Cemetery, and report that they have been found correct, with proper vouchers and warrants. They have examined the accounts of the Collector, and find them as reported.

They have also examined the accounts of the Treasurer of the Sinking Fund, and find them as reported to the Commissioners, together with the securities belonging thereto.

GARDNER C. BROOKS,
SAMUEL W. BOWKER,
Auditors.

BROOKLINE, MASS., March 15, 1898.

REPORT OF THE TOWN ACCOUNTANT.

Brookline, Mass., February 28, 1898.

To the Board of Selectmen:—

Gentlemen, — I respectfully submit herewith the first annual report of the Accounting Department.

I have deemed it advisable by way of introduction to place on record here a brief résumé of the action of the town in relation to the establishment of this department.

At the adjourned annual meeting held on the 11th of April, 1895, it was

Voted, "That a committee of three be appointed by the Moderator to consider the expediency of establishing an Auditing department."

At the special meeting of January 30th, 1896, a committee of seven was appointed to revise the town by-laws.

The committee appointed at the meeting of April 11th, 1895, reported at the adjourned annual meeting of April 14th, 1896, recommending the establishment of an Auditing department and the adoption of certain by-laws for its government. These by-laws were reported to the town by the committee on revision at the special meeting of June 25th, 1896; the term "Accounting" being substituted for "Auditing," and thus amended were adopted at that meeting. Article VIII, which provides for the appointment of an Accountant and prescribes his duties, having been submitted to the Court for approval, was, at the October (1896) sitting, approved.

On the 25th of January, 1897, the board did me the honor to appoint me as Town Accountant, and I assumed the duties of the office on the 1st of February.

It was evident from the tenor of the remarks made at the several meetings at which this subject was considered, that the principal object for which this department was established was to provide a more complete check on the financial transactions of the town and the assurance that money appropriated by the town was expended for the purpose for which it was voted and for no other purpose. There was not the slightest suggestion that anything wrong had been going on; but the expenditures of the town had increased until the million mark had long been passed, and the business men of the town, believing in the

"ounce of prevention" theory, decided that it was time a system of accounting entirely independent of all other departments should be put into operation.

This was the situation, as I understood it, when I assumed the duties of Town Accountant. With these ideas in mind I commenced at once to familiarize myself with the details of the work of the several departments of the town's service. I did not attempt to introduce any radical changes, but in my own work adopted such careful methods as would enable me to see what was being done, and place myself in a position where I could suggest such changes as my judgment and experience showed me would be to the advantage of the town. My reception by all the town officials was a kindly one, and whatever changes I have suggested have met with considerate attention. In the matter of the Treasury Receipts I have, as far as possible, introduced methods by which I could know what the receipts were without calling upon the Treasurer for an account of what he had received. In other words, I wanted to be in a position to say that he had accounted for all the funds he had received, rather than that he had accounted for the funds he *said* he had received. There is an important distinction here which will be appreciated by business men. Every suggestion I have made to this end has been heartily seconded by the Town Treasurer, and in no instance has the information I have asked for been withheld or been grudgingly given. His books have been at all times open to my inspection; I have counted every dollar of the money in his hands at the close of each month, and verified his bank balances; noting in every instance the amount on hand, to be able to compare it with the balance shown by my books. All the pay-rolls and bills (except those of the Public Library) have passed through my hands before payment, have been carefully examined, the computations and footings verified, and I have satisfied myself that in every instance the amount was charged to the proper appropriation before I have affixed my signature. The bills have then been entered on my books, after which they have gone to the Treasurer with a proper warrant for their payment.

Having thus given a brief statement of what has been done in the way of organization, I will now proceed with the details of the Receipts and Expenditures.

TREASURY RECEIPTS.

The total receipts as shown by the Treasurer's books for the year ending January 31, 1898, were $2,015,545 14

This amount is made up of the following items:

1. Borrowed in anticipation of Taxes.

Amount borrowed in 1897-8 . . . . . 350,000 00

As this was simply a tempory loan repaid during the year we will deduct this amount from the total, and no account of it will be made in the expenditures.

Receipts, less amount borrowed in anticipation of taxes $1,665,545 14

2. Special Funds.

a. Balance of funds in hands of Treasurer Feb. 1, 1897, borrowed in 1895-6 for

High School Furnishing .	$251 80	
Druce-street School House	6,246 13	
Village Brook Channel . .	12,819 43	
Land for additional Water Supply	3,024 73	
	$22,342 09	

b. Borrowed during the year 1897-8.

On account of Longwood-avenue Bridge	25,000 00	
For Land for Additional Water Supply	14,000 00	
Total Special Funds		$61,342 09

These Special Funds form no part of the *Income*, nor is the expenditure any part of the current expenses. They will therefore be treated in an account by themselves. See Special Funds.

3. Amount received from Sinking Fund.

Amount paid into the Treasury in 1897-8 . . . . . 550,000 00

This is strictly speaking a Sinking Fund account and will be treated as such. See Sinking Fund.

4. Refunds and Credits.

a. Amounts received from persons, firms, corporations and municipalities for materials furnished and service rendered. The town paid for the work or material and was afterward reimbursed for the outlay, the amount being credited to the departments which have done the work. All such "receipts" are here considered simply as "refunds" and are credited to the following accounts:

Carried forward $611,342 09 $1,665,545 14

Brought forward		$611,342 09	$1,665,545 14
Extension of Water Works,	$9,062 22

EXPENDITURES.

In the report of expenditures as made by the Town Treasurer it has been customary every year to show the names of the persons, firms and corporations to whom money has been paid. In the following statements it will be seen that, except in a few instances, no names appear; the intent being to show *how* the money has been spent, or, in other words, what the town has received for the money expended. These statements, taken in conjunction with the Treasurer's report, tell the whole story as far as possible without too much repetition.

1. EXPENDITURES FROM INCOME.

Schools.

Services of regular teachers . . .	$64,001 28		
Services of Janitors (except Old High and Union)	9,935 00

Village-brook Channel, balance of funds borrowed in 1896	12,819 43	6,912 77	5,906 66
Land for water supply, balance of funds borrowed in 1896	3,024 73	16,988 97	35 76
Land for water supply, borrowed in 1897	14,000 00		
Longwood ave. bridge, borrowed in 1897	25,000 00	18,126 99	6,873 01
Totals	$61,342 09	$48,526 66	$12,815 43

The balance here shown, $12,815.43, together with the balance of Income, $45,057.73 as shown on page 424, make up the cash balance as shown in the Treasurer's account. It will be seen that there is a difference between his account and mine in that I have kept the Special Funds (borrowed money) intact, while he has dropped the balances standing to the credit of Village-brook channel, $5,906.66, and Land for water supply, $35.76, from the Special Funds, and merged them in the General Fund. Differing from the method followed by the Treasurer and his predecessor for many years, I think the funds raised by borrowing should be kept entirely free and clear from the Income, and that in no case should such funds be used in paying any part of the current expenses. If, when the work for which the funds are borrowed is completed, there be any money left, it should be used toward liquidating the town debt, or if expended, it should be for purposes other than the ordinary running expenses.

3. THE SINKING FUND.

The operations of the Sinking Fund, leaving out all minor details, were as follows: —

Cash in National Banks Feb. 1, 1897		$156,692 03
Funds invested in securities, par value		335,290 00
Total, Feb. 1, 1897		$491,982 03

Receipts.

Interest on investments	$20,043 24	
Less accrued interest paid on bonds purchased	392 97	
		19,650 27
Premium on securities sold	$1,313 75	
Less premium on bonds purchased	218 62	
		1,095 13
On account of appropriation 1897		76,250 00
		$588,977 43

Payments.

5% Sewer Bonds of April 2, 1877	$125,000 00	
7% Water Loan of Jan. 1, 1874	400,000 00	
5% Water Loan of May 1, 1876	25,000 00	
		550,000 00
Balance Feb. 1, 1898		$38,977 43
Which is in funds invested	$38,860 00	
On deposit in National Banks	117 43	
	$38,977 43	

I have examined the accounts of the Commissioners of the Sinking Fund, with the securities and the official statement submitted at the close of the year, and find them correct as stated. I have also had in my hands all of the bonds paid during the year, and find them properly cancelled.

I have in the performance of my duties during the year examined the accounts of the Trustees of Walnut Hills Cemetery, and have found them to be correctly kept, with proper vouchers for all disbursements. The accounts of the Treasurer of the Trustees of the Public Library were also examined at the close of the year, with the official statement intended for publication in the Town Report. I find the accounts to be correctly kept and that the official statement is in accord with the facts as shown by the Trustees' books.

Before closing this report I wish to make a few suggestions in regard to the annual appropriations. In a communication addressed to the Board last October, I called attention to the complications arising from the present method of making the appropriations, and suggested that if an appropriation could be made of a lump sum for the use of each department of the town's service, it would work advantageously and, in the end, satisfactorily to the town. Such a proposition does not necessitate the abandonment or abridgment of the power of the town to limit the expenditure for any especial work of the departments. It simply does in a more methodical way what has always been done. It would simplify the work in the Treasurer's office and in the Accounting Department as well, and render unnecessary a good deal of duplication which now is unavoidable. I cannot go into details here without taking up too much space in the Town Report, and having already talked the matter over with the members of the Board I commend it to your attention in the hope that something may be done in this direction in making the appropriations for this year.

In the detailed statements presented in this report I have introduced what I regard as an important feature in accounting, a methodical *Classification of the Expenditures.* In the short time intervening between the close of the year and the printing of the annual report the work has been somewhat hurried, but I hope it will be acceptable. To keep the accounts in this way is perhaps more than the citizens of the town intended or expected when they voted to establish an Accounting Department, but in my judgment it is what every progressive municipality ought to have. As a means of comparing the work of one year with another and showing where economy in the expenditures can best be secured, such a system will undoubtedly be of great value.

Respectfully submitted.

EDWARD B. HILL,

Town Accountant.

Statement Showing the Expense of Conducting the Public Schools of the Town of Brookline, for the year ending January 31st, 1898.

Received on bank stocks from the State	17,558 58	
		$149,534 55

REPORT OF THE ASSESSORS.

The Assessors of the town of Brookline submit their report for the year 1897.

The board organized with R. G. F. Candage, chairman, and Harry H. Whitney, clerk, he having been certified for the office by the Civil Service Commission. Mr. Whitney began his service the first of May at a salary of $1,200 per annum, and has discharged his duties to the satisfaction of the board.

Mr. Albert Cushman, for six years clerk of the board, resigned his position on account of increasing infirmities, and a few months thereafter passed away. We here place on record this tribute to him as one who ever had at heart the interests of the town. He was a good citizen, an honest man, a genial associate, and one whose loss we deplore.

The board renews its former recommendation that the election of Assessors be for the term of three years, one member's term to expire each year.

The division of the town into districts, made in 1895, has been maintained during 1897, with the same allotments as heretofore.

The Assessors gave the legal notices required, and in addition published them in the Brookline Chronicle during the month of May, and left printed duplicates of same at all dwellings and places of business in the town, requesting tax-payers to bring in true lists of their polls, real and personal property.

The work of canvassing the town to ascertain the names of its poll and property tax-payers, and the examination and valuation of real estate began the first of May, and was completed in June.

The probate records, registry of deeds, corporation and bank stock lists at the office of the Tax Commissioner at the State House were examined and consulted as in former years.

The number of polls assessed was 4,774, a gain of 212 over last year; transfers of real estate, 489, a decrease of 73; poll tax-payers only, 3,088, a gain of 114; resident tax-payers on property, 2,399, a gain of 96; estates, firms and trusts, 371, a loss of 60; non-resident individual tax-payers, 385, a gain of 35; non-resident estates and trusts, 86, a gain of 26; horses, 1,571, a loss of 82; cows, 361, loss 66; sheep, 125; dwellings, 2,617, gain of 53; other buildings, 795; acres of land, 3,807.13; whole number of tax-bills, 6,329, a gain of 212.

Valuation of personal estate . .	$16,650,200	Gain	$1,456,000
Valuation of real estate . . .	47,519,000	"	1,716,400
Total	$64,169,200	"	$3,172,400

Add to above value of corporation and bank stocks assessed by Tax Commissioner — say $9,500,000 — and the sum total foots up $73,669,200.

The total town appropriations were $892,794.42; State tax, $41,632.50; County tax, $58,354.17; Metropolitan Sewer tax, $13,167.27; overlay, $19,000; total, $1,024,948.36. Cash in the treasury and estimated receipts, $232,536.12, deducted, left the amount to be raised by taxation, $792,412.24, which made the rate $12.20, a decrease from 1896 of 20 cents on $1,000.

We herewith present the condensed statement of the taxation for 1897, and a table of aggregates of debt, expenditures, valuation and rate from Feb. 1, 1847.

R. G. F. Candage,
Charles H. Stearns,
Thomas H. Talbot,
Assessors.

Brookline, Feb. 1, 1898.

TABLE OF VALUATION, EXPENDITURES, RATE OF TAXATION, AND DEBT OF THE TOWN OF BROOKLINE, FROM FEB. 1, 1847, TO FEB. 1, 1898, INCLUSIVE.

[COMPILED BY THE TOWN TREASURER.]

YEAR.	Expenditures for the Year Ending Feb. 1.	Debt, Feb. 1.	Total Valuation, May 1, of preceding year.	Rate of Tax on $1,000.
1847	$9,335 14	$2,156 43	$3,909,200 00	$2 30
